Please explain how these funds will be used to provide a public benefit:

This contribution will be used to design and construct a connector under the bridge that will connect Ashley River Park to the future Ashley River Library and park expansion along the Ashley River near Summerville. Both the park and library are public facilities with a strong nexus of joint patronage, so the connector will create a safe passage for citizens looking to park once and walk between the facilities.

Please provide the scope of services for the project.

It is anticipated that the connector will be consistent of a concrete culvert style fabrication with sidewalk switchbacks to grade. This will be situated under the bridge that crosses the Ashley River on Bacons Bridge Road between Dorchester Road and Highway 61.

Please provide a timeline / schedule for completion of the project.

Design is approaching 100% as the County had previously contracted with HDR Engineering. Once design is completed in December 2023, the County will seek pricing from pre-qualified contractors. It is estimated that the project could be completed by Fall 2024.
