INSTRUCTIONAL BULLETIN NO. 96-4

SUBJECT: Property Data On Bridge Replacement Projects

EFFECTIVE DATE: March 11, 1996

SUPERSEDES: Instructional Bulletin No. 95-18

RE: None

On normal bridge replacement projects it is not necessary to close the property. Show property lines and owner names as you would on secondary projects.

However, where right of way is necessary the affected tracts shall be numbered and obtains computed and recorded under the property owners name on the plans. A right of way data sheet is not necessary.

Normal bridge replacement projects are projects where the Bridge Project Manager is the responsible engineer. Bridge projects handled by Highway Projects will have their property closed as in the past.

APPROVED: _____

E. S. Eargle
Road Design Engineer
