

MEMORANDUM

TO: District Engineering Administrators
District Construction Engineers

FROM: Robert E. Isgett III, P.E., Director of Construction

DATE: May 6, 2021

RE: Revision to Section 702.2.6 of the 2004 Construction Manual
Payment of Stay-in-Place (SIP) Steel Bridge Deck Forms as Material-on-Hand

With reference to Section 109.8 of the Standard Specifications and in coordination with the Carolinas AGC, the Director of Construction Office is issuing the below guidance to ensure prompt payment of stay-in-place steel bridge deck forms as material-on-hand:

If stay-in-place steel bridge deck forms are used in accordance with Section 702.4.1.7 of the Standard Specification and the total invoice price for the material is in excess of \$5,000, make partial payment for the durable material in accordance with Section 109.8, Paragraphs 1 and 4, of the Standard Specifications. As no separate pay item exists for this material, pay 80% of the invoice price as an equivalent yardage of the structural concrete pay item for the deck concrete. Ensure proper tracking of this partial payment such that overpayment is not made for the concrete deck at the completion of the concrete placement. This can be accomplished by using the Stockpiled Materials feature in SiteManager.
