September 11, 1995

**INSTRUCTIONAL BULLETIN NO. 95-8**

**SUBJECT:** Mowing  
**EFFECTIVE DATE:** September 15, 1995  
**SUPERSEDES:** None  
**RE:** None

A mowing pay item should be added to all projects except bridge replacement projects beginning with the October 1995 Highway Letting. Also, other projects which have only a small quantity of seeding may not need a mowing quantity. These projects should be identified on the PS&E and a decision made whether or not to include mowing. Quantities will be determined by the same amount of total seeding and/or sodding in the plans including temporary seeding. Mowing will be measured along the surface in square meters (MSY). Payment will be full compensation for all materials, equipment and labor necessary to complete the work. Vegetation will be cut to a height of 100 (4) to 150 millimeters (6 inches). If additional quantities are desired, they should be noted during the PS&E field review.

The new pay item is as follows:

**8109900 Mowing m2(MSY)**

**APPROVED:**
