INSTRUCTIONAL BULLETIN NO. 2011-4

SUBJECT: Revised Erosion Control Data Sheet

EFFECTIVE DATE: October 18, 2011 **SUPERSEDES:** Instructional Bulletin 2004-5

RE: Instructional Bulletin 2011-1 and Supplemental Technical Specification SC-M-810-2

A revised erosion control data sheet (ECDS) has been developed to comply with current guidelines and a copy of the revised sheet is included for reference. The following is a summary of the changes:

- Road/Route column was added to Receiving Waters and Sediment Dam Table
- Removed "Silt" from headings underneath Sediment Dam Table
- Note for Incisement was removed from Sediment Dam Table
- Column for Type 4 was removed from Permanent Turf Reinforced Mat
- Classes A, B, and C were removed from the Temporary Erosion Control Blanket table and the quantity column was revised to MSY units.

The reference file name of the erosion control data sheet will remain ecds_border.dgn. The ECDS Excel spreadsheet and instructions have been updated and can be found online at www.scdot.org/doing/sediment erosion.shtml.

The instructions have been updated for the Axiom import tool and can be found at http://iwww.dot.state.sc.us/PreConstruction/Support/design/ecds/ECDS.pdf.
