

### **Bridge Maintenance History**

SCDOT does not have documented dates for overtopping or debris build-up events. However, local maintenance forces indicate the following conditions at various locations.

- S-11-97 over Goforth Creek – repetitive debris removal required
- S-11-119 over Bear Creek – no maintenance issues known
- S-11-265 over Manning Creek – no maintenance issues known
- S-12-58 over Little Rocky creek – came very close to overtopping in extreme storm once - no maintenance issues known
- S-12-300 over Little Rocky Creek Branch (2 bridges) – no maintenance issues known
- S-20-214 over Little Creek – no maintenance issues known
- S-44-87 over Padgetts Creek – overtopped once – no maintenance issues known
