DATE: May 27, 2009

RE: Requirements for Hydraulic Design Studies – May 26, 2009

SCDOT *Requirements for Hydraulic Design Studies* has been updated and will go into effect for new projects designed by Departmental staff after June 1, 2009. Implementation of these requirements and associated engineering directive, instructional bulletin, memorandums and specifications are to be included in all new consulting engineering contracts executed after June 1, 2009. The update is available online at the following location:

www.scdot.org/doing/hydrology_requirements.shtml.

RIP:cks

cc: Tony L. Chapman, Deputy Secretary for Engineering
John V. Walsh, Chief Engineer for Planning, Location, and Design
J.C. Watson, Chief Engineer for Operations
