INSTRUCTIONAL BULLETIN NO. 2003-8

SUBJECT: Design Reference Label
EFFECTIVE DATE: April 21, 2003
SUPERSEDES: None
RE: None

The design criteria used for roadway design will be referenced on each set of plans in a note added to the Title Sheet. The note will be added along the right border of the Title Sheet in the proximity shown on the attached sketch.

Two cells have been created and added to the cell library to indicate which AASHTO "A Policy on Geometric Design of Highways and Streets" was used as the design reference for the plans. The names of the cells are GB-9094 and GB 2001 for the AASHTO references dated 1990/1994 and 2001, respectively. Select and place only one cell.

Those projects already let to contract since January 1, 2001, and archived in the Plans Storage Office have been identified and the appropriate note stamped on the Title Sheets.

Approved: _____
E. S. Eargle
Road Design Engineer
