Tyke,  
I am forwarding the Port Access CSX R/W files from Arcadis. We met them Friday morning and shot what they had staked in the field and verified that they match the attached file. Due to the inaccessibility of the right of way, many of the stakes were set on offsets. To avoid clutter and confusion I'm not including our shots with the file, only that we verified the attached location in the field. If you need our data of what we shot in the field, let me know and I will send you a file.

Thanks,
