DANIEL P. FANNING  
EXECUTIVE DIRECTOR

**INSTRUCTIONAL BULLETIN NO. 94-13**

**SUBJECT:** PS&E Title Sheet

**EFFECTIVE DATE:** July 1, 1994

**SUPERSEDES:** New

**RE:** Road Design Engineer's Memoranda dated 11-21-91 and 11-20-93

The PS&E Title Sheet has been revised to provide for the selection of the type of clearing and grubbing desired on a project. As noted in Road Design Engineer's memorandum dated November 29, 1993, "Clearing and Grubbing Within Roadway" will be used on all future plans unless otherwise indicated on the PS&E or requested in writing by the Project Engineer. The revised PS&E Title Sheet also has a space available for a reason to be given when "Clearing and Grubbing Within Right of Way" is selected. A reason must be provided or the clearing and grubbing should be changed to "Within Roadway". If no reason is given on the PS&E Title Sheet at the time of the field review, request the Project Engineer to write a reason on the PS&E Title Sheet in the appropriate location prior to submitting plans to be checked.

Please begin using the new PS&E Title Sheet on all projects that have not had a PS&E field review as of this effective date. A copy of the revised PS&E Title Sheet is attached.

**APPROVED:**

E. S. Eargle  
Road Engineer-Design
