Beth,

Attached is an aerial shot with our overhead power lines near the Timms Mill Rd Bridge, it's a little hard to pick out the creek area but we do not have any underground lines near the bridge. The closest overhead is over 250 feet away. Hope this helps.

Subject: as-built / records request - SCDOT bridge replacement

[Note: This message originated from outside the organization. Do not open links or attachments unless you can verify the sender and are sure of its contents.]

Good morning, Mr. Lewis.

Thank you for taking my call. As we briefly discussed, we are assisting SCDOT on the Timms Mill Road over Six&Twenty Creek Bridge Replacement project in Anderson County. We have been tasked with utility records research to aid SCDOT in an accurate design of the bridge replacement. Our SC811 one-call request indicated Blue Ridge Electric Coop may have facilities within the project site. I've attached the SC811 ticket notice, as well as the Google Earth .kml file for reference. Any records you can provide for this site is greatly appreciated. If you have any questions about anything, please call me at (843) 769-7379 ext 1618.

Thank you.
Beth
