RE: SUE QL D Utilities mapping services on the US 278 (Cross Island Parkway Toll Conversion) Beaufort County, SC; PIN# P040119; Work Order# 2118-W-4; V&M Project# 082112-01.

Dear Mr. Dawson:

We are pleased to submit the SUE deliverables for the US 278 (Cross Island Parkway Toll Conversion) Beaufort County. Transmitted electronically in pdf format is our signed "Engineer Certification For Plans and Specifications" form, and four (4) MicroStation files (u119ts.dgn, u119ul.dgn, u119pp_U-1.dgn and u119pp_U-2.dgn). If requested, hard copies of the drawings will be provided. Also, we are providing all utility records and information that we gathered to use for the development of the Quality Level D mapping in pdf form and attached to this letter.

If you have any questions or need any additional information, please call me.

Sincerely,

Vaughn & Melton Consulting Engineers
Regional Vice President SC and GA

Okay the blue line is our fiber and yellow will be coax. We'll have to locate it and all to be exact but this will be pretty close to accurate.

Thanks,
Richard Howell

The dark blue dashed lines are 3 phase underground primary conductors (12.47kV_{LL}).

The red, green and light blue dashed lines are single phase underground primary conductors (7.2kV_{LG}).

All secondary conductors in reference to this area are commercial property and are not owned or maintained by PECL.
