INSTRUCTIONAL BULLETIN NO. 2004-12

SUBJECT: Pavement Under Guardrail for Bridge Replacement Projects

EFFECTIVE DATE: March 18, 2004

SUPERSEDES: None

RE: Standard Drawing 403-2, "Paving Under Guardrail"

On all bridge replacement projects, both primary and secondary, provide quantities for paving under guardrail. See Standard Drawing 403-2 for details. District personnel should determine on the Design Field Review how the paving under guardrail should be set-up. The pay item of "Paving Under Guardrail" by the square yard or additional quantities by the ton of the surface course and liquid binder will be provided on the "General Construction Note" sheet in the plans. The note next to the pay item on the "General Construction Note" sheet should say "For paving under guardrail per Standard Drawing 403-2"
