

# Rule on Work Zone Safety and Mobility

## Project Classifications

### Significant Projects

The policy and implementation guideline developed by the SCDOT in accordance with updates to the work zone regulations at 23 CFR 630 Subpart J, developed by the Federal Highway Administration, requires evaluation of all impending projects for identification of Significant projects. Significant projects are anticipated to cause sustained work zone impacts that are greater than what is considered acceptable by the SCDOT. These projects will require extensive efforts such as Transportation Management Plans and Work Zone Intelligent Transportation Systems to minimize work zone impacts.

Members of Planning, Preconstruction, Federal Highway Administration, and Traffic Engineering continually conduct evaluations of the Statewide Transportation Improvement Program, the approved bridge replacement program and the interstate maintenance program to identify probable Significant projects. Projects being funded through local option sales tax programs are also evaluated. Also, projects under development by consultant firms and projects being developed through the design-build process are evaluated as well.

The Regional Production Engineers, consultant firms, design-build teams, and others responsible for the design and development of road projects should consult this listing so that they may proceed in accordance with the requirements of the *Rule on Work Zone Safety and Mobility: Implementation, Maintenance, and Safety Guidelines*.

All projects conducted on the interstate highway system are considered to be Significant projects. Due to the accelerated development process of interstate maintenance projects (rehabilitation projects), these highway projects may not appear in this listing but are classified as Significant projects.

Projects that qualify for an exception as a Significant project in accordance with "Section 9 – Qualifications for Exception as a Significant Project", "Section 10 – Process for Requesting an Exception as a Significant Project", and "Section 11 – Blanket Exceptions as Significant Projects" of the *Rule on Work Zone Safety and Mobility: Implementation, Maintenance, and Safety Guidelines* do not appear in this listing.

**District 1**

<b>COUNTY</b>	<b>FILE NUMBER / PROJECT ID</b>	<b>ROUTE NUMBER / ROAD NAME</b>	<b>PROJECT DESCRIPTION</b>
<b>Kershaw</b>	P029450	I-20	Dual Bridge Replacement over Wateree River (Project combined with P029776 & P029777) (Alternative Delivery)
	P030340	US 1	Bridge Replacement over CSX Railroad (#1)
<b>Lee</b>	0033261	Bishopville Bypass	New location facility around the City of Bishopville
<b>Lexington</b>	P030265	US 378	Bridge Replacement over Twelve Mile Creek
	0012506	I-26 / SC 302	Bridge Replacement / Interchange Upgrade
	0039652	US 378	Bridge Replacements over Horse & Hollow Creeks
	P027003	I-20	Widening (US 378 to Longs Pond Road) (Alternative Delivery) Project Complete – Warranty period underway
	P027229	US 21 / I-26 (Exit 119)	Bridge Replacement over I-26 / Interchange Upgrade
	P029073	US 21	Bridge Replacement over Congaree Creek
	P030488	I-26 / US 1 / Railroad	Bridge Replacement over US 1 and Railroad
	P030711	US 1 / I-20 (Exit 58)	Bridge Replacement over I-20 / Interchange Upgrade (Alternative Delivery)
<b>Lexington / Calhoun</b>	P040014	I-26	Widening (Exit 125 to Exit 139)
