January 2011

January 24, 2011

South Carolina Department of Transportation Lowcountry RPG, Room 406 955 Park Street Columbia, South Carolina 29202

Attention:

Mr. Chris Gaskins, P.E., P.G.

Reference:

Report of Phase I Environmental Site Assessment

Port Access Road

North Charleston, South Carolina SCDOT File No. 10.037345A S&ME Project No. 1131-08-554

Dear Mr. Gaskins:

S&ME, Inc. has completed a Phase I Environmental Site Assessment for the referenced property. The attached report presents the findings of S&MEs Phase I Environmental Site Assessment which was performed in general accordance with ASTM E 1527-05 and S&ME Proposal No. 34-08-087B, dated June 29, 2010.

S&ME appreciates the opportunity to provide the Environmental Site Assessment for this project. Please contact us at your convenience if there are questions regarding the information contained in this report.

Sincerely,

S&ME, Inc.

Mary Beth Cline, P.E.

Project Manager

Chuck Black, P.E. Senior Engineer

SUMMARY

S&ME, Inc. has completed a Phase I Environmental Site Assessment (ESA) for the site described herein on the Port Access Road property located in North Charleston, South Carolina. The subject site comprises 63 Charleston County tax parcels identified by the South Carolina Department of Transportation (SCDOT) as Tracts 1-70. Tract 36 and Tract 64 were omitted. Tracts 65, 66, 68, 69, and 70 are not identified with tax map numbers. Our services were authorized by the SCDOT through acceptance of our proposal No. 31-08-087B dated June 29, 2010. This summary is intended as an overview of the Phase I ESA, for the convenience of the reader. The complete report must be reviewed in its entirety prior to making decisions regarding this site.

S&ME Project No. 1131-08-554

January 2010

The subject property is located in the neck area of the Charleston Peninsula. Property reviewed as part of this assessment includes: land parallel to Interstate 26, Spruill Avenue, and Stromboli Avenue; land for a new road to connect Interstate 26 with the proposed Marine Container Terminal at the Charleston Naval Complex and Bainbridge Avenue; and land for a new road to connect Spruill Avenue with Bainbridge Avenue.

We contracted Environmental Data Resources, Inc. (EDR) to conduct an environmental database search of the subject property and the surrounding area. The subject property and numerous off-site facilities were listed in the databases report. Interviews with owners and government officials, historical and regulatory research, and observations indicated significant environmental concerns including land use controls (LUCs), active areas of concern (AOCs), solid waste management units (SWMUs), Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) listings, Brownfield sites, State Hazardous Waste Site (SHWS) facilities, Groundwater Contamination Inventory (GWCI) listings, and other environmental findings related to the current conditions on the subject property. Additionally, several adjacent properties exhibit environmental concerns.

Based on this Phase I ESA, S&ME found no evidence *recognized environmental conditions* in connection with the subject property, except the following:

On-site

- Regulatory status (Swift Agri-Chem Corporation) and historical property use of Tract 1 and Tract 66
- Regulatory status (Rhodia and Mobile Chemical Company) and historical property use of Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D
- Regulatory status (Van Ness Sign & Leasing Site) and historical property use of Tract 5 and Tract 68
- Historical presence of a gas tank on Tract 6
- Past operation of Southern Chemical and Professional Carpet Sales on Tract 11 and historical ownership of Tract 9, Tract 10, and Tract 11 by Southern Chemical
- Historical land use as a machine shop since 1981 and stained soils on Tract 20

• Previous land use as an automobile junk yard, observed mounds, and historical auto shop on Tract 22

S&ME Project No. 1131-08-554

January 2010

- Historical property use of Tract 24 as a gasoline station
- Historical property use of Tract 25 as a repair shop since at least 1955
- Historical property use of Tract 26 as a body shop from 1975 to 1990 and the historical property ownership by Atlantic Pest Control Company in 1960
- Historical property use of Tract 28 and Tract 61 as a truck repair shop with floor drains, trough drains, oils, lubricants, parts washers, and an oil water separator
- Regulatory status (Macalloy) and historical property use of Tracts 29, 30, 31, 32, 33, 59, and 65
- Regulatory status (SWMU 9 and SWMU 196) and historical land use of Tract 34, Tract 35 and Tract 70 as a landfill on the Navy Base and groundwater contamination above the RBSLs associated with the USTs previously located at Building 661
- Historical land use of Tract 37 as the Charleston County incinerator and documented groundwater contamination
- Historical operation of a blast pit and the spent materials from the blasting on Tract 38
- Operation of chassis repair shop and stained soils on Tract 39
- Operation of a stevedoring repair shop and oil water separator on Tract 43
- The previous use of an underground storage tank on Tract 45 with no closure assessment
- Groundwater contamination above the RBSL and the historical operation of the wash bay, the associated underground piping, and potential for an oil-water separator on Tract 46
- Groundwater contamination on Tract 47 associated with the plume on Tract 46
- An active UST release with additional assessment pending on Tract 49
- Historical property use of Tract 57 as a gasoline station
- Historical property use of Tract 62 as a junk yard
- The former TriState landfill
- Septic tanks on non-residential properties
- The unknown source and content of fill material in marshlands
- Historical ownership of Tract 1, Tract 66, Tract 2, Tract 3, Tracts 4, 4A, 4B, 4C, and 4D, Tract 5, Tract 23 and Tract 63 by fertilizer and chemical companies

Offsite

- Current operations, the stained soil, and underground piping associated with the ASTs on Tract 38
- Historical use of the property on the southwest corner of the intersection of Disher Street and King Street Extension (eastern adjoining property of Tract 20) as an auto junk yard, used auto parts store and the current use as a truck repair shop
- Previous operation of Maloney Fertilizer on the eastern/northeastern adjoining property of Tract 2 and Tract 3
- Previous operation of a drycleaner located in the northeast corner of the intersection of Corona Street and Riverview Avenue

- B.L. Montegue & Co., located north of Azalea Drive at its intersection with King Street Extension
- Historical operation of a filling (retail petroleum) station, auto repair shops, and a scrap yard on the northern off-site portion of Tract 67

January 2010

- Infinger Transportation Company located approximately 800 feet from the subject property.
- Excel Apparatus Services, General Electric Company, and Besco Facility listed on the UST, FTTS, UST, RCRA-NonGen, PADS, Brownfields, and SHWS databases approximately 1000 feet from subject property.
- Phosphate plants, chemical companies, fertilizer companies, bulk oil terminals, and the Navy Base have operated in the neck area of the Charleston Peninsula since the 1800s.

1. INTRODUCTION

S&ME, Inc. (S&ME) conducted a Phase I ESA on property the SCDOT is considering for purchase. The proposed project is a new road that will connect the proposed Marine Container Terminal at the former Charleston Naval Complex (CNC) to Interstate 26 in North Charleston, South Carolina. The road will be a new alignment with predominantly elevated structures and a new interchange at Interstate-26. The project also includes new and improved sections of surface roads in the immediate project area. The total length of the project is approximately 5 miles and includes the planned acquisition of multiple parcels of property. The project will entail the demolition of several existing structures including two highway overpasses.

The ESA was conducted using the American Society for Testing and Materials (ASTM) E 1527-05, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and in accordance with S&ME, Inc. proposal 31-08-087B dated June 29, 2010.

1.1 Purpose

The purpose of the ESA is to identify, pursuant to ASTM E 1527-05, recognized environmental conditions in connection with the subject property.

ASTM defines the term *recognized environmental condition* (REC) as the presence or likely presence of hazardous substances or petroleum products on the property under conditions that indicate an existing release, past release, or a material threat of a release of hazardous substances or petroleum products into the structures on the property or into the ground, groundwater, or surface water of the property. The term does not included *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of enforcement action if brought to the attention of appropriate governmental agencies.

1.2 Detailed Scope of Services

1.2.1 ASTM E-1527-05

S&MEs approach to performing this Environmental Site Assessment consisted of four major tasks in accordance with ASTM Standard Practice E1527-05.

S&ME Project No. 1131-08-554

January 2010

<u>Task 1</u> - A review of reasonably ascertainable public records for the site and the immediate vicinity was conducted. This review was performed to characterize environmental features of the site and to identify past and present land use activities, on or in the vicinity of the site, which may indicate a potential for *recognized environmental conditions*. The review of the reasonable ascertainable public records included:

- 1. Examination of federal, state, tribal and reasonably ascertainable local public records for the site and immediate vicinity.
- 2. Examination of one or more of the following standard sources: aerial photographs, fire insurance maps, tax files, building department records, zoning/land use records, street directories and topographic maps of the site and vicinity for evidence suggesting past uses that might have involved hazardous substances or petroleum products.

<u>Task 2</u> - A site reconnaissance was performed to identify visual signs of past or existing contamination on or adjacent to the site. This reconnaissance was also performed to evaluate evidence found in our public record review that might indicate activities resulting in hazardous substances or petroleum products being used or deposited on the site. The site reconnaissance included the following activities:

- A reconnaissance of the site and adjacent properties was performed to look for evidence of current and past property uses, signs of spills, stressed vegetation, buried waste, underground or above ground storage tanks, subsidence, transformers, or unusual soil discoloration which may indicate the possible presence of contaminants on the properties. Photographs are provided to document these conditions.
- 2. The exterior reconnaissance involved a viewing of the periphery of the property and a walk-through of accessible areas of the site interior.

<u>Task 3</u> – Interviews with past and present property owners, operators and occupants as well as with appropriate local officials were conducted to consider any local knowledge of hazardous substances or petroleum products on the property or on adjacent properties.

<u>Task 4</u> - Report preparation and review.

1.2.2 Exclusions from and Additions to Scope of Services

Unless specifically authorized as an addition to the Phase I ESA work scope, the assessment did not include any assessment of environmental conditions not specifically included in the ASTM E1527-05 standard including, but not limited to sampling of materials (i.e., soil, surface water, groundwater or air), or the assessment of business risk issues such as wetlands, lead in drinking water, asbestos containing materials, mold, fungi or bacteria in on-site buildings, regulatory compliance, cultural/historic risks, industrial hygiene, health/safety, ecological resources, endangered species, indoor air quality (including an evaluation of vapor intrusion), radon or high voltage power lines.

S&ME Project No. 1131-08-554

January 2010

1.3 Significant Assumptions

The groundwater within the local geologic province is typically contained in an unconfined (water table) aquifer. The slope of the water table under static conditions (no pumping interference) often approximates the land surface topography. Thus, the interpreted groundwater flow direction is assumed to be approximately the same as the dip of the ground surface. Perennial surface waters (creeks, streams, rivers, etc.) are assumed to act as a discharge point for groundwater flow.

1.4 Limitations and Exceptions of Assessment

This Phase I Environmental Site Assessment was conducted using ASTM E 1527-05. The findings of this report are applicable and representative of conditions encountered at the property on the date of this assessment, and may not represent conditions at a later date. The review of public records was limited to that information which was available to S&ME at the time this report was prepared. Interviews with local and state government authorities were limited to those people whom S&ME was able to contact during the preparation of this report. Information was derived from "reasonably ascertainable" and "practically reviewable" sources in compliance with our understanding of the standards set forth by ASTM E 1527-05.

Specific limitations to this assessment are; the operational history of the subject property and adjacent properties could not be documented in five year intervals or prior to development because standard historical sources with that information were not reasonably ascertainable. In addition, complete chain-of-title and environmental lien and activity or use limitations information was not provided by the user.

The client was responsible for reviewing land title and judicial records for environmental liens or activity and use limitations. Information provided by the client is assumed to be correct.

Limitations encountered during the site reconnaissance include dense vegetation, marshland/water, fences, and locked areas as described in Section 5.3 of this report. S&ME was unable to access Rhodia property (Tract 4, 4A, 4B, 4C, or 4D) at the time of this report.

S&ME was unable to interview property owners for Tract 6, Tract 7, Tract 8, Tract 12, Tract 13, Tract 14, Tract 15, Tract 16, Tract 17, Tract 18, Tract 27, Tract 31, Tract 32, Tract 33, Tract 60, Tract 62, Tract 63, Tract 65, Tract 67. Interviews with key site managers and occupants were limited as described in Section 6.2 and Section 6.3 of this report, respectively.

1.5 Special Terms and Conditions

This Phase I ESA was conducted in accordance with S&ME Proposal No. 31-08-087B, dated June 29, 2010.

1.6 User Reliance

The resulting report is provided for the sole use of the South Carolina Department of Transportation. Use of this report by any third parties will be at such party's sole risk

According to standards set forth by ASTM 1527-05, components of the Phase I ESA will expire 180 days from the date of completion of that component and may therefore require updating if the date of property acquisition exceeds this time period. The following table lists the dates of completion for pertinent components:

Component
Environmental Database Search
Site Reconnaissance
Interviews
Environmental Lien Search

Date of Initiation
November 12, 2010
October 2010-January 2011
October 2010-January 2011
Not provided

January 2010

2. SITE DESCRIPTION

2.1 Site Location

The subject property is located in the neck area of the Charleston Peninsula in North Charleston, South Carolina. The property is comprised of Charleston County TMS parcels as shown in the following table. Refer to Figures in Appendix I for the site location and Appendix II for the Charleston County tax map information.

Tract No.	Property Owner	Reviewed Acreage	Charleston County TMS
1	Ashley II of Charleston, LLC	1.48 AC	469-00-00-002
2	Padgett, Richard M. & Marcus James	0.45 AC	466-07-00-005

2.2 Site and Vicinity Characteristics

The subject property is located in an area of predominately commercial and industrial development. Residential development is clustered in the central portion of the Charleston neck. Figure 3, Site Vicinity Map is included in Appendix I.

2.3 Current Uses of the Property

The following table is a list of current use of each parcel.

January 2010

Tract	Property Owner	Current Use
No.	Troperty Owner	ourient osc
32	Shipyard Creek Associates	Currently not in use
33	Shipyard Creek Associates	Currently not in use
34	S.C. State Ports Authority	Currently not in use
35	United States of America	Charleston Water Systems material storage yard on the northeastern portion of the property. The southern portion of the property is currently not in use.
	36-Omitted	
37	The County of Charleston	Material reclamation from incinerator building
38	Carolina Shipping Company	Leased to ConGlobal, a cargo container/chassis repair shop
39	Carolina Shipping Company	Leased to ConGlobal, a cargo container/chassis repair shop
40	City of North Charleston	City of North Charleston Park
41	Cross Atlantic, LC	Leased to a stevedore training company
42	Carolina Maritime Co., Inc.	Currently not in use
43	Carolina Stevedoring Co., Inc.	SSA Cooper, a stevedore repair shop
44	Southeastern Container Services	Leased to a trucking company
45	Cental Transport, Inc.	Trucking terminal warehouse
46	Butt, William Christopher	Leased to AT&T, truck repair shop onsite
47	Container Land Associates	Leased to a trucking company, repair shop onsite
48	Cross Atlantic, LC	Leased to a stevedore training company
49	Eason Leasing Co., Inc.	Eason Diving, a commercial diving company uses the property as storage area
50	2667 Spruill Ave, LLC	Leased to a painter and a woodworker
51	Gregory, Allyson D.	Crane rental company
52	Eason Holding Co., Inc.	Eason Diving, a commercial diving company
53	Milton, James & Clara F.	C&J Pantry, a restaurant and bar
54	HLM and Associates, LP	Leased to Fish Hut, a restaurant
55	Mims Amusement Company	Leased to Charleston Steel, a metal salvage yard
56	HLM and Associates, LP	Mims Amusement, office and technical repair shop
57	2533 Spruill Avenue, LLC	Currently used for storage of furniture and files
58	Spadaro Holdings, LLC	Leased to a for warehouse storage
59	Paper Stock, Inc.	Sonoco Recycling, collect and bail paper and plastic for recycling
60	Estate of Carolina S. Alston, et al	Currently not in use
61	Michael Jennings	Leased to Road 1 Truck Repair, a truck service and repair company
62	McDew LLC	Currently not in use
63	Calvary A.M.E. Church	Currently not in use
	64-Omitted	
65	Unknown	Currently not in use
66	Unknown - Marsh	Currently not in use

January 2010

67	Pressley, James Jr.	Currently not in use
68	Unknown	Currently not in use
69	Unknown	City of North Charleston Street
70	United States of America	Bainbridge Avenue

January 2010

2.4 Site Improvements (Descriptions of Roads, Other Improvements on the Site)

The property is accessed from Baker Hospital Boulevard, Azalea Drive, King Street Extension, Austin Avenue, Summerville Avenue, Disher Street, Odessa Street, Meeting Street Road, Spruill Avenue, Tuxbury Lane, Talluah Road, Tellico Road, Least Turn Lane, Bainbridge Avenue, Shipyard Creek Road, Stromboli Avenue, and Carner Avenue.

Structures are located on Tract 6, Tract 7, Tract 11, Tract 12, Tract 14, Tract 15, Tract 16, Tract 18, Tract 20, Tract 21, Tract 25, Tract 26, Tract 27, Tract 35, Tract 37, Tract 38, Tract 39, Tract 43, Tract 45, Tract 46, Tract 53, Tract 57, and Tract 61. A covered patio area attached to a structure is located on the reviewed portion of Tract 55.

Railroad tracks are located on Tract 4, Tract 4B, and Tract 6. Sidewalks line both sides of Spruill Avenue.

2.5 Current Use of Adjoining Properties

The adjoining properties are used for commercial, industrial, and residential purposes. Details of current adjoining property use are described in Section 5.3 of this report.

The Charleston Naval Complex is generally northeast of the property. Shipyard Creek is east of the site. The Ashley River is west of the property.

3. USER PROVIDED INFORMATION

This section is provided to summarize information provided by the user that may help in identifying recognized environmental conditions. As indicated in the ASTM standard, the environmental professional does not typically generate this information.

3.1 Title Records

Chain-of-Title information was summarized on SCDOT Right of Way Agent's Worksheets provided by the user. These forms include a Title Abstract which lists previous property owners. This provided information is included in Appendix III.

3.2 Environmental Liens or Activity and Use Limitations

Environmental lien or activity and use limitations information on the subject property was not provided by the user.

3.3 Specialized Knowledge

No specialized knowledge was provided by the user.

3.4 Commonly Known or Reasonably Ascertainable Information

No commonly known or reasonably ascertainable information was provided by the user.

S&ME Project No. 1131-08-554

January 2010

3.5 Property Purchase Price versus Fair Market Value

The user did not indicate that the value of this property was reduced due to contamination on the property.

3.6 Owner, Property Manager and Occupant Information

No additional information was provided by the user of this report.

3.7 Reason for Performing the Phase I ESA

The purpose of the ESA is to identify, pursuant to ASTM E 1527-05, recognized environmental conditions in connection with the property. S&ME assumes that this Phase I ESA is being performed to assist the purchaser in qualifying for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability.

3.8 Other

No additional information was provided by the user.

4. RECORDS REVIEW

4.1 Standard Environmental Record Sources

S&ME contracted Environmental Data Resources, Inc. (EDR) to conduct an environmental search and prepare a Site Assessment Report compiling federal and state environmental database information from the regulatory records of the United States Environmental Protection Agency (USEPA) and the State of South Carolina. The purpose of the EDR Radius MapTM Report was to identify environmental sites and activities within a radius of potential concern from the subject property, as outlined by ASTM E 1527-05. The following table lists databases included in the search. The EDR report, including detailed descriptions of the databases, is included in Appendix IV.

Federal Environmental Record Sources

Database	Release Date (optional)	Approximate Search Distance	Search Results (number of sites)
NPL	07/02/10	1 mile	2
CERCLIS	01/29/10	0.5 mile	7
CERCLIS-NFRAP	06/23/09	0.5 mile	2
CORRACTS	05/25/10	1 mile	4

Database	Release Date (optional)	Approximate Search Distance	Search Results (number of sites)
RCRA-TSDF	02/17/10	0.5 mile	2
RCRA-LQG	02/17/10	0.25 mile	2
RCRA-SQG	02/17/10	0.25 mile	2
RCRA-CESQG	02/17/10	0.25 mile	5

*NFA – No Further Action status issued by SCDHEC. The South Carolina Department of Health and Environmental Control (SCDHEC) prioritizes active LUST sites using a Risk Based Corrective Action (RBCA) Site Priority Classification System. Sites are ranked on a scale of 1 to 5, with 1 being the highest. The letters following ranking (e.g., 3BF) give additional information (depth to groundwater, locations of sensitive receptors, etc.).

The EDR Report identified thirty listings as being located on (or on a portion of) the subject property. These listings are identified in the table above by their referenced SCDOT tract number. The EDR Report also identified sixty-eight other listings (shown in the table above as not related to a specific SCDOT tract number) of regulated facilities with records pertaining to hazardous substances and/or petroleum products within the ASTM specified search distances of the site. Please refer to the EDR Report in Appendix IV for a more detailed listing of the regulated facilities.

The Preliminary EDR FieldCheck Report contained facilities in the Orphan Summary which are sites that cannot be located due to incomplete address information. This list of orphan sites was reviewed and based on field reconnaissance or the presumed locations of the listings to be outside the defined search radii, the orphan sites are deemed not to pose an environmental threat to the subject property.

4.2 Additional Environmental Record Sources

Freedom of Information Act (FOI) File Review (SCDHEC)

Additional information was obtained from the FOI office on some of the off-site findings of potential concern. A summary of the information is presented below.

• Ruscon Corporation Property - This site, located on the eastern adjoining property of Tract 1 and the northern adjoining property of Tract 2 at 2711 Azalea Drive, is listed on the GWCI, LUST, UST, and FINDS databases. A petroleum release at the facility was reported on June 1989. During previous work in the area, S&ME obtained files from SCDHEC regarding the release at Ruscon. According to an August 1989 Hydrogeologic Study Plan, conducted by General Engineering Laboratories (GEL) and obtained through the FOI request, the groundwater flow direction at this site is to the southwest. In addition, according to a November 1989 Groundwater Assessment Report conducted by GEL and obtained through the FOI request, the groundwater contamination appears to be localized to the source area. S&ME interviewed SCDHEC UST Section personnel regarding this facility as part of this assessment. Information obtained through interviews is included in Section 6.4.

S&ME Project No. 1131-08-554

January 2010

- Infinger Transportation Company, Inc. This site, located approximately 800 feet northwest of Tract 63 at 2811 Carner Avenue, is listed on the Brownfield, SHWS, GWCI, RCRA NonGen, FINDS, VCP, RCR, and Allsites databases. S&ME previously requested additional information under the FOI Act for this property. Contamination from petroleum and volatile organic compounds (VOC) was reported at this site. Contaminants of concern found in both the soil and groundwater included trichloroethylene (TCE), dichloroethylene (DCE), vinyl chloride, and benzene. S&ME interviewed SCDHEC BLWM Section personnel regarding this facility as part of this assessment. Information obtained through interviews is included in Section 6.4.
- Chicora Tank Farm This site, located approximately 1000 feet from Tract 56 and Tract 62, is listed on the Brownfield and SHWS databases. S&ME has previously requested additional information under the FOI Act for this property. Land Use Controls have been imposed upon the subject property. According to a Land Use Control Implementation Plan (LUCIP), dated January 9, 2004, groundwater extraction restrictions and assessment / remedial systems non-interference restrictions have been implemented for the subject property. Free phase petroleum product and petroleum constituents have been documented on the subject property.

Technical Memorandum No. 1 dated September 2, 2005

S&ME and URS Corporation prepared this memo for Moffatt & Nichol Engineers regarding the results of existing environmental data review and providing a summary of outstanding environmental issues concerning the South Carolina State Ports Authority –

Charleston Naval Base Container Terminal Planning. Information from this memo regarding Tract 35 is included below.

S&ME Project No. 1131-08-554

January 2010

SWMU 9 is an approximately 120-acre closed landfill that was used for the disposal of industrial and domestic solid waste generated at the Charleston Naval Complex from the 1930s to the early 1970s. The landfill contains municipal solid wastes and industrial soil wastes.

The Navy collected numerous soil samples and installed numerous wells inside and at the boundaries of the landfill and identified COCs. In the Corrective Measures Study Report, application of the CERCLA Municipal Landfill Presumptive Remedy to Military Landfills (EPA, 1996), which is containment of the waste, was the recommended corrective measure for Combined SWMU 9. Specific actions to be taken include ensuring the landfill cap is adequate, providing for adequate surface water drainage, managing landfill gases (such as methane), implementing land use controls, and conducting long-term groundwater monitoring around the perimeter of the landfill. The final remedy was approved by the SCDHEC and became effective in March 2005.

AOC 654 is the former septic and drain field associated with Building 661 and is located near the south eastern corner of Tract 35 . The Navy collected 11 soil samples and no COCs were identified. The Navy recommended No Further Action (NFA) and the SCDHEC concurred with the NFA recommendation in correspondence dated August 8, 1997.

A UST associated with Building 661 was removed in 1992. The site is being managed by the SCDHEC BLWM UST Program (Site ID #14437). S&ME interviewed SCDHEC UST Program personnel regarding this tank as part of this assessment. Information obtained through interviews is included in Section 6.4.

Corrective Measures Study Report SWMU 196, Zone H dated June 17, 2003

This document was prepared by CH2M HILL for the US Navy and was provided to S&ME by the US Navy. SWMU 196 is located on the southern end of the northwestern portion of Tract 35. This report states that in 1991, an Environmental Compliance Evaluation was conducted at the site. Drums and cans containing solvents, paints, acid, and lubricant oil, a potassium chromate tank, and transformers were found stored in the storage yard area. Most were corroded and sitting directly on the ground between the building and the Shipyard Creek Marsh. A variety of COCs, primarily VOCs, were identified in the shallow groundwater at SWMU 196. Chlorobenzene and dichlorobenzene isomers are present in groundwater in the highest concentrations at the site.

Corrective Measures Implementation Plan SWMU 196, Zone H dated October 2005
This document was prepared by CH2M HILL for the US Navy and was provided to S&ME by the US Navy. The report states the selected alternative to remediate COCs in the surficial aquifer at SWMU 196 was In Situ Enhanced Biological Treatment with Land Use Controls. Nineteen chemicals were retained as COCs in the shallow

groundwater. Only five of these (benzene, chlorobenzene, 1,2-dichlorobenzene (DCB), 1,3-DCB, and 1,4-DCB) were detected above their respective target cleanup levels.

S&ME Project No. 1131-08-554

January 2010

Corrective Measures Implementation Work Plan SWMU 196, Zone H dated May 2008 This document was prepared by CH2M HILL for the US Navy and was provided to S&ME by the US Navy. The report states land use controls including restricting groundwater use, controlling soil disturbance activities (i.e., construction activities), and prohibiting residential development have been implemented at the site. It goes on to state any intrusive activities will require an evaluation and the parties conducting the intrusive activities will need to understand the potential consequences that contact with contaminated groundwater may cause.

Environmental Baseline Survey for Transfer- Chicora Tank Farm dated January 2004 This document was prepared by EnSafe Inc. for the Department of the Navy, Southern Division and was provided to S&ME by the US Navy. The hydrogeology section of this report states the shallow aquifer in the vicinity of the Chicora Tank Farm travels slowly, due to the fine-grained texture of the sediments and the level topography, in a northeasterly direction toward the Cooper River or Shipyard Creek. The water table is within 3 to 7 feet of the ground surface.

Preliminary Assessment for the Charleston County Incinerator Site dated March 1991. This document was prepared by SCDHEC regarding the incinerator property. The land was purchased by Charleston County in the early 1980s in order to build a municipal waste incinerator. Foster Wheeler Corporation, the company contracted to operate the incinerator, retained General Engineering Laboratories (GEL) to perform an environmental assessment of the property prior to incinerator operation. In the October 1986 GEL report, volatile organic compounds were discovered in the groundwater on the northern portion of the site. Trichloroethylene was reported at a concentration of 22.8 ppm in monitoring well OB-3. Surface water and soil sample results indicated no contamination above natural levels at that time. Groundwater discharges into Shipyard Creek. The GEL report concluded the source of the groundwater contamination was not located on-site. Foster Wheeler attempted to define the site as a groundwater mixing zone. This request was denied by SCDHEC on the grounds that the sample results did not conclusively place the source of the waste off-site. No additional sampling data was referenced as of the date of this report (1991).

ENVIROFACTS (USEPA)

A search of the Environmental Protection Agency (EPA) Envirofacts database and Enviromapper (http://www.epa.gov/enviro/html/em/) was conducted. No additional facilities of potential concern in the immediate vicinity of the subject property were identified.

We also reviewed state and federal environmental databases available on the internet and on our in-house copies of Underground Storage Tank (UST) and Leaking Underground Storage Tank (LUST) databases compiled and provided by the SCDHEC. No additional information resulted from this search.

4.2.1 EDR Supplementary Sources

An EDR Zip Code Scan Search was also conducted in the preparation of this report. This report was reviewed and no additional sites or concerns were discovered. The EDR Zip Code Scan Report is included with the EDR Radius Map Report in Appendix IV.

S&ME Project No. 1131-08-554

January 2010

4.2.2 Tribal Record Sources

A search of available tribal record databases by EDR, Inc. revealed no sites within the specified search distances. The databases searched are listed below:

Tribal Records

Database	Release Date	Approximate Search Distance	Search Results (number of sites)
Indian Reservations	1/11/07	1.0 mile	0
Indian LUST	3/16/09	1.0 mile	0
Indian UST	10/4/10	1.0-mile	0

The site does not appear to be located on or near any tribal lands. According to the U.S. Census, the Catawba Indian Nation in York County is the only federally recognized tribe in South Carolina. South Carolina began to offer state recognition to tribes in early 2005. Currently, none of the state recognized tribes identified on the South Carolina Indian Affairs web site are listed in Charleston County. S&ME reviewed the South Carolina Indian Affairs Commission website (http://southcarolinaindianaffairs.com/members.html) as well as the websites of two state recognized tribes, the Pee Dee Indian Tribe (http://www.peedeeindiantribeofsc.com/) and the Waccamaw Indian Tribe (http://www.waccamaw.us/FRAME_HOME.htm), and one unrecognized tribe, the Marlboro, Chesterfield, Darlington County Pee Dee Indian Tribe (http://mcdcpeedeeindiantrib.tripod.com/), for any information regarding environmental concerns. These sources did not contain information regarding environmental issues. A copy of the Federal Lands and Indian Reservations Map (Figure 6) is included in Appendix I.

4.3 Physical Setting Sources

Topographic, hydrogeologic and geologic information can be used, among other things, to help predict the possible migratory path of contaminants, if present, onto or off of the subject property.

S&ME reviewed the United States Geological Survey (USGS) 7.5-minute series topographic map (Charleston Quadrangle dated 1979, photo revised 1999) to examine the topography and drainage of the subject property and vicinity. The surface elevation of the subject property varies from approximately 5 to 15 feet above mean sea level

(MSL). Based on a review of this map, it appears that the groundwater in the direct vicinity of the subject property, depending on the specific location, would flow west towards the Ashley River or east towards Shipyard Creek. Groundwater direction can be affected by rainfall, tidal and other subsurface and climatic conditions. A copy of the topographic map (Figure 2) is included in Appendix I.

S&ME Project No. 1131-08-554

Charleston County is located in the Outer Coastal Plain Sub-province of the South Carolina Coastal Plain. Sedimentary sequences, totaling approximately 2,400 feet, exist between ground surface and the underlying hard crystalline and metasedimentary rocks of the Piedmont. These sediments, ranging from recent to upper Cretaceous age, have been termed the Coastal Plain Stratigraphic Wedge (Colquhoun, *et al* 1983).

The wedge of sediments includes a series of depositional units that have been transported by river, deltaic and marine systems and reworked in nearshore environments due to fluctuations in sea level. Each depositional unit has a definable lithology, definable sedimentary structures, an overall shape and a relationship to other depositional units. In the Charleston County area, the primary depositional units are (in descending order) Pleistocene and Pliocene delta plain, barrier island, back-barrier marsh and tidal channel deposits; sporadic evidence of Miocene phosphate-rich deposits; the upper Oligocene and upper Eocene Cooper Group; the middle Eocene Santee Limestone (Orangeburg Group); the lower Eocene and Paleocene Black Mingo Group and the upper Cretaceous Peedee Formation, Black Creek Group (i.e. Donoho Creek, Bladen and Tar Heel Formations) and the Middendorf Formation. Groundwater is present in the surficial Pleistocene and Pliocene sediments under water table conditions. Water table depths are shallow and close to surficial contaminant sources (on the order of 5 feet below ground surface), recharge rates vary and water quality is generally poor. For these reasons, the approximate 20 – 60 foot thick sequence of water-bearing sediments are typically not utilized as a potable water source throughout the Charleston County area. The Cooper Group which varies in thickness from 150 – 300 feet includes the upper Oligocene Chandler Bridge and Ashley Formations and the Eocene Harleyville and Parkers Ferry Formations. A regional erosional unconformity exists between the upper Oligocene and Eocene age sediments. Several depositional units of the Cooper Group serve as confining units between the overlying shallow aquifer system and the underlying semi-confined to leaky aquifers of lower Eocene to upper Cretaceous age.

The Soil Survey of Charleston County, South Carolina was consulted to determine the soil types underlying the area. According to the map, the soil types are characterized as UR- Urban Land. A copy of the map is included in Appendix I as Figure 5.

The EPA action level for radon is four picocuries per liter (4 pCi/L). The action level is the concentration at which occupants may be affected by radon and building owners must initiate appropriate measures to decrease radon levels. The subject site is located in an area predicted to have average indoor radon levels of less than 2 pCi/L based on USEPA data for Charleston County.

4.4 Historical Use Information on Property

Historical Topographic Map Review

Historical Topographic Maps provided by EDR dated 1919, 1943, 1958, 1971, 1979, 1983, 1988 and 1994 were reviewed to observe development of the subject property, as well as immediately adjacent and surrounding properties.

S&ME Project No. 1131-08-554

January 2010

1919 Historical Topographic Map

In the 1919 Historical Topographic Map, the area appears predominately industrial. Industrial facilities (phosphate plants) are present along the Ashley River and Shipyard Creek. Industrial structures are also present on the Macalloy property. A racetrack is present in the area of present day Stromboli Avenue. Four large structures are northeast of the racetrack on the property currently occupied by Charleston Steel. The area in the middle of the racetrack is marshland. Marshland is also east of the racetrack toward Shipyard Creek. A structure is shown on the high ground of Tract 38. Several small structures are in the area of present day Summerville Avenue.

1943 Historical Topographic Map

In the 1943 Historical Topographic Map, the area is more developed. Fewer phosphate plants are located on the Ashley River. Structures on the Macalloy property have changed. The area north of the intersection of Meeting Street Road and Spruill Avenue is now residentially developed. Spruill Avenue extends through the racetrack. The center of the racetrack is not shown as marshland. Marshland of Shipyard Creek stops at the railroad tracks east of Spruill Avenue. Three structures are present on Tract 38 and three structures are present on Tract 37. A small structure is present on Tract 55 that is near the large structures to the northeast on the Charleston Steel property. More residential structures are located in the Summerville Avenue area.

1958 Historical Topographic Map

In the 1958 Historical Topographic Map, the Daniel Jenkins Housing Project is visible in the area of Tracts 1, 2, 3, and 86. The Jenkins School is present just north of these properties. An area of tailings labeled Plaster Disposal Area is on the south side of Tract 4. The Summerville Avenue area is shaded under the "housing omission tint" as depicted on the figure. Rosemont School is shown on Tract 8. Three structures are present on the Southern Lumber Tracts 6 and 7. Industrial type structures are shown between Summerville Avenue and King Street Extension.

One large and three small structures are shown on the east side of Spruill Avenue north of Tuxbury Lane. An area of tailings labeled Ore Dump is shown in the area of Tract 33, on the Macalloy property.

The racetrack is no longer present north of Hampton Avenue. Marshland is again shown between Hampton Avenue and Jacksonville Road; and, residential areas under the housing omission tint are visible to the north and south. Four structures are present on Tract 46. Only one structure is present on Tract 38. No structures are shown on Tract 37.

1971 Historical Topographic Map

In the 1971 Historical Topographic Map, Interstate 26 is now visible. Most of the area is similar to the 1958 map. Additional industrial structures are shown between Summerville Avenue and King Street Extension. An additional structure has also been constructed just north of Tuxbury Lane. Stromboli Avenue has been constructed and the area is no longer shown as marshland. The GEX building is present on Tract 47, four structures are present on Tract 46, one structure is present on Tract 45, and three structures are present on Tract 43.

S&ME Project No. 1131-08-554

January 2010

1979 Historical Topographic Map

In the 1979 Historical Topographic Map, no significant changes have occurred on the subject site from the 1971 Map. Two additional structures are shown on the Southern Lumber property. No structures are shown on Tract 38. Two additional small structures are shown on Tract 46. The large structures that were located on the Charleston Steel property are no longer visible. However, the railroad spurs to this area are still present.

1983 Historical Topographic Map

In the 1983 Historical Topographic Map, no significant changes have occurred on the site from the 1979 Map.

1988 Historical Topographic Map

In the 1988 Historical Topographic Map, much of the area is shown under the housing omission tint. The scale of this map limited our review, however no significant changes are observed.

1994 Historical Topographic Map

In the 1994 Historical Topographic Map, the Jenkins School has expanded on the property east of Tract 2. The structure currently located on Tract 3 is shown. The housing omission tint has extended and includes the area of Tracts 37, 38, and 39. This area is not shown as marshland on this map. Four structures are shown in the area of Tracts 51, 52, and 55.

Copies of the Historical Topographic Maps are included in Appendix V.

Aerial Photograph Review

Aerial photographs were reviewed to observe previous conditions and development of the subject property, as well as immediately adjacent properties. Aerials dated 1939 were reviewed at the NRCS office. Aerials dated 1949, 1954, 1963, 1973, and 1979 were obtained from the USC Mapping Library. Additional aerials dated 1994, 1999, and 2006 were obtained from the DNR website. Aerials from 2001 and 2009 were reviewed on the Charleston GIS website.

1939 Aerial Photograph

The area of the subject properties is industrialized in the 1939 aerial. Areas of residential development are also present. Heavy railroad lines and numerous spurs cover the area. Interstate 26 is not present.

S&ME Project No. 1131-08-554

January 2010

Phosphate plants are visible along the Ashley River. The Malony Fertilizer plant is visible east of Tracts 2 and 3. Structures are present on Tract 4 and appear to be part of the phosphate plants on the present day Rhodia property. Open disturbed land is visible on the southern portion of Tract 4. The Summerville Avenue area appears primarily residential. Rosemont School is visible on Tract 8.

The Macalloy site is present on Shipyard Creek. Buildings associated with Macalloy are present on Tracts 29, 31, and 59. Open land is north of Macalloy. Small structures are located on the current incinerator property, Tract 37, and ConGlobal property, Tract 38. Open land also surrounds these structures.

A large dirt racetrack is visible in the Stromboli Avenue area. The tract is located between current Jacksonville Road, the railroad, Hampton Avenue, and Carner Avenue. A large structure is located northeast of the racetrack where Charleston Steel currently operates. Two railroad spurs are visible to the structure. Marsh conditions and tidal creeks appear in this area, especially to the east toward Shipyard Creek. The areas north and south of the racetrack are predominately residential. The Navy Base is visible on the Cooper River. Shipyard Creek marshland is trenched for draining around the Base.

1949 Aerial Photograph

Industrial growth continues to expand along the Ashley River. Numerous multifamily housing units (Daniel Jenkins Homes) are visible on Tracts 1, 2, 3, and 68. The Maloney Fertilizer plant is no longer visible. Jenkins School is located north of where the plant was previously located, just south of Azalea Drive. Structures are also visible in the area of Tracts 4C and 4D. The Summerville Avenue area is similar to the 1939 photograph. Southern lumber is present in its current location. Two large structures are southeast of southern lumber property along King Street Extension.

Structures are present along both sides of Meeting Street road near the intersection of Spruill Avenue. A large structure is visible on Tract 61. Single structures are present on Tract 22, Tract 25, and Tract 27. Four structures are visible on Tract 23.

Development on the Macalloy property has expanded. The field north of Macalloy is still present. A structure is located on this property, Tract 33. Structures are still visible on the high ground east of the railroad tracks on Tracts 37 and 38. The Navy Base has expanded.

An outline of the racetrack is still visible in 1949. A tidal creek occupies the area where Stromboli Avenue is currently located. Several paths and cleared areas are visible on the central portion of the track.

1954 Aerial Photograph

The 1954 aerial is similar to the 1949 photograph. Structures appear to be cleared off of the current Rhodia property. The property south of Southern Lumber, along King Street Extension, is developed with two different structures. Macalloy appears to have extended operations to the north and roads are visible to the high ground of Tract 33. A structure is present on Tract 24 and possibly Tract 25.

S&ME Project No. 1131-08-554

January 2010

The Stromboli Avenue area is still a tidal creek with predominately residential land to the north and south. A path is visible from the southern residential properties north to the area of Tract 45. Several bare areas are visible in the area previously encompassed by the racetrack. A road leads from Spruill Avenue across Tracts 39 and 38 to Shipyard Creek. The structure is still visible on Tract 38. Structures are no longer visible on Tract 37.

1963 Aerial Photograph

The 1963 aerial is similar to the 1954 photograph. It appears the clearing for Interstate 26 has begun. Structures and large cleared areas are visible on the Rhodia property including Tracts 4 and 4B. Structures are no longer visible on the area of Tracts 4C and 4D.

The Summerville Avenue area remains predominately residential. The area west of Southern Lumber, near Tract 9, has been cleared and appears disturbed. A large structure is present in the area of Tract 20. Additional businesses are present between Summerville Avenue and King Street Extension. Industrial operations from the Macalloy plant are visible on Tract 33.

Stromboli Avenue is present. The Navy GEX and Southern Bell/AT&T buildings are present in their current location. What appears to be a large rectangle concrete pad or building slab is just east of the GEX. A drive from this area goes east to Spruill Avenue. The area between the GEX and Spruill Avenue is disturbed. The property currently used as the city park, Tract 40 is undeveloped. Two large structures are further east, across the railroad on Tract 38. The Navy Base continues to expand.

1973 Aerial Photograph

The 1973 aerial is similar to the 1963 photograph. Interstate 26 is present. Changes have occurred in the Stromboli Avenue area. The rectangle previously east of the GEX is no longer visible. Property between the GEX and Spruill Avenue appears to be undeveloped. Three buildings are south of Stromboli, one on Tract 45 and two on Tract 43. The area east of Spruill that is Tracts 37, 38, 39, and 40 has been filled and appear as graded land. The large structure previously on the current Charleston Steel parcel is no longer present. The current structure is present on Tract 56. It appears a structure is also present on Tract 55. The property in the area of Tract 50, Tract 51, Tract 52, Tract 53, and Tract 54 is disturbed. Tract 58 is developed with the current warehouse structure.

The property east of Spruill Avenue, just north of Tuxbury Lane, appears to be developed with structures currently observed on the property. The structure on Tract 22 is no longer visible. One of the large structures on the property south of Southern Lumber is no longer present.

S&ME Project No. 1131-08-554

January 2010

1979 Aerial Photograph

The 1979 aerial is similar to the 1973 photograph. The structures that are currently on Tracts 2 and 3 are visible between Interstate 26 and King Street Extension. The Daniel Jenkins Homes and Jenkins School are no longer visible. The area east of the GEX appears overgrown. A small oval track is visible on Tract 39. Shipyard Creek Road extends to Tract 38 where several paths are visible through the overgrown property. More of the present day structures are visible along the Summerville Avenue properties.

1994 Aerial Photograph

The 1994 aerial is similar to the 1979 photograph. Properties west of King Street Extension appear similar to present day conditions except the Rosemont School structure is present on Tract 8. A structure may also be located on Tract 10.

The subject properties east of Spruill Avenue generally appear similar to present day conditions except Macalloy property is developed from previous operations. Property along Stromboli Avenue is similar to present day conditions except Tract 41 and Tract 42 are undeveloped and appear wooded.

Property near the intersection of Meeting Street Road and Spruill Avenue is also similar to present day conditions except it appears Tract 22 is used as a junk yard and a structure is present on Tract 24.

1999 Aerial Photograph

The 1999 aerial is similar to the 1994 aerial except Tract 8 is no longer developed with Rosemont School. The northern most structure on Tract 23 is no longer visible. Also, Tract 41 and Tract 48 have been cleared and are similar to current conditions.

2001 Aerial Photograph

The 2001 aerial is similar to the 1999 aerial.

2006 Aerial Photograph

The 2006 aerial is similar to the 2001 aerial except it looks like some clearing has taken place on Tract 1, the junk yards have been removed from Tract 22 and Tract 62, and most of the structures have been cleared from the Macalloy site. A structure is present or something large appears to be stored on Tract 22.

2009 Aerial Photograph

The 2009 aerial is similar to present day conditions. Tract 22, the northern portion of Tract 23, and Tract 24 are cleared.

Copies of the aerials (except the 2001 and 2009 photographs) are included in Appendix V.

Sanborn Map Review

Available Sanborn Fire Insurance Maps were obtained and reviewed on the Charleston County Public Library website www.ccpl.org. S&ME reviewed maps from 1912, 1939, 1940, 1951, and 1955 maps for past use of the subject property.

S&ME Project No. 1131-08-554

January 2010

Sanborn Map – Sheet 100 dated 1912

This map shows Meeting Street Road at Hampden [sic] Avenue. The racetrack is shown north of Hampden Avenue. A butane gas tank is shown west of the intersection. Carolina Avenue Extension is shown through the eastern side of the racetrack. A filling (retail petroleum) station with two gasoline tanks is shown on the northwest corner of the intersection of Hampden Avenue and Carolina Avenue Extension [sic] (Spruill Avenue). This is Tract 57.

Sanborn Map – Sheet 99 dated February 1939

This map shows Disher Avenue at the intersection of King Street Extension. Riverside Iron Works is shown on the northwest corner of the intersection. One structure is labeled machine shop and pattern shop. A portion of the other building is labeled foundry. The map notes there is no heat. Power and lights are electric. A small building labeled office is also located on the property near the railroad track that parallels King Street Extension.

The area southwest of the intersection is labeled as an auto junk yard. An onsite building is labeled used auto parts. There is also a dwelling on the property.

Sanborn Map – Sheet 82 dated February 1940

Molony Fertilizer Company is shown on the northwestern corner of the intersection of Union Street with King Street Extension. The building is labeled as a fertilizer warehouse. There is a mixing room and a bag room. An ammonia tank is shown on the south east corner of the building. The warehouse building is labeled to have gas heat and electric lights and power. A gasoline tank is shown west of the fertilizer warehouse. A store is further west. The Daniel Jenkins Homes, a federal housing project, is shown west and south of the fertilizer warehouse.

Sanborn Map – Sheet 82 dated February 1940-#2 (different map of Molony Fertilizer Company)

Molony Fertilizer Company is shown on the northwestern corner of the intersection of Union Street and King Street Extension. The building is labeled as a fertilizer warehouse. The warehouse is labeled to have heat from a stove. A gasoline tank is shown west of the fertilizer warehouse. A store is further west. The Daniel Jenkins Homes is shown west and south of the fertilizer warehouse.

Sanborn Map – Sheet 120 dated February 1951

A filling (retail petroleum) station is shown on the northwest corner of the intersection

of Spruill Avenue (Carolina Avenue Extension) and Hampton Avenue. This is Tract 57.

S&ME Project No. 1131-08-554

January 2010

A dry cleaning laundry is located northeast of the intersection of Corona (1st Street) and Riverview Avenue.

Sanborn Map – Sheet 247 was with the 1955 maps

This map shows Disher Avenue at the intersection of King Street Extension. The labeling of the building at the northwest corner of the intersection is blurred. It appears to be labeled as Motor Tri Station. Other labeling on the structure is illegible. Another building further north is labeled tractor and implements shed.

The area southwest of the intersection is labeled as a junk yard. There is a small structure labeled junk storage. A bottling plant is located on the southeast corner of Disher Avenue and Summerville Avenue.

Summerville Avenue is shown north of Disher Avenue. Structures are labeled as dwellings. A store is shown northeast of the intersection of Disher Avenue and Doscher Avenue.

The intersection of Disher Avenue and Meeting Street Road is shown. A filling (retail petroleum) station with three gas tanks is shown directly across Meeting Street Road from Disher Avenue.

Sanborn Map – Sheet 251 with the 1955 maps

This map shows the intersection of Azelia [sic] Drive with King Street Extension. B.L. Montegue & Co. Inc. wholesale mill supplies and steel fabricators is shown just north of the intersection. The fabrication area, machine shop, stock rooms, and offices are labeled on the buildings. The Daniel Jenkins School is just south of the intersection. The Daniel Jenkins Housing project is southwest of the intersection.

Sanborn Map – Sheet 242 dated September 1955

Molony Fertilizer Company is shown on the northwestern corner of the intersection of Union Street and King Street Extension. A mixing room is labeled. Other rooms are labeled but the copy is illegible. A maintenance shop is shown northwest of the main structure. A store is located west of the fertilizer warehouse. The Daniel Jenkins Homes is shown west and south of the fertilizer warehouse.

Sanborn Map – Sheet 220 with the 1955 maps

This map shows a store at the intersection of Hampton Avenue and Spruill Avenue. The map is blurry. Something is north of the building in the area shown as gasoline tanks on Tract 57 in the 1951 Sanborn Map, but it is illegible.

Sanborn Map – Sheet 231 with the 1955 maps

Rosemont School built in 1926 is shown northwest of the intersection of Doscher Avenue and Peace Street. This is Tract 8.

Southern Lumber and Millwork Co is shown east of Summerville Avenue on SCDOT Tract 6. The main building is labeled hardware and building material. A corner of the building is marked oils and paints. Two lumber sheds are shown. Just north of the larger shed is a small building labeled stock room. A gasoline tank is west of this stock room. A small stock room building is also shown northwest of the small lumber shed. A lime and cement area and a building materials area are shown on a building on the southeastern portion of the site. The planning mill is on the southwestern portion of the site. A dwelling is shown on Tract 7. A structure labeled construction machinery sales and service is on the southern adjoining property

S&ME Project No. 1131-08-554

January 2010

A structure is shown on Tract 22. The image is blurry, but it appears to be labeled Auto. A store is shown on Tract 23. A filling (retail petroleum) station is on Tract 24. A building with illegible labeling is on Tract 25. A store is on Tract 26. No structures are shown on Tract 27. A dwelling is on Tract 28.

A large store is shown on Tract 61. A small structure is shown east of the store. Much of the labeling is illegible. Several structures are shown on Tract 23 south of the portion of the property the SCDOT is acquiring. One is a restaurant, one is a filling (retail petroleum) station, one is a store, two are dwellings, one is labeled auto express, and one is not labeled.

Copies of the Sanborn Maps are included in Appendix V.

City Directory Review

City Directories were reviewed at the Charleston County Library in approximate five year intervals beginning in 2009 back to the 1950s. Beginning in the 1950s, directories are listed by community (Rosemont, Charleston Heights, etc.) and most businesses are not numbered. Streets reviewed include Austin Avenue, Baker Hospital Boulevard, Carner Avenue, Column Street, Discher Street (Discher Avenue and Disher Avenue), King Street Extension, Meeting Street Road, Odessa Street, Peace Street, Pittsburgh Avenue, Shipyard Creek Road, Spruill Avenue, Stromboli Avenue, and Summerville Avenue. A summary of the findings from the city directory review is included in Appendix V. Listings identified on the subject property are shown below.

Charleston County Property Cards

Available property record cards were reviewed on the Charleston County website. Copies of the property cards are included in Appendix II. Cards were not available for all of the tax parcels. Listings of potential concern are included below.

Tract 1 and Tract 66 title of ownership lists Virginia-Carolina Chemical Corp. (1926), Socony Mobile Oil Company, Inc. (1964), Mobil Oil Corporation (1966), Swift Agricultural Chemicals Corporations (1971), Baker Memorial Sanitorium (1979), Baker Hospital (1980), and Ashley II of Charleston, LLC (2003).

Tract 4, 4A, 4B, 4C, and 4D title of ownership lists Virginia-Chemical Corporation (not listed), Socony Mobil Oil Company, Inc. (1964), Mobil Oil Corporation (1970), and Albright and Wilson Inc. (1985).

Tract 5 title of ownership lists Socony Mobil Oil Company, Inc (1964), Mobil Oil Corporation (1970), Mobil Foundation, Inc. (1976), Van Ness Sign & Leasing Company (1983), and Ashley II of Charleston LLC (2003).

Tract 9 title of ownership indicates Southern Chemical Products Company purchased the property from the Albrecht family in (2000). Tract 10 property record indicates Southern Chemical Products Co., Inc. purchased the property from Rosemont Baptist Church in 1966. Tract 11 title records indicate the property was purchased by Southern Chemical Products Co., Inc. from Rosemont Baptist Church Trustees in 1966. It was purchased by Arthur Crisp in 1996 and ADJ & Associates in 1986.

Tract 26 title of ownership lists Atlantic Pest Control Company as purchasing the property in 1960. Subsequent owners are listed as individuals.

S&ME Project No. 1131-08-554

January 2010

Tract 33 property card lists Air Reduction Company, Inc. (1979) and Macalloy Corporation (1979).

Tract 35 property card only identifies United States of America with no date.

Tract 49 title of ownership lists Delhi-Taylor Oil Corp. (1962), Hess Oil and Chemical Corp. (1963), William Cronan (1978), and Eason Leasing Company, Inc. (1996).

Tract 50 title of ownership lists Palm Oil Co. (no date listed), Petroleum Equipment Co., Inc. (1953), D&S Equipment Company, Inc. (1974), and subsequent leasing/marketing companies.

Tract 63 title ownership includes Virginia-Carolina Chemical Corp. (1926), Socony Mobile Oil Company, Inc. (1964), Mobil Oil Corporation (1966), and Swift Agricultural Chemicals Corporation (1971).

Charleston County Register Mesne Conveyance Office Plats

Available plats were reviewed on the Charleston County website. Copies of the reviewed plats are included in Appendix II. Listings of note are included below.

A 1962 plat of the Tract 49 and Tract 50 illustrates two tanks on Tract 49. The plat also shows Palm Oil as the property owner for Tract 50.

A 1961 plat of the area near the intersection of King Street Extension and Azalea Dive was also reviewed. This plat illustrates Virginia Carolina Chemical Company as the property owner for land west of King Street Extension which includes Tract 1, Tract 2, Tract 3, and Tract 66. Two lots are shown just southwest of the intersection and are labeled as Maloney Fertilizer Company and School District 4.

A 1989 plat of Tract 37 illustrates the details of the incinerator. This plat illustrates locations of the boilers, the shop, the pit, ash storage building, ash pond, cooling water pond, and the water treatment area. A substation is also shown on the southwest corner of the site.

4.5 Historical Use Information on Adjoining Properties

Based upon available historical sources, the adjoining and surrounding properties have been used for industrial, commercial, marine, academic, religious, militaristic, and residential purposes.

5. SITE RECONNAISSANCE

Site reconnaissance was performed on various parcels during October, November, and December 2010 and January 2011 by S&ME personnel to observe the current uses of the subject property, adjoining properties and those properties in the surrounding area,

as well as the topographic conditions of the property and the surrounding area. Photographs were taken of various portions of the subject property to document existing conditions. Copies of these photographs are included in Appendix VI of this report.

S&ME Project No. 1131-08-554

January 2010

5.1 Methodology and Limiting Conditions

The subject property was observed by walking accessible areas of the site and visually observing adjacent properties. Limiting conditions encountered on each property are discussed in Section 5.3.

Generally, property boundaries were not marked in the field. Property lines were estimated by field personnel.

5.2 General Site Setting

The subject property is located in the neck area of the Charleston Peninsula. Shipyard Creek is east and the Ashley River is west of the property. The land is generally flat and mostly developed for commercial use.

Property includes: land parallel to Interstate 26 from just south of Baker Hospital Boulevard to Peace Street on the west and to Odessa Street on the east; land north and south of Stromboli Avenue between Carner Avenue and Spruill Avenue; land parallel to Spruill Avenue from Jacksonville Road to Hampton Avenue; land parallel to Shipyard Creek Road from its intersection with Spruill Avenue east to its terminus; and, a strip of land from the intersection of Summerville Avenue with King Street Extension east through the intersection of Meeting Street Road and Spruill Avenue, across the railroad, then north to Bainbridge Avenue and the Navy Base.

5.2.1 Current Use(s) of the Property

Refer to Section 2.3 for a description of current uses of the property.

5.2.2 Past Use(s) of the Property

Past uses of most of the properties were not evident from the site reconnaissance with the following exceptions.

The large amount of shattered automobile glass observed on the ground surface of Tract 22 indicated a junk yard may have previously occupied the property.

Remnants of a fuel dispenser island were observed on Tract 24, indicating the past use as a filling (retail petroleum) station.

Building remnants observed on Tract 37 indicated the property was previously used as an incinerator.

5.2.3 Current Use(s) of Adjoining and Surrounding Properties

The current uses of adjacent property of each SCDOT Tract are discussed in Section 5.3.

S&ME Project No. 1131-08-554

January 2010

5.2.4 Past Use(s) of Adjoining and Surrounding Properties

Past use of adjoining properties were not evident during the site reconnaissance.

5.2.5 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

Information pertaining to geologic and hydrogeologic conditions obtained from standard resources is provided in Section 4.3. During the site reconnaissance, the topography of the subject property was generally flat. It is assumed groundwater would flow toward Shipyard Creek or the Ashley River. Area hydrogeologic conditions were not confirmed during the site reconnaissance. No confirmation of groundwater conditions was made during the site visit.

5.2.6 Description of Structures and Roads

Structures, located on 24 of the SCDOT Tracts, are described in Section 5.3. Major throughways of the property include King Street Extension (Highway 78), Meeting Street Road (Highway 52), and Interstate 26. Spruill Avenue, Shipyard Creek Road, Summerville Avenue, and Stromboli Avenue provide access to most of the property.

5.2.7 Potable Water Supply and Sewage Disposal System

Potable water and sewage disposal services are provided by the Charleston Commissioners of Public Works / Charleston Water Systems (water) and the North Charleston Sewer District (sewage). Charleston Water Systems provides sanitary sewer services to a limited number of the parcels.

Property owners or property owner representatives indicated operational septic tanks are currently located on Tract 3, Tract 21, Tract 49, Tract 50, Tract 51, and Tract 53. Septic tanks were previously used on Tract 45 and Tract 52. We were unable to confirm current or past wastewater disposal practices of some properties.

5.3 Exterior Observations

Tract 1 and 66

Tract 1 and Tract 66 (TMS# 469-00-00-002) are owned by Ashley II of Charleston, LLC. The entire 17.37-acre parcel was reviewed as part of the assessment. S&ME conducted a site reconnaissance on December 8, 2010. The property is currently vacant and not in use. Several billboards were observed on the property. Portions of the site are covered with dense vegetation. Debris including tires, domestic trash, and rubble was observed in the vegetation. A monitoring well was also observed on the property.

Interstate 26 forms the northern and eastern property boundary. Commercial and industrial businesses are beyond the interstate. Rhodia is located on the southern adjoining property on Tract 4. Vacant land, the former Baker Hospital site, a

Rehabilitation/Nursing Center, and Sunbelt Rental Company are located west of the property.

S&ME Project No. 1131-08-554

January 2010

Tract 2

Tract 2 (TMS# 466-07-00-005) is owned by Richard Padgett and James Padgett. The subject property is 0.45-acre of the 4.44 acres located at 2703 King Street Extension.

S&ME conducted a site reconnaissance on November 12, 2010. The proposed SCDOT property is currently used by a trucking company. A fence is located on the property parallel to Interstate 26. What appeared to be security cameras were observed along the fence line. Portions of the site are covered with dense vegetation. Debris including tires was observed in the vegetation.

A parking area for the trucking company is located to the north and east on the remainder of the tax parcel that is not part of the proposed SCDOT right-of-way. A few tractor trailers were parked on the property at the time of the site reconnaissance. Tract 2, a storage yard, is located to the south. Interstate 26 forms the western property boundary. Ashley II of Charleston owns the property west of Interstate 26 that is part of the Magnolia VCC and identified as Tract 1.

Tract 3

Tract 3 (TMS# 466-07-00-006) is owned by Twenty First Properties, Inc. The subject property is 1.33 acres of the 9.99-acre parcel located at 2453 King Street Extension.

S&ME conducted a site reconnaissance on November 12, 2010. The proposed SCDOT property is currently used as a storage yard. A fence is located on the property parallel to Interstate 26. Portions of the site are covered with dense vegetation. Debris including tires, wood, and metal was observed in the vegetation.

A warehouse structure is located to the northeast on the remainder of the tax parcel that is not part of the proposed SCDOT right-of-way. The warehouse structure was vacant at the time of the site reconnaissance. An international trucking company operates on the northwestern adjoining property and is part of Tract 2. Interstate 26 forms the western and southern property boundary. Rhodia (The Albright & Wilson Chemical Plant) is located to the south on the opposite side of Interstate 26 and is part of Tract 4. Ashley II of Charleston owns the property west of Interstate 26 that is part of the Magnolia VCC and identified as Tract 1 and Tract 66.

Tracts 4, 4A, 4B, 4C, and 4D

Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D (TMS# 466-00-00-011 and 466-00-00-023) are owned by Albright & Wilson Americas, Inc. The parcels are part of the Rhodia VCC. This assessment includes 3.94 acres of Tract 4, 0.15-acre of Tract 4A, 1.74 acres of Tract 4B, 1.16 acres of Tract 4C (total parcel), and 0.50-acre of Tract 4D (total parcel). S&ME was unable to gain access to the property from Rhodia to conduct a site reconnaissance on these tracts.

Tracts 5 and 68

Tract 5 (TMS# 466-00-00-023) and Tract 68 (no TMS#) are owned by Ashley II of Charleston, LLC. The parcels are part of the Van Ness Property and were previously owned by Van Ness Sign and Mobil Foundation, Inc. This assessment included 1.31 acres of Tract 5 and 0.13-acre of Tract 68.

S&ME Project No. 1131-08-554

January 2010

S&ME conducted a site reconnaissance on November 29, 2010. The property is overgrown with vegetation. Mounds of soil and debris were observed on the northern portion of the property. Dumping was observed along the road that forms the eastern property boundary. The dumping consisted of small containers and construction type wastes. Monitoring wells were also observed on the property. Vegetation and marshland limited our review of the property.

The Rhodia phosphogypsum stack is located across Austin Avenue from the subject property to the north, Tract 4. Interstate 26 forms the eastern property boundary. Rhodia property (Tract 4C and Tract 4D) and Southern Lumber (Tract 6 and Tract 7) are further east. The park, Tract 8, is located on the southern adjoining property. Liquid Transport is located on the western adjoining property across Austin Avenue.

Tract 6

Tract 6 (TMS# 466-16-00-099) is owned by Albrecht, Albrecht & Shuler. This parcel is developed with Southern Lumber. The previous owner of the property was Eloise Van Ness Albrecht. The subject property is 6.30 acres located at 2031 Summerville Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. We were accompanied by Thad Shuler and Joye Shuler of Southern Lumber. The property is used by Southern Lumber for office space, retail space, millworking, and storage. The majority of the structures are used for lumber storage. There are two millworking buildings with wood chip collection areas.

An elevated emergency generator was observed outside of the new millworking area. It appeared to be powered by natural gas. Two above ground storage tanks were observed on the western portion of the property. One tank contained off road diesel fuel and was in secondary containment. The other tank contained highway diesel fuel. No secondary containment was observed for this tank. Staining was observed on the ground surface and asphalt around the tanks.

A parts washer was observed inside of a building on the central portion of the property. The property owner's attorney advised his clients not to answer questions about the property; therefore, we were unable to determine what type of solvents were used and how they were disposed. Small quantities of oils, fuel, and lubricants were also observed.

Summerville Avenue forms the northern property boundary. SCDOT Tract 4D which is currently undeveloped is located on the northern adjoining property. A railroad King

Street Extension and another railroad form the eastern property boundary. Currently vacant property that is part of SCDOT Tract 22 and Tract 23, the vacant former Silk Stockings by Amber building, a vacant unmarked building, and Bearing Distributors are located further east. Star Limousine and vacant property are to the south. Summerville Avenue forms the western property boundary. Interstate 26 and SCDOT Tract 9 and Tract 10 are further west.

S&ME Project No. 1131-08-554

Tract 7

Tract 7 (TMS# 466-16-00-117) is owned by Albrecht, Albrecht, and Shuler. The subject property is 0.16-acre located at 2028 Summerville Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. We were accompanied by Thad Shuler of Southern Lumber. The property is developed with a vacant residential structure. No evidence of an underground storage tank was observed. We were unable to determine the past heating source of the structure.

The northern, eastern, and southern adjoining property is developed as Southern Lumber, Tract 6. Summerville Avenue forms the western property boundary. Interstate 26 is further west.

Tract 8

Tract 8 (TMS# 464-01-00-031) is owned by Rosemont Acres, Inc. and Equipment Care Center. This assessment included 0.45-acre of the tax parcel. On November 1, 2010, S&ME conducted a site reconnaissance of the property. The site is a grass field and a portion of a parking area. A concrete pad and a grass covered mound of soil were observed in the field on the property. A fence forms the eastern border of the property. Dense vegetation limited the review of the property along the fence line. Two fences were observed along the eastern boundary on the northern portion of the site. This area may have been a detention pond. This area was observed from the property because of the fence and vegetative cover.

The northern adjoining property, Tract 68, is overgrown. Interstate 26 forms the eastern property boundary. A mound of soil and a weather station were observed in the parking area to the south of the subject property. Residential development is further south. The western adjoining property is the remainder of the public park. Austin Avenue is further west.

Tracts 9, 10, and 11

Tract 9 (TMS# 466-16-00-118) and Tract 10 (TMS# 466-16-00-100) are owned by Arthur Crisp. Tract 11 (TMS# 466-16-00-101) is owned by ADJ and Associates. Professional Carpet Sales previously leased the warehouse and attached office building. The Charleston County GIS identifies the property as Southern Chemical. S&ME conducted a site reconnaissance on November 19, 2010. We were accompanied by Hank Chevis of Anchor Sign who currently leases the property. Dense vegetation limited our review of portions of the property.

Tract 9 is a 0.08-acre tract of undeveloped overgrown property on the west side of Summerville Avenue. A fence is located along what appeared to be the western property boundary. Standing water was observed either on the site or just south of the tract, between Tract 9 and Tract 10. The property was observed from Summerville Avenue.

S&ME Project No. 1131-08-554

January 2010

Tract 10 is a 0.24-acre fenced gravel lot on the west side of Summerville Avenue. Currently the property is not in use, but it appeared that it was previously used as a parking area for the loading docks on the adjoining Tract 11.

Tract 11 is a 0.44-acre site developed with a warehouse building located at 2001 Summerville Avenue. The warehouse building is attached to an office structure that is on a separate tax parcel. The building is fenced together with several of the offsite tax parcels. The warehouse floor was concrete and no floor drains were observed. A water heater and mixing tank were observed in the northeast corner of the warehouse. A rusted metal 55-gallon drum labeled Formula RD 10 (a detergent additive for water) and a rusted metal 35-gallon drum labeled potassium hydroxide (caustic potash) were observed in this area.

The right-of-ways for Interstate 26 and Summerville Avenue come together north of the property. Southern Lumber, SCDOT Tracts 6 and 7, is located on the northeastern adjoining property. Summerville Avenue forms the eastern property boundary. Vacant, currently undeveloped property is east of Summerville Avenue. Property leased or owned by Xiphias Holdings, LLC (Anchor Sign) is to the south. A wood shop and the vacant attached two story office building are immediately adjacent. Interstate 26 forms the western property boundary. A park is west of the interstate and is identified as SCDOT Tract 8. Currently overgrown Tract 13 is also to the west.

Tracts 12, 14, 15, 16, 17, and 18

Tract 12 (TMS# 466-16-00-104), Tract 14 (TMS# 466-16-00-120), Tract 15 (466-16-00-108), and Tract 16, Tract 17, and Tract 18 (TMS# 466-16-00-112), are owned by Xiphias Holdings, LLC. S&ME conducted a site reconnaissance on November 19, 2010. We were accompanied by Hank Chevis of Anchor Sign.

Tract 12 is located on the north side of Peace Street adjacent to Interstate 26. A small concrete block building is located on the northern portion of the property. Currently the building is used as a woodshop to make shipping boxes for Anchor Sign. A restroom was observed in the southeastern corner of the building. No floor drains were observed. A compressor is located on the exterior wall at the southeastern corner of the building.

Two loading docks are located on the southern side of the building on Tract 12. A natural gas meter is located between the two docks. The southern half of the property is paved with asphalt. An empty plastic 55-gallon drum was observed at the southeastern corner of the tax parcel.

Tract 14 is located on the south side of Peace Street adjacent to Interstate 26. The northern portion of the property is used as storage space for lumber and other materials used by Anchor Sign. The southern portion of the property is developed with a structure that is an addition to the building on the adjoining Tract 15. Restrooms, a computer server room, and a storage room were observed in the addition. No floor drains were observed. Two metal 55-gallon drums labeled Cool Temperature Reducer were observed near the shed on the eastern adjoining property.

S&ME Project No. 1131-08-554

January 2010

Tract 15 is located at 1913 Summerville Avenue. It is the southern adjoining property of Tract 14. The property is developed with two structures. The structure that is connected to the addition on Tract 14 is used as office space. It is one room with numerous desks. This room was not photographed because of the number of people working in the area.

The other structure on Tract 15 is the fleet repair shop. This building is located on Summerville Avenue. Oils, lubricants, solvents, used oil, used oil filters, transmission fluids, parts washer, batteries, a portable fuel AST and other materials typical of a repair shop were observed. Materials were stored in a neat and organized manner. No floor drains or hydraulic lifts were observed in the shop.

Tracts 16, 17, and 18 are part of one tax parcel located at 1911 Summerville Avenue. Several attached structures are located on this parcel. The largest portion of the structure is parallel to Interstate 26 and is currently used to store signs and other materials. This building was previously used as the office space until it burned. A used oil tote and a rusted drum with unknown contents were observed south of the building. Several new addition areas include a garage, conference room, office space, and apartment area.

Property currently leased by Anchor Sign is to the north. Summerville Avenue and Anchor Sign property are to the east. Mechanist Inc., SCDOT Tract 20, is located to the south. Interstate 26 forms the western property boundary. Residential property is further west.

Tract 13

Tract 13 (TMS# 464-01-00-030) is owned by Myrtices Williams. The property is 0.01-acre adjacent to Interstate 26. S&ME conducted a site reconnaissance on December 16, 2010. The site is overgrown with dense vegetation.

Interstate 26 forms the northern and eastern property boundary. Commercial property is further east. Land south of Tract 13 is developed with private residences. A community park, Tract 8, is located to the west of the site.

Tract 19

Tract 19 (TMS# 464-02-00-001) is owned by Harold Sherman. The property is 0.01-acre that fronts Interstate 26. On October 26, 2010, S&ME conducted a site reconnaissance. The site is overgrown with dense vegetation. A fence is located along

the northern property line. Observations of the tract were conducted from the northern adjoining property.

S&ME Project No. 1131-08-554

January 2010

Discher Street forms the northern property boundary. The northern adjoining property, Tract 17, is currently occupied by Anchor Sign. Machinist Inc., a machine shop on Tract 20, is located on the eastern adjoining property. Interstate 26 forms the southern and western property boundary. Residential property is south, Tract 21, and west of the site.

Tract 20

Tract 20 (TMS# 464-02-00-002) is owned by Robert Hudgens. The property is 0.55-acre located at 1885 Summerville Avenue. The property is developed with a machine shop. S&ME conducted a site reconnaissance on November 2, 2010. We were accompanied by the owner, Mr. Hudgens.

There are five sections of buildings constructed at various times from 1981 to about 1998. The type of construction varies. The shops and office space are single story metal buildings on concrete slabs. The buildings use modern HVAC and natural gas heaters in the shop areas. The age of the heating system is unknown. The buildings are connected to municipal water and sewer.

The original structure was constructed in 1981 as a machine shop. This building is located on the northern portion of the property parallel to Discher Street. An expansion was added to the east side of the structure in 1989. This area is used as the office space.

The shop was expanded again in the 1990s. An addition was made on the west side of the original structure that spanned south for additional shop space. The southernmost portion of the expansion is used for welding. A storage building was also constructed on the southern portion of the property in the 1990s. This building was expanded to the east about 12 years ago for additional shop work area. A shed is located south of this building along the southern property boundary.

Stained soils were observed near the air compressor located near the welding shop and outside of the building adjacent to Interstate 26. A rusted metal 55-gallon drum with unknown contents was observed behind the southern shop building.

Drums and small containers of motor oils and machine cutting oils were observed in the shops. The oils are disposed off-site by a private contractor. No floor drains or sumps were observed in the buildings. No evidence of monitoring wells or underground storage tanks was observed on the property.

Discher Street forms the northern property boundary. Residential development and an Anchor Sign warehouse structure further north. Summerville Avenue forms the eastern property boundary. A truck repair business is further east. Residential property is located to the south. A private residence and Interstate 26 are on the western adjoining property.

Tract 21

Tract 21 (TMS# 464-02-00-003) is owned by Laurie and George Kornahrens. The property is 0.07-acre tract located at 2224 Odessa Street. The property is developed with a single story block structure approximately 900 square feet in size. The residence was constructed in the 1940s. It currently uses a septic tank and public water. Currently, the home is heated with electric heat pump installed in 2007. Previous heat sources are unknown. The owner and tenant stated they were unaware of any underground storage tanks.

S&ME Project No. 1131-08-554

January 2010

S&ME conducted a site reconnaissance on November 1, 2010. A small quantity of shingles was used to form a walking path adjacent to the western wall of the structure. Several propane tanks were neatly stored behind the house along the northern property boundary. The private residence was not entered.

The northern and eastern adjoining property is developed with Machinist Inc. The southern property boundary is formed by Odessa Street and a carport. Interstate 26 forms the western property boundary.

Tract 22

Tract 22 (TMS# 466-16-00-124) is owned by Fabian, Fabian Properties, LLC. The property is 0.68-acre. S&ME conducted a site reconnaissance on October 26, 2010. The property is currently vacant. The ground surface of the property was covered with what appeared to be shattered automobile glass. Two strips of concrete were observed parallel to Meeting Street Road. Light dumping of household wastes including drink bottles and a couch were observed on-site.

Several mounds of soil and wood chips were observed. What appeared to be asphalt and soil mounds were pushed into piles against the tree line that forms the eastern property boundary. Some of the mounds were overgrown with vegetation and the contents could not be determined.

A former gasoline station is located on the northern adjoining property. Land to the east and west are currently open and undeveloped. Water was observed in a ditch along the eastern property line. A railroad forms the southern property boundary. King Street Extension parallels the railroad. Southern Lumber is further south.

Tract 23

Tract 23 (TMS# 466-16-00-083) is owned by Shipyard Barge, LLC. The parcel is 1.72 acres. On October 26, 2010, S&ME conducted a site reconnaissance of the western portion of the parcel that the SCDOT is considering for purchase. The property is open and currently undeveloped. The ground surface is overgrown with weeds and other vegetation. Household debris including bottles, tires, and a small gasoline can were observed on the property.

The northern adjoining property, Tract 24, was previously developed with a gasoline station. Property to the northeast is developed with a truck service and repair business, Road 1. The eastern adjoining property, which is part of the same tax parcel, is developed with two vacant structures. The closest structure, 2103 Meeting Street Road, was marked as Silk Stockings by Amber. Lots of debris that appeared to be contractor wastes, including paint cans, plastic, plywood, and calk, was observed behind the building. No name was shown on the structure located at 2045 Meeting Street Road. Bearing Distributors, Inc., located at 2039 Meeting Street road is located on the eastern adjoining tax parcel. A railroad forms the southern property boundary. King Street Extension parallels the railroad. Southern Lumber is further south. The western adjoining property is currently undeveloped.

S&ME Project No. 1131-08-554

Tract 24

Tract 24 (TMS# 466-16-00-076) is owned by CC&A Rentals, Inc. The parcel is 0.56-acre of land previously developed with a gasoline station. S&ME conducted a site reconnaissance on October 26, 2010. A dispenser island and what appears to be the concrete pad of a former structure are present on-site. The ground surface is covered with concrete pavement or gravel. The property is not currently in use.

The adjacent parcel to the north is undeveloped. Little Avenue and residential development are further north. Baldwin Brothers, Inc., located at 2132 Spruill Avenue, a vacant unnumbered building, and Joe's Roundup Adult Entertainment, located at 2120 Spruill Avenue, are located on the eastern adjoining property. The southern adjoining property is the intersection of Spruill Avenue and Meeting Street Road. The vacated Silk Stockings by Amber, 2103 Meeting Street Road, and Road 1 truck repair and service, 2102 Meeting Street Road, are located further south. The western adjoining property is currently undeveloped.

Tract 25

Tract 25 (TMS# 466-16-00-020) is owned by Baldwin Brothers Inc. and located at 2132 Spruill Avenue The parcel is 0.03-acre developed with a hydraulic repair business. S&ME conducted a site reconnaissance on December 12, 2010. The site is developed with a two story building that uses natural gas heat and electric HVAC. Indications of past heating practices were not observed. No floor drains were observed in the building. The building is connected to public water and sewer.

A used oil AST was observed in the building. Minimal staining was observed around the tank on the concrete floor. Small quantities of motor oils and hydraulic oils were observed in the shop area. It appeared that little repair work was conducted on-site.

The northern adjoining property is green space. A railroad track forms the eastern property boundary. Macalloy is further east. Tract 26, Plantation Painters, is south of the property. A former gas station, Tract 24, is located to the west across Spruill Avenue.

Tract 26

Tract 26 (TMS# 466-16-00-019) is owned by Rick Snyder and located at 2128 Spruill Avenue. S&ME conducted a site reconnaissance on November 3, 2010 and was accompanied by the owner. The property is 0.13-acre currently used by Plantation Painters, a paint contractor. The site is developed with a single story cement block building that is about 1000 square feet. There is a wooden outbuilding used for storage on the southwestern corner of the property. Two container boxes, located on the northern corner of the site are used for storage. One of the container boxes was not opened.

S&ME Project No. 1131-08-554

January 2010

The building has three areas. Office space and a restroom are located at the front of the building along Spruill Avenue. A roll up door visible from the street opens into the area used as a paint booth. The rest of the building is used as a work area and for storage of painting supplies. The building has central heat and air. Indications of past heating practices were not observed. No floor drains were observed in the building. The building is connected to public water and sewer.

The area behind the building is fenced. The majority of the space is used for storage. There is an outdoor sink that drains to public sanitary sewer. Similar to the inside of the building, numerous cans of paint were observed.

The northern adjoining property is developed as Baldwin Brothers and is identified by the SCDOT as Tract 25. A railroad forms the eastern property boundary. Macalloy property is further east. Joe's Round Up, an adult entertainment establishment is located on the southern adjoining property and is identified by the SCDOT as Tract 27. Spruill Avenue forms the western property boundary. A vacant parcel identified as SCDOT Tract 24 is the western adjoining property. SCDOT Tract 24 was previously developed with a gas station.

Tract 27

Tract 27 (TMS# 466-16-00-018) is owned by Donna Works and located at 2120 Spruill Avenue. S&ME conducted a site reconnaissance on November 19, 2010 and was accompanied by the owner. The property is 0.09-acre currently occupied by Joe's Round Up, an adult entertainment lounge. The site is developed with a single story brick building that appeared to be less than 1000 square feet.

A disc jockey booth, bar, dance floor, private dance area, locker room, and restrooms were observed. The building was relatively dark which limited our observations. The building smelled strongly of cigarette smoke. The building has central heat and air. Indications of past heating practices were not observed. No floor drains were observed in the building. The building is connected to public water and sewer.

Asphalt debris was observed behind the building. This area between the building and the railroad was overgrown with vegetation. A back flow preventer wrapped in insulation and covered with a plastic box was also observed behind the building.

Plantation Painters is located on the northern adjoining property and is identified by the SCDOT as Tract 26. A railroad is east of the property. Macalloy land is further east. Road 1, tuck repair, is located on the southern adjoining property and is identified as SCDOT Tract 28. Spruill Avenue forms the western property boundary. A former gasoline station is located on the western adjoining property and is identified as SCDOT Tract 24.

S&ME Project No. 1131-08-554

Tracts 28 and 61

Tract 28 (TMS# 466-16-00-017) and Tract 61 (TMS# 466-16-00-016) are owned by Michael Jennings. S&ME conducted a site reconnaissance on November 3, 2010 and were accompanied by the owner. Tract 28 is a 0.33-acre parcel that has a physical address of 2118 Spruill Avenue. Tract 61 is a 0.68-acre parcel that has a physical address of 2102 Spruill Avenue. The site is developed with a single story metal building that is approximately 5000 square feet. Currently the building is leased to Road-1, a truck repair shop. An unused double wide mobile office is located on the southeastern corner of the parcels. The mobile office was locked and not entered.

The office area was only partially used. There were two actual offices, a half bathroom, and an out of use full bathroom. Floor drains were observed in both bathrooms. The building is connected to public water and sewer. Approximately ten batteries and small quantities of oils and lubricants were observed in a storage room.

The building has an office area and two drive through truck bays with a concrete floor. Floor drains that had been filled with concrete were observed in the garage area. Two parts washers and a motor oil AST are located along the interior eastern wall of the building. Oils and other lubricants were neatly stored in drums and containers inside the building.

A covered outdoor truck bay adjoins the eastern wall of the building. The floor of the outdoor bay is concrete. A trough drain covered by a grate crosses the bay. It appeared that the trench may drain to gravel portion of the lot. Various containers typical of a truck repair shop including two parts washers were observed in the outdoor bay. Used oil was stored in a tote and an AST. A used oil filter container, several drums, oil pans, and numerous 5-gallon buckets were also observed. The drums were 30-gallon and 55-gallon in size. Some were labeled and some were not. The floor was stained all along the wall were the oils were stored.

One drum was sitting outside of the bay on the ground surface. This drum lid was covered in a black petroleum looking film and the ring clamp holding the lid was broken. Minimal staining and stressed vegetation was observed below this drum.

The groundcover surrounding the building was gravel. Just east of the building, eight steel plates were observed in the drive area. The owner and tenant were unaware of their function. Another trough drain covered with a grate was just east of the plates. This trench was full of dirt and gravel from the parking area. A small area of concrete was observed on the northern side of the building in front of one of the roll up doors.

A concrete pad with two manhole covers marked sanitary sewer was observed on the south side of the building just in front of and between the roll up doors. This may be an oil-water separator. The manhole covers were not lifted.

S&ME Project No. 1131-08-554

January 2010

Joe's Round Up, an adult entertainment establishment is located on the northern adjoining property and is identified by the SCDOT as Tract 27. A railroad forms the eastern property boundary. Tuxbury Lane is further east. Tuxbury Lane also forms the southern property boundary. Coach Craft Bodyworks, an automobile collision specialist is located on the southern adjoining property. Spruill Avenue forms the western property boundary. Meeting Street Road intersects with Spruill Avenue at Tuxbury Lane. A vacant building, previously Silk Stockings by Amber, is located across the intersection to the west.

Tracts 29, 31, 32, 33, and 65

Tract 29 (TMS# 466-00-00-063), Tract 31 (TMS# 466-00-00-006), Tract 32 (TMS# 466-00-00-064), and Tract 33 (TMS# 466-00-00-010) Tract 65 are owned by Shipyard Creek Associates. These parcels are part of the Macalloy VCC. This assessment included 4.87 acres of Parcel 29, 0.34-acre of Parcel 31, 1.03 acres of Parcel 32, and 13.26 acres of Parcel 33. Tract 65 is marshland. Dense vegetation and water/marshland limited our review of the property.

S&ME conducted a site reconnaissance on December 16, 2010. The site is currently vacant land. Numerous monitoring wells were observed on the property and the adjoining portions of the tax parcels. Areas with no vegetation were also observed.

The incinerator property, Tract 37, and the navy base property, Tract 35, are located north of the property. Additional Macalloy property and Shipyard Creek are to the east. Sonoco Recycling, Tract 59, and PSC Container Service are located to the south. A railroad forms the western property boundary. First Recovery and Trasflow Terminal Services are located west of the railroad. Residential and commercial development are further west along Spruill Avenue.

Tract 30

Tract 30 (TMS# 466-00-00-052) is owned by Santee Cooper. S&ME conducted a site reconnaissance of the 0.01-acre portion of the 1.91 acres tract on October 26, 2010. The site is developed with a power transmission line, fenced, and overgrown with dense vegetation. Observations were made from the southern adjoining property.

The northern and western adjoining property, which is part of the same tax parcel, is part of the power transmission line. Transflow Terminal Services is located to the north of the site. The Macalloy VCC property is to the north, east, and south of the parcel. Sonoco Recycling and PSC Container Services currently operate on the eastern adjoining Macalloy site.

Tract 34

Tract 34 (TMS# 400-00-00-105) is owned by the South Carolina State Ports Authority. S&ME conducted a site reconnaissance of the 0.93-acre portion of the 84-acre tax parcel on December 16, 2010. The site is currently vacant. Monitoring wells are either on or adjacent to the property. The groundcover and marshland limited our review of the property.

S&ME Project No. 1131-08-554

January 2010

The northern adjoining property is Tract 35, a former landfill area (SWMU #9) on the Navy Base property. The eastern adjoining property is part of the former Navy Base. The southern and western (Tract 65) adjoining property is marshland. Shipyard Creek is south of the property.

Tract 35 and Tract 70

Tract 35 (TMS# 400-00-00-004) is owned by the United States of America. Tract 70 is the existing Bainbridge Avenue and no new right of way is being acquired. S&ME conducted a site reconnaissance on 8.40 acres of the 147.45-acre tax parcel on December 16, 2010 (northwestern portion) and January 17, 2011 (southern portion near Shipyard Creek). The property is part of the former Navy Base. Monitoring wells were observed on and adjacent to the property. The northwestern portion of Tract 35 is currently used by Charleston Water Systems as a materials storage yard. The southern portion of Tract 35 is developed with several structures that are overgrown with vegetation and did not appear to be in use. Tidal waters and dense vegetation limited our review of the property. The structures were not entered because of their dilapidated condition, vegetative cover, standing water, and because permission from FLETC was not obtained after several attempts.

Additional information obtained through interviews regarding the monitoring wells and past use of the property is included in Section 4.2 and Section 6.4 of this report.

Tract 36

Omitted.

Tract 37

Tract 37 (469-00-00-006) is owned by Charleston County. S&ME conducted a site reconnaissance on November 3, 2010. We were briefly accompanied by Mr. Brad Mitchell, Assistant County Attorney, Mr. Jay Ferrette, Charleston County Public Works, and Mr. Larry Phinney, SCDOT. The property is located at 1801 Shipyard Creek Road. It is developed with a former incinerator facility that is currently being demolished. The facility is approximately 21 years old.

At the request of the property owner, the site visit was limited to the areas to be obtained by the SCDOT. This includes a strip of land along the northern border of the tax parcel and a strip of land along the eastern border of the tax parcel.

The northern strip of land is currently undeveloped. The eastern portion of this area is the driveway from Shipyard Creek Road and a parking area. The western portion of this area is wooded and potentially wetlands. A pond was observed on the northeastern corner of the property.

S&ME Project No. 1131-08-554

The eastern portion of the tax parcel is primarily wooded and overgrown. Just south of the pond at the corner of the property is an open area. Surficial staining was observed in this area. The former ash pond is located south of the staging area. What appeared to be an abandoned monitoring well was observed on the west side of the ash pond. A pipe from the incinerator to the navy base intended to pipe steam was observed south of the ash pond. Portions of the pipe have been removed.

A large AST formerly used to store heating oil for the incinerator was observed south of the property the DOT is considering. The tank appeared to be empty and had concrete secondary containment. Two storage buildings were located near the heating oil AST. One of the buildings contained a tote, drums, and 5-gallon buckets. The tote was marked with a black shipping placard 3265. Two of the drums were marked used oil and several of the 5-gallon buckets were labeled as hydraulic oil. One drum was observed in the other building. The demolition contractor also has a diesel fuel AST for the onsite equipment.

ConGlobal, a container repair yard, operates on the northern adjoining property. This property is SCDOT Tract 38. Shipyard Creek forms a portion of the eastern property boundary. Charleston Water System has a maintenance area to the northeast on naval base land. The eastern adjoining property is SCDOT Tract 35. Property south of the incinerator is part of the Macalloy Site. This land is part of SCDOT Tract 29 and Tract 33. A railroad forms the western property boundary. Residential land is further west.

Tracts 38

Tract 38 (TMS# 466-04-00-008) is owned by Carolina Maritime Company. S&ME conducted a site reconnaissance on November 3, 2010. We were accompanied by Marvin, a ConGlobal employee, who provided information on site activities. The SCDOT is considering the purchase of 3.19 acres of the 25.51-acre tax parcel. ConGlobal repairs container boxes, chassis, and flat racks on the property. Container boxes are empty when brought onsite.

The majority of Tract 38 is used for storing container boxes, chassis, and flat racks. Most repairs are conducted on the central portion of the property, which is off-site from the portion of the parcel SCDOT is considering. Paints, paint thinners, welding materials, tires, grease, oils, and parts washers were observed on the central portion of the property which is off-site from potential SCDOT property.

The SCDOT is considering the purchase of the southern and eastern borders of the tax parcel identified as Tract 38. A fence is located along the boundary of the parcel. The fence is overgrown with vegetation. Mounds of what appeared to be concrete block and rubble covered in vegetation were observed on the southeastern corner of the property. Concrete debris was observed along the majority of the fence line.

Five ASTs were observed on the eastern side of the parcel adjacent to potential SCDOT property. A diesel and an unleaded gas AST were observed with a concrete secondary containment structure. A pipe from the diesel tank appeared to go underground. Soil was stained and there was no vegetation in this area. A hydraulic oil and an engine oil AST were observed inside a container box used as secondary containment. Several open five gallon buckets of oil were observed in this area. The containment was failing. Stained soil and stressed vegetation were observed in this area. Separate petroleum staining was also observed in the drive path near the oil ASTs. An additional AST with no secondary containment was observed in this area. The site representative indicated the tank was empty and out of use. He stated he thought the tank was used to store kerosene before he started working with the company.

S&ME Project No. 1131-08-554

January 2010

The largest structure on Tract 38 appears to be adjacent to potential SCDOT property. The northern portion of the building was previously used as a blast pit. The area is now used for storage. The ground surface is covered with spent blasting materials. Mounds of the spent blasting materials are on the eastern side of the building and possibly on potential SCDOT property. Electrical equipment, a compressor, a silo, and a drum were observed in this area. A compressor room is also located on the eastern side of the building. The room was completely full of equipment covered with petroleum gunk.

The southern portion of this building is used as a work area. Tires, drums, gas cylinders, and 5-gallon buckets of paint were observed in and around this area. To the southeast of the largest structure, a container box converted into a restroom connected to public utility was observed. Pole-mounted transformers were observed near the restroom container.

The northern adjoining property is undeveloped. The eastern adjoining property is used by Charleston Water System as a maintenance storage area. The former Charleston County incinerator is located on the southern adjoining property.

Tract 39

Tract 39 (TMS# 466-04-00-007) is owned by Carolina Maritime Company. S&ME conducted a site reconnaissance of the 3.93 acres Tract on November 3, 2010. We were accompanied by Marvin, a ConGlobal employee, who provided information on site activities.

Tract 39 is fenced. Most of the fence was overgrown with vegetation. Concrete debris, pallets, and other rubble were observed along the fence line. ConGlobal office space is located along Shipyard Creek Road on this property. Several box containers used for storage are located near the office building. A restroom is located in the office building that is connected to public utility. Pole-mounted transformers were also observed on this property.

ConGlobal repairs chassis on this property. The majority of repair work takes place on the central portion of this property. Numerous drums and buckets of paints, paint

thinners, and oil and grease, welding materials, two parts washers, and tires were observed. Stained concrete and soils were observed in and around the garage area.

S&ME Project No. 1131-08-554

January 2010

The northern adjoining property is used as a city park and is part of the former TriState Landfill. A railroad forms the eastern property boundary. ConGlobal, Tract38 is further east. Shipyard Creek Road forms the southern property boundary. Liquid Culture is further south. Spruill Avenue forms the western property boundary. Vacant property, previously leased by Maxim Crane and Big Daddy Dredge, is located further west.

Tract 40

Tract 40 (TMS# 466-04-00-013) is owned by the City of North Charleston. This assessment included 0.14-acre of the 9.32 acres tract. S&ME conducted a site reconnaissance on October 26, 2010. The property is developed with a park. The portion of the property SCDOT is considering for purchase is maintained grass and a chain link fence that parallel Spruill Avenue. The property is part of the former TriState Landfill that was closed in the 1960s prior to regulations.

The northern adjoining property is developed with Concrete Coring Company, 2664 Spruill Avenue. Eason Diving and Marine Contractors, 2668 Spruill Avenue, and Charleston Steel and Metal Company, 2700 Spruill Avenue, are located further north. The eastern adjoining property which is part of the same tax parcel is the city park. A railroad is east of the park. Con Global Industries is located east of the railroad and on the southern adjoining property. Spruill Avenue forms the western property boundary. Eason Diving, 2665 and 2667 Spruill Avenue, and container storage/parking areas are located on the western adjoining property.

Tract 41 and Tract 48

Tract 41 (TMS# 466-03-00-161) and Tract 48 (TMS# 466-03-00-164) are owned by Cross Atlantic LLC. The property includes 0.26-acre of the 1.72 acres Tract 41 and 0.03-acre of the 0.46-acre Tract 48. These parcels are currently undeveloped. They are leased to a stevedore training company. The property is fenced. A sidewalk parallels Spruill Avenue.

S&ME conducted a site reconnaissance on November 1, 2010. Debris including concrete and tires was observed on-site. A deep ditch containing water is present along the southern and eastern property boundaries, parallel to Stromboli Avenue and Spruill Avenue. Concrete debris was observed in these ditches. Thick vegetation covered portions of the fence line.

Monitoring wells were observed on the northern adjoining parcel, which is currently occupied by Eason Diving and Marine (2665 Spruill Avenue). Spruill Avenue forms the eastern property boundary. The City of North Charleston has a park that they indicated was part of the old TriState Landfill on the eastern adjoining property. Stromboli Avenue forms the southern adjoining property. Currently vacant land is further south. Debris including tires and concrete and a soil mound covered with

vegetation were observed on the off-site portions of the tax parcels to the west. The western adjoining tax parcel has also been identified as part of the TriState Landfill.

S&ME Project No. 1131-08-554

Tract 42

Tract 42 (TMS# 466-08-00-512) is owned by Carolina Maritime Company, Inc. The subject property is 0.32-acre of the 2.79 tax parcel. The property is currently not in use, but is up for rent.

S&ME conducted a site reconnaissance of the property on November 1, 2010. A chain link fence borders the property. What appear to be a private underground utility line, possibly water, and pole mounted lights were observed on the property inside of the fence line. A sidewalk parallels Spruill Avenue on the outside of the fence. A small dry ditch is located on the property outside of the fence parallel to Stromboli Avenue.

No structures are located on DOT property. The ground cover is grass, asphalt, and concrete. No staining or dumping were observed on site.

The northern property boundary is formed by Stromboli Avenue. Property leased for stevedore training is further north. Spruill Avenue forms the eastern property boundary. ConGlobal and Liquid Culture operate on the eastern adjoining property. The remainder of the tax parcel forms portions of the southern and western adjoining property. Residential development is further south. SSA Cooper operates on the western adjoining property.

Tract 43

Tract 43 (TMS # 466-08-00-456) is owned by Carolina Stevedoring Company, Inc. The subject property is 1.67 acres located at 1950 Stromboli Avenue.

S&ME conducted a site reconnaissance on November 11, 2010. We were accompanied by Mr. Ray Taylor, Site Manager for SSA Cooper. The property is used as a repair shop and storage yard for a stevedoring business. Three buildings are located on the property. Two are used for storage and one is used as office space and a gear shop. The buildings are approximately 40 years old, constructed of metal on concrete, and are single story.

The facility is listed on the SCDHEC UST database as Facility ID# 01325. The location of these tanks was not observed on Tract 43 during the site visit.

The buildings use modern HVAC and natural gas. Floor drains were observed in the restrooms. Currently, the property is connected to municipal sanitary sewer. However, past wastewater disposal is unknown and possibly a septic tank.

An oil water separator is located on the south side of the shop. This area is used for washing equipment. Two drums of cleaner were observed in an exterior closet at the wash area. A plastic drum marked used antifreeze was observed beside a propane tank at the corner of the building.

A diesel and a gas aboveground storage tank with secondary containment were observed on the southern portion of the site. Two portable AST with built in secondary containment were also observed onsite.

S&ME Project No. 1131-08-554

January 2010

Drums, buckets, small containers, and an AST were observed inside the gear shop. Materials were typical of a shop and included oils, used oils, solvents, lubricants, transmission fluids, and antifreeze. Minor staining was observed on the floor in the shop. Batteries and a parts washer are also located in the shop. A private contractor disposes of the hazardous and non-hazardous wastes.

A hydraulic lift with floor mounted electric-hydraulic auto lifts was observed in one bay of the shop.

Stromboli Avenue forms the northern property boundary. A container storage yard identified as SCDOT Tract 44 is further north. The eastern and southern adjoining property is currently vacant and identified as SCDOT Tract 42. Central Transport currently operates on the western adjoining property and is identified as SCDOT Tract 45.

Tract 44

Tract 44 (TMS# 466-03-00-166) is owned by Southeastern Container Services. This assessment included 0.37-acre of the 8.42 acres. The property is currently leased to a trucking company. The property is part of the former TriState Landfill that was closed in the 1960s prior to regulations.

S&ME conducted a site reconnaissance on November 1, 2010. The site is a narrow strip of land parallel to Stromboli Avenue. A deep ditch containing water was observed along the roadway. Concrete debris is present in the ditch. A fence covered with thick vegetation is located beside the ditch.

Some type of sewer control was observed near the entry gate of the property. A PVC pipe, plastic cover, and control are part of the system. Debris including tires and concrete are located on the property. A mound of garbage consisting of metal, furniture, household wastes, an air filter, and other debris is located near the eastern corner of the property.

The facility is listed on the SCDHEC UST database as Facility ID# 01325. The location of the tanks was not observed during the reconnaissance.

Truck chassis are stored on the northern end of the tax parcel. The eastern adjoining property is undeveloped land currently used as stevedore training. The southern property boundary is formed by Stromboli Avenue. CC South and SSA Cooper currently operate on the southern adjoining properties. The western adjoining property is part of the former navy supply store (GEX), currently leased by a trucking company that repairs containers.

Tract 45

Tract 45 (TMS # 466-08-00-455) is owned by Central Transport, Inc. The subject property is 2.02 acres located at 1923 Stromboli Avenue.

S&ME conducted a site reconnaissance on November 11, 2010. We were accompanied by Mr. Joe Warren, Terminal Manager for Central Transport. He has worked at the facility for seven years. The property is used as a trucking terminal warehouse. One building is located on the property and is used for offices and warehouse. The single story building is over 50 years old and constructed of metal on concrete with a crawl space.

S&ME Project No. 1131-08-554

January 2010

The building has modern HVAC and natural gas heat. Past heating systems are unknown. The building has floor drains in the restrooms. Currently, wastewater is disposed into the municipal sanitary sewer system. A septic tank was previously located onsite. Mr. Warren indicated it had been removed.

The majority of the warehouse space was not being used. A metal plate was observed in the concrete floor of the building. Its purpose is unknown. Several unlabeled empty drums were also observed.

The majority of the property was a gravel parking lot. A few trucks were docked at the warehouse but the majority of the lot was empty. Minor surface staining was observed on the gravel from traffic.

The facility is listed on the SCDHEC UST database as Facility ID# 16835. The location of the tank was not observed on Tract 45 during the site visit.

Stromboli Avenue forms the northern property boundary. Trucking companies currently operate on property to the north and include SCDOT Tract 44 and Tract 47. SSA Cooper, formerly Carolina Stevedoring, is located on the eastern adjoining property and identified as SCDOT Tract 43. A vacant lot is located to the south. Column Street forms the western property boundary. AT&T is located on the western adjoining property and is identified as SCDOT Tract 46.

Tract 46

Tract 46 (TMS# 466-08-00-453) is owned by William Butt. Mr. Butt currently leases the property to AT&T. The structures were built for Bell South, a previous tenant. The property address is 2600 Meeting Street Road.

The subject property is 3.9 acres. S&ME conducted a site reconnaissance on November 4, 2010. We were accompanied by Jeff McIntire with Jones Lang LaSalle, a sub to AT&T. The property is currently used by AT&T as dispatch offices, an auto shop, and storage. The office engineer, Andrew Jur has been at the facility for 10 years. He was unaware of any environmental concerns on the property.

Six buildings constructed in the late 1950s-early 1960s are on the property. The main building, located on the western portion of the property fronting Meeting Street Road, is used as office space. The building is heated with HVAC using electric and natural gas. The age of the heating system is unknown. Water and sewer services are provided by municipal utility. There are two carport structures, an auto shop, and two storage buildings east of the office building.

S&ME Project No. 1131-08-554

The property is fenced. Materials are stored on the eastern portion of the site in an orderly manner. Portable empty ASTs and portable generators are kept at the facility in the parking area. Stormwater drains were observed in the pavement on the property. A strip of patched asphalt was observed from the back of the office building to the carport.

The facility is listed on the SCDHEC UST database as Facility ID# 01536. An area of concrete was observed in the middle of the site. This may have been a former UST pit. Steve Howell, AT&T personnel at the auto shop for 33 years, thought he remembered USTs in this area. The property owner thought there were gasoline USTs located between the main office building and the carports that were removed in the 1970s or 1980s before AT&T leased the property. Evidence of several closed monitoring wells was observed on-site.

The auto shop is located in the center of the site along the southern property boundary. The shop previously contained a wash bay. A closed drain was observed in the floor of this area. The shop currently has floor mounted electric-hydraulic auto lifts. Various oils and solvents typical of an auto shop were neatly stored in designated areas in drums, small containers, a used oil AST, and a parts washer.

The supervisor's storage area is located east of the auto shop along the southern property line. The building was locked and inaccessible at the time of our reconnaissance. Mr. Howell indicated the area is used for miscellaneous storage. He was unaware of any hazardous substances or petroleum products in the supervisor's storage area. An LP gas cylinder storage area was observed adjacent to the supervisor storage building.

The other storage building is located east of the supervisor's storage building along the southern property boundary. This area was neat and well kept.

Six pole-mounted transformers were observed on-site. The transformers were in good condition, and no evidence of leaks was noted.

The northern adjoining property is developed with the former navy exchange building. The property is currently used by a transportation company and is identified by the SCDOT as Tract 47. Column Street forms the eastern property boundary. The eastern adjoining property is developed with Central Transportation and identified by the SCDOT as Tract 45. Flexi-Van Leasing currently operates on the southern adjoining property at 2580 Meeting Street Road. Meeting Street Road forms the western property

boundary just south of its intersection with Carner Avenue. Property across Meeting Street Road is currently vacant. This property was historically as a junk yard.

S&ME Project No. 1131-08-554

Tract 47

Tract 47 (TMS# 466-03-00-048) is owned by Container Land Associates. The subject property is 1.21 acres of the 14.85 acres parcel located at 2650 Carner Avenue.

S&ME conducted a site reconnaissance of the property on November 1, 2010. The subject property is primarily a paved strip of land adjacent to GEX, the former navy supply store. Two abandoned monitoring wells were observed onsite.

The former GEX navy supply store which currently is leased to a trucking company and used for container repair forms the northern property boundary. A gasoline station operated on the northern portion of the tax parcel. The eastern adjoining property is the former TriState Landfill. AT&T is located on the southern adjoining property. Carver Avenue, at its intersection with Meeting Street Road, forms the western property boundary. A North Charleston Fire Station is located across Carver Avenue. A junk yard was previously located on property west of the site.

The facility is listed on the SCDHEC UST database as Facility ID# 15926. The location of the tanks was not observed on the portion of the tract reviewed as part of the SCDOT property.

Tract 49

Tract 49 (TMS# 466-03-00-160) is owned by Eason Leasing Company, Inc. The subject property is 0.03-acre of the tax parcel located at 2665 Spruill Avenue. The site is listed on the SCDHEC UST database as Facility ID# 15025.

S&ME conducted a site reconnaissance on December 2, 2010. The property is a strip of land parallel to Spruill Avenue. The land is an asphalt paved fenced storage area. A sidewalk parallels Spruill Avenue. No structures are located on the proposed SCDOT right-of-way. An empty AST and other materials used by Eason Diving are stored on the property. Four monitoring wells were observed on or near the property.

Tract 50

Tract 50 (TMS# 466-03-00-159) is owned by 2667 Spruill Ave, LLC. The subject property is 0.03-acre of the 1.23 acre tract located at 2667 Spruill Avenue.

S&ME conducted a site reconnaissance on November 19, 2010. The property is a strip of land parallel to Spruill Avenue. The land is an asphalt paved parking lot with access drives to Spruill Avenue. A sidewalk parallels Spruill Avenue. No structures are located on the proposed SCDOT right-of-way.

C&J Pantry is located on the northern adjoining property and is identified as SCDOT Tract 53. Spruill Avenue forms the eastern property boundary. Eason Diving, SCDOT Tract 52, and a crane rental company, SCDOT Tract 51, currently operate on the

eastern adjoining property. Eason Diving, SCDOT Tract 50, is located on the southern adjoining property. A gas station previously operated on this parcel. The remainder of the tax parcel is west of the SCDOT proposed right-of-way. Currently, the property is leased to a wood worker and a painter. A trucking company uses the land further west.

S&ME Project No. 1131-08-554

Tract 51

Tract 51 (TMS# 466-04-00-015) is owned by Allyson Gregory. The subject property is 0.03-acre of the 1.23 acres tract located at 2664 Spruill Avenue.

S&ME conducted a site reconnaissance on November 19, 2010. The property is a strip of land parallel to Spruill Avenue. The land is used storing equipment for the crane rental business that operates on the tax parcel. An empty plastic portable tank, trailers, a trash dumpster, and vehicles were stored in the fenced area on the subject property. One trailer had a small portable AST that appeared to be used for fuel. A back flow preventer and a small open manhole were observed near the fence. A sidewalk parallels Spruill Avenue. No structures are located on the proposed SCDOT right-of-way.

Eason Diving and Marine Contractors is located on the northern adjoining property and is identified as SCDOT Tract 52. The City of North Charleston currently owns the adjoining property to the east and south. The land is used as a park and is identified as SCDOT Tract 40. Spruill Avenue forms the western property boundary. Eason Diving, SCDOT Tract 49, and Radekopf Associates, SCDOT Tract 50, are located on the western adjoining properties.

Tract 52

Tract 52 (TMS# 466-04-00-012) is owned by Eason Holding Company, Inc. The subject property is 0.03-acre tax parcel located at 2668 Spruill Avenue.

S&ME conducted a site reconnaissance on December 2, 2010. The property is a strip of land parallel to Spruill Avenue. The land is an asphalt paved and grass fenced parking and storage area. A sidewalk parallels Spruill Avenue. No structures are located on the proposed SCDOT right-of-way. Two locked container boxes used for storage by Eason Diving were observed on the property.

Tract 53

Tract 53 (TMS# 466-03-00-158) is owned by Clara and James Milton. The subject property is 0.13-acre tract located at 2669 Spruill Avenue.

S&ME conducted a site reconnaissance on November 29, 2010. The property is developed as a restaurant and bar. The area behind the bar is fenced. A covered patio is in the back. A fire pit area was observed on the northeastern corner of the lot. Previously a residential trailer was also located in the back. All that remains of the trailer is the frame. The water supply and what appears to be the sewer pipe are still visible.

The Fish Hut is currently located on the northern adjoining property, Tract 54. Spruill Avenue forms the eastern property boundary. Charleston Steel is located on the eastern adjoining property, Tract 55. A woodworker and a painter currently lease the property to the south, Tract 50. The former TriState Landfill is located on the western adjoining property, Tract 44.

S&ME Project No. 1131-08-554

January 2010

Tract 54

Tract 54 (TMS# 466-03-00-157) is owned by HLM and Associates, LP. The subject property is 0.03-acre of the 1.22 acres tract located at 2671 Spruill Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. The property is a strip of land that is parallel to Spruill Avenue and is currently leased to the Fish Hut. The land is used for parking. Remnants of flooring from previous structures and paved driveway are present in the parking area. A sidewalk also parallels Spruill Avenue.

Mims Amusement Company (offices and maintenance facility) is located on the northern adjoining property and is a portion of SCDOT Tract 56. Spruill Avenue forms the eastern property boundary. Charleston Steel is located on the eastern adjoining property and is a portion of SCDOT Tract 55. C&J Pantry is located on the southern adjoining property and is a portion of SCDOT Tract 53. The Fish Hut is located on the subject tax parcel to the west. Residential development is further west.

Tract 55

Tract 55 (TMS #466-04-00-005) is owned by Mims Amusement Company. The subject property is 0.06-acre of the tax parcel located at 2700 Spruill Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. The property is a strip of land parallel to Spruill Avenue and is currently leased to Charleston Steel & Metal Company. The land is used for parking, as a landscape buffer, and as a break area for employees. The break area is under a covered patio portion of the building. This area was fenced and not accessible during the site visit. A sidewalk also parallels Spruill Avenue.

The northern and eastern property adjoining the SCDOT proposed right-of-way is part of Charleston Steel. Eason Diving and Marine is located on the southern adjoining property and is a portion of SCDOT Tract 52. Spruill Avenue forms the western property boundary. The Fish Hut and Mims Amusement are located on the western adjoining property and are identified by the SCDOT as Tract 54 and Tract 56, respectively.

Tract 56

Tract 56 (TMS# 466-03-00-156) is owned by MLM and Associates, LP. The subject property is 0.03-acre of the 1.23 acres tract located at 2681 Spruill Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. The property is a strip of land parallel to Spruill Avenue. The land is used for parking and as a landscape buffer in a brick planter. A sidewalk also parallels Spruill Avenue.

S&ME Project No. 1131-08-554

Jacksonville Road forms the northern property boundary. The northern adjoining property is developed with private residences. Spruill Avenue forms the eastern property boundary. Charleston Steel currently operates on the eastern adjoining property and is a portion of SCDOT Tract 55. The Fish Hut is located on the southern adjoining property and is part of SCDOT Tract 54. Mims Amusement Company is located on the western adjoining property of the SCDOT proposed right-of-way. They conduct technical repairs to equipment and maintain office space in the facility.

Tract 57

Tract 57 (TMS# 466-08-00-421) is owned by 2533 Spruill Avenue, LLC and located at 2533 Spruill Avenue. S&ME conducted a site reconnaissance on November 19, 2010 and was accompanied by Sharon Relford. The property is 0.08-acre currently used as a storage building. The site is developed with a single story block building that is approximately 1000 square feet. The building was filled with office furniture and files. Indications of past heating practices were not observed. No floor drains were observed in the building.

The northern adjoining property is currently vacant and is identified by the SCDOT as Tract 42. Spruill Avenue forms the eastern property boundary. The Liquid Culture warehouse is located on the eastern adjoining property and is identified as SCDOT Tract 58. Hampton Avenue forms the southern property boundary. A vacant cement block building and residential properties are located on the southern adjoining land. Residential property is to the west.

Tract 58

Tract 58 (TMS# 466-08-00-499) is owned by Spadaro Holdings I, LLC. The subject property is 0.16-acre of the 1.48 acre tract located at 2532 Spruill Avenue.

S&ME conducted a site reconnaissance on November 15, 2010. The property is a strip of land parallel to Spruill Avenue and a strip of land parallel to Shipyard Creek Road. The land along Spruill Avenue is an asphalt paved driveway and parking area in close proximity to the warehouse structure on the parent tax parcel. A sidewalk also parallels Spruill Avenue. The land along Shipyard Creek Road near its intersection with Spruill Avenue is also paved with asphalt and in close proximity to the northern wall of the warehouse structure. The area east of the structure is fenced and used for storage. The fenced area was not accessible at the time of the site visit; however, the property was observed through the chain link fence. Further east along Shipyard Creek Road, the property is overgrown. Some debris including tires and drink containers were observed in the vegetation.

A warehouse structure is located on the remainder of the tax parcel that is not part of the proposed SCDOT right-of-way. Shipyard Creek Road forms the northern property boundary. ConGlobal is located on the northern adjoining property and is a portion of SCDOT Tract 36. A railroad and storm water ditch were observed along the eastern property boundary. The former county incinerator, Tract 37, is located further east. Hampton Avenue forms the southern property boundary. Private residences are further south. Spruill Avenue forms the western property boundary. Vacant land, Tract 42, and a private residence, Tract 57, are located on the western adjoining property.

S&ME Project No. 1131-08-554

Tract 59

Tract 59 (TMS# 466-00-00-062) is owned by Paper Stock Dealers Inc. The subject property reviewed is 141 square feet of the 5.07-acre tax parcel located at 2025 Tellico Road. S&ME conducted a site reconnaissance on December 16, 2010. The property is used by a company that bails paper and plastics for recycling. No structures are located on the portion of the property that is the proposed SCDOT right-of-way. Two above ground storage tanks were observed at the corner of the building on the off-site portion of the tax parcel. The tanks were in secondary containment. However, staining was observed around the tanks on the ground surface.

The corner of the recycling company's fence is located on the SCDOT property. A small trailer was parked on-site. The ground surface is covered with grass and a gravel drive. Paper was littered throughout the site.

Macalloy property, Tract 29 and Tract 31, is located to the north and west. PSC Container Service currently operates on the eastern and southern adjoining property.

Tract 60

Tract 60 (TMS# 466-04-00-009) is owned by the Estate of Caroline S Alston et al. The subject property is 0.02-acre of the 5.5 acres tax parcel located on Naval Air Base Road.

S&ME conducted a site reconnaissance on December 16, 2010. The property is fenced. It was reviewed from Bainbridge Avenue and the gravel drive that forms the eastern property boundary. The land is covered with grass and appears to be marshland.

Bainbridge Avenue forms the northern property boundary. The naval base is further north. Former navy property, Tract 35, is also located to the east. Conglobal, Tract 38, is on the southern adjoining property. The remainder of the tax parcel is to the west. A railroad forms the western boundary of the tax parcel. Charleston Steel is further west.

Tract 62

Tract 62 (TMS# 466-03-00-002) is owned by McDew LLC. The subject property is 0.01-acre of the tax parcel located at 2635 Carner Avenue.

S&ME conducted a site reconnaissance on December 16, 2010. The proposed SCDOT property is currently not in use. The site was fenced. It was observed from Meeting Street Road. The land is covered with grass. Several large palm trees that appeared

ready to move (roots gathered in a bag) were observed on the tax parcel, east of the proposed right-of-way.

S&ME Project No. 1131-08-554

January 2010

The northern, eastern, and southern adjoining land is part of the same tax parcel and is currently not in use. Land further north is residential. Carner Avenue and the former GEX building, Tract 47, are further east. Vacant land and a North Charleston Fire Station are further south. Meeting Street Road forms the western property boundary. Vacant land, Tract 63, is west of the parcel.

Tract 63

Tract 63 (TMS# 469-00-00-005) is owned by Calvary AME Church. The subject property is 0.04-acre of the 0.41-acre tax parcel located on Meeting Street Road.

S&ME conducted a site reconnaissance on November 12, 2010. The proposed SCDOT property is currently not in use. The entire site was covered with thick vegetation. Mounds were observed on the property. The contents of the mounds were not clear because of the thick vegetation. Concrete debirs was also observed onsite.

Undeveloped land is located to the north and south on the remainder of the tax parcel that is not part of the proposed SCDOT right-of-way. Meeting Street Road forms the western property boundary. Property currently used for tractor trailer parking is further east. A railroad forms the western property boundary. A warehouse currently used by a scrap metal buyer is further west.

Tract 64

Omitted.

Tract 67

Tract 67 (TMS# 466-07-00-001) is owned by Calvary AME Church. The subject property is 0.02-acre of the 1.19 acres located at 2413 Meeting Street Road.

S&ME conducted a site reconnaissance on November 12, 2010. The proposed SCDOT property is currently not in use. An abandoned railroad track was observed on-site. The ground surface was predominately barren with sparse vegetation. Some small concrete debris was observed throughout the property.

Undeveloped land is located to the north on the remainder of the tax parcel that is not part of the proposed SCDOT right-of-way. An overpass of Interstate 26 entrance and exit ramps forms the southern property boundary. Currently undeveloped land is further south. A railroad, King Street Extension, and another railroad form the western property boundary. Rhodia (The Albright & Wilson Chemical Plant) is located further west and is part of SCDOT Tract 4A and Tract 4B. Ashley II of Charleston owns the property west of Interstate 26 that is part of the Magnolia VCC and identified as SCDOT Tract 1.

Tract 69

City of North Charleston Street and no new right of way is being acquired.

S&ME Project No. 1131-08-554

January 2010

5.4 Interior Observations

Interior observations are discussed in Section 5.3.

6. INTERVIEWS

6.1 Interview with Past and Present Owners

Tract 1 and Tract 66

S&ME interviewed Mr. Stuart Coleman, property owner representative, on November 23, 2010. Mr. Coleman indicated the property is currently vacant land. His company purchased the property from Roper Hospital in 2004. There are currently no structures on the property. It has been vacant for decades. Working housing for the Virginia Carolina fertilizer plant was previously in the area or on the property.

The property is part of a CERCLIS site. Exxon Mobil is the responsible party. The monitoring wells on the property are sampled by Arcadis. Mike Norman at the EPA is project manager for the site.

There is lots of contamination in the area from fertilizer plants. Wando Phosphate Company was previously located on the property currently developed with apartments east of Tract 1. Swift fertilizer plant was previously located on the Baker Hospital site. Three plants were located to the southwest on Rhodia property: Imperial Fertilizer on the northern portion, Stono Phosphate on the central portion, and Naco Fertilizer on the southern portion.

Tract 2

S&ME interviewed Mr. James Padgett, property owner, on November 12, 2010. Mr. Padgett indicated the property is used by an international trucking company. He was unsure of how long he has owned the property. The land was used as container storage when it was purchased. There are mobile office buildings on the northern portion of the property that are connected to municipal water and sewer service. He was unaware of any environmental concerns on site or nearby. There are no hazardous or non-hazardous wastes on the property other than what may be in the containers.

Tract 3

Mr. Paul Wilson was interviewed via telephone on October 28, 2010 (918.743.4300). He indicated S&ME conducted a Phase I ESA for Twenty First Properties, Inc. in September 1999 prior to their purchase. The property is currently leased and controlled by the tenant. The tenant uses the property for warehouse distribution. The property was previously owned by Fritz Companies, Inc. and used for export distribution.

The property is developed with one warehouse structure. The building is constructed of concrete panels, one story, and approximately 120,000 square feet. Mr. Wilson estimated the building was constructed in the 1970s. The portion of the building used

as office space is heated and cooled with package units. The warehouse area is heated with gas fired heaters. He is unaware of any other heating system previously used. There are no floor drains, sumps, or elevators in the building.

S&ME Project No. 1131-08-554

The property is provided potable water from the City of North Charleston. Wastewater is disposed into an on-site septic tank. The septic tank and leach field is located in the grassy area off the northwest corner of the building near the office space. No wells are located on the property.

Mr. Wilson indicated there are no underground storage tanks on the property. There are no environmental liens or activity use limitations on the property. He is unaware of any on-site or nearby environmental concerns.

The property is controlled by the tenant; therefore, Mr. Wilson is unaware if there are any hazardous substances, petroleum products, drums, above ground storage tanks, or PCBs on-site.

Tract 4, 4A, 4B, 4C, and 4D

S&ME interviewed Mr. Jeffrey Lang of Rhodia on January 19, 2011. Mr. Lang stated files on the property are publically available. The site is under RCRA corrective action and has been under investigation for over a decade. He stated there is a gypsum pile located in the area of the proposed right-of-way.

Mr. Lang stated a Corrective Measures Study was completed and submitted to SCDHEC within the last six months. The report identifies SWMU and AOC on the property. He also stated he did not believe the gypsum stack is captured under RCRA because of the mining waste exclusion.

Tract 5 and Tract 68

S&ME interviewed Mr. Stuart Coleman, property owner representative, on November 23, 2010. Mr. Coleman indicated the property is vacant land referred to as the VanNess Tract. He was unaware of previous use of the land.

The property is part of a VCC. Angela Gorman at SCDHEC is the project manager for the site. Mr. Coleman stated he thought there may be a restriction on the property for no residential development per the VCC. Monitoring wells have been on the property in the past, but he was unsure of their current status.

Mr. Coleman stated LTC, a trucking company, is located on the western adjoining property. He was unaware if they had any environmental issues. Chicora fertilizer plant was previously located at the Dolphin Cove Marina west of the property. Mr. Colman thought worker housing was located between Chicora and the property. Naco Fertilizer was previously located on the northern adjoining property.

Tract 6 and Tract 7

Requests for interview of the property owner were declined by the property owner's attorney Mr. Rick Bybee.

S&ME Project No. 1131-08-554

January 2010

Tract 8

We have been unable to interview Mr. Jeffery Lang of Rhodia concerning this property.

Tract 9, Tract 10, and Tract 11

S&ME interviewed Mr. Bill Byars, property owner representative, on November 18, 2010. He indicated the property is currently leased to Anchor Sign. A warehouse and office structure are present on the property his family owns in the area. He was unaware which buildings were on the properties in question.

He had no idea when the property was purchased, but knew it had been in his family for a long period of time. He was aware the property was previously used by Professional Carpet and Southern Chemical.

Mr. Byars indicated he was not conversant with the property or the area of the property. He was handling the estate of his uncle. Mr. Byars indicated Hank Chevis with Anchor Sign would have more information as to how the property is used.

Tract 12, Tract 14, Tract 15, Tract 16, Tract 17, and Tract 18

Requests for interview of the property owner were declined by the property owner's attorney Mr. Rick Bybee.

Tract 13

The SCDOT requested S&ME not to contact the property owner.

Tract 19

S&ME interviewed Mr. Howard Sherman, property owner, on November 26, 2010. Mr. Sherman indicated he had owned the property for 40 years. It is raw land that fronts the interstate. It has no use. There are no structures on the property. He is unaware of any environmental concerns on the property or in the area.

Tract 20

S&ME interviewed Mr. Robert T. Hudgens, property owner, on November 2, 2010. The property is used as a machine shop. He purchased the business in 1989 and the land in 1998. There are four buildings on the property. The heated buildings use modern HVAC systems, electric and natural gas. No floor drains are located in the buildings. Water and sewer services are provided by the municipality.

Drums and ASTs store used oils, cutting oils, and motor oils. Hazardous wastes are disposed by a private company. He was unaware of any underground storage tanks on the property.

Mr. Hudgens indicated he thought the property was previously used as a lumber yard, possibly Charleston Plywood and Lumber, and residential land. He was unaware of any environmental concerns on the property or nearby.

S&ME Project No. 1131-08-554

Tract 21

S&ME interviewed Ms. Laurie Kornahrens, property owner, on November 21, 2010. The property is currently used as a private residence. She has owned the property since 2007. One single story block building approximately 900 square feet that was constructed in the 1940s is located on the property. The building is connected to municipal water and an on-site septic tank. Currently, the structure is heated with central heating and air. Ms. Kornahrens was unaware of previous heating systems but thought it may have been natural gas. She was unaware of any environmental concerns on the property or nearby.

Tract 22

S&ME interviewed Mr. Frederick Fabian, property owner, on October 20, 2010. The property is vacant land that has been in his family for generations. There are no structures on the site. He does not remember structures ever being on the property. There is a concrete slab near the power line. He was unsure of want it is or why it is on the property.

Mr. Fabian was unaware of any environmental concerns on the property. He indicated the entire neck area of Charleston has environmental issues from past use.

Tract 23

S&ME interviewed Ms. Gitta Wombwell, property owner representative, on October 20, 2010. The property is currently not in use. Two buildings are on the property, but are off-site from the land SCDOT is interested in. The buildings are currently not in use. Ms. Wombwell purchased the property in 2005 or 2006. She is unaware of any prior use of the property. Ms. Wombwell was unaware of any environmental concerns on the property or nearby.

Tract 24

S&ME interviewed Mr. Bill Aldret, property owner, on November 16, 2010. Mr. Aldret indicated the property is currently vacant. He purchased the property in 1981. There was a shell of a building on the property at that time. He was aware that there was a filling (retail petroleum) station on the property at one time, but it was abandoned when he purchased the property. He has never had any tanks removed or any environmental assessment conducted on the property. He operated a seafood market on the property.

Mr. Aldret is not aware if there were any underground storage tanks or monitoring wells currently on the property. He indicated he was not aware of any environmental concerns on the property or nearby.

Tract 25

S&ME interviewed Mr. Rayford Avant, property owner, on December 10, 2010. His company, Hydraulic Equipment Service, currently uses the property as a shop, office space, and storage. Mr. Avant purchased the property approximately 25 years ago. It was Baldwin Brothers when he purchased and he just kept the name of the business the same. The two story structure located on the property is about 60 years old. Currently the building has electric HVAC and natural gas heaters. Mr. Avant was unaware of any past heating systems. He stated the property was previously used as a motorcycle dealership.

S&ME Project No. 1131-08-554

January 2010

Mr. Avant indicated there are no floor drains on the property. He stores small amounts of hydraulic and motor oils, solvents, and cleaners for his business. A used oil AST is located on-site. A private contractor picks up used oil, batteries, and any other materials that need disposal. The building is connected to municipal water and sewer service. Mr. Avant was unaware of any environmental concerns on-site or nearby.

Tract 26

S&ME interviewed Mr. Rick Snyder, property owner, on October 28, 1020. His company, Plantation Painters, currently uses the building as office and storage space for painting and woodworking storage area. There is one single story cement block 1000 square feet structure and an outbuilding on the property. Mr. Snyder indicated the building has a central heating and air conditioning system. He is unaware of any past heating systems. The building is connected to municipal water and sewer.

Mr. Snyder purchased the property in 2004. He was aware the building was previously used by a company that made and sold ice. A roofing contractor used the building before the ice company.

Plantation Painters previously generated hazardous waste. Mr. Snyder indicated his company would collect paint chips in 55-gallon drums that were suspected to contain lead based paint. A company out of Walterboro would pick up the drums when they were called. He indicated that it has been at least two years since that have had any lead based paint chips that needed disposal.

Mr. Snyder was unaware of any environmental concerns on the property or nearby.

Tract 27

Requests for interview of the property owner were declined by the property owner's attorney Mr. Rick Bybee.

Tract 28 and Tract 61

S&ME interviewed Mr. Michael Jennings, property owner, on October 28, 2010. He purchased the property in 1995. Mr. Jennings indicated he rents the property to a truck repair shop. The current tenants have leased the property for approximately three years. The previous tenants also conducted truck repair. Kelley Equipment Rental was located on the property at the time of purchase.

One metal 5,000 square feet structure and one mobile office building are located on the property. Mr. Jennings indicated he thought there may be a window unit used for heat and cooling, but he was unaware of any previous heating systems. The building is connected to municipal water and sewer.

S&ME Project No. 1131-08-554

January 2010

Mr. Jennings was unaware of any environmental concerns; however, he currently rents the property. It is used as a truck repair shop, and he is unaware of their practices.

Tract 29, 31, 32, 33, and 65

Requests for interview of the property owner were declined by the property owner's attorney Mr. Rick Bybee.

Tract 30

S&ME interviewed Mr. Perry Gaskins of Santee Cooper on October 25, 2010. The property is used as a overhead power transmission line. It was purchased in 1989. Mr. Gaskins was not knowledgeable about environmental concerns on the property.

Tract 34

S&ME interviewed Mr. Ben Morgan with the South Carolina State Ports Authority on December 7, 2010. The property was purchased in 2007. It is currently not in use. The land is part of the former Navy Base and is near a former landfill area known as SWMU #9. Mr. Morgan indicated there may be monitoring wells on the property associated with the landfill.

Mr. Morgan indicated there could be environmental concerns on the property in regard to the former Navy Base. He stated Activity and Use Limitations may be recorded on the deed.

Tact 35 and 70

S&ME interviewed Mr. David Criswell on November 29, 2010. Mr. Criswell indicated the Navy does not control this land. The property is in the footprint of SWMU #9. It is a monitored closed landfill. He indicated a dig permit would be required to drill on this property. Mr. Criswell stated to contact Melissa Shearer in Environmental Health and Safety with the Federal Law Enforcement Training Center.

Tact 37

S&ME interviewed Mr. Robert Lawing with Charleston County Environmental Management on November 10, 2010. The property was used as the County incinerator. Currently, the former plant, which is approximately 21 years old, is being demolished. The property was purchased in the 1980s by Charleston County from Seaboard Coastline Railroad. Mr. Lawing was unsure of past use of the property. It was undeveloped when purchased.

Mr. Lawing was not fully knowledgeable of the facility's history or current condition. The facility was built as a waste to energy plant. It was last operated by Montenay and ceased operations about December 2009. He did not know if there have been any underground storage tanks at the site but he revealed there may have been a fuel release, possible from the large AST north of the plant building. He suggested we review SCDHEC files for environmental information.

S&ME Project No. 1131-08-554

During the site reconnaissance on November 10, 2010, Mr. Jay Ferrette of Charleston County Public Works said there had been military housing in the surrounding area in years past. He thought it was possible old underground utilities such as sewer or storm drainage may be present on the property.

Tract 38 and Tract 39

S&ME interviewed Ms. Mary Ann Bagwell, property owner representative, on October 28, 2010. Ms. Bagwell indicated she did not know anything about the property other than it has been leased to ConGlobal, a container company, for twenty years or more. She has never been on the property. She is unaware if there are environmental concerns on the property.

Tract 40

S&ME interviewed Mr. Ray Anderson of the City of North Charleston on October 22, 2010. Mr. Anderson indicated the property was purchased in the 1970s. It is currently used as a park. The land was previously used as a county landfill. He was unaware of any other environmental concerns. Mr. Anderson stated there was a container storage business and Eason's Dive Shop nearby.

Tract 41 and Tract 48

S&ME interviewed Anthony Rhodes, property owner representative, on October 28, 2010. Mr. Rhodes indicated he purchased the property as virgin land in the late 1990s. The land is currently leased to a stevedore training company. Mr. Rhodes stated there was a landfill on the property to the west but that he was unaware of the landfill being on these properties.

Tract 42

S&ME interviewed Ms. Mary Ann Bagwell, property owner representative, on October 28, 2010. She indicated the property is currently not in use. It is up for rent. There is a chain link fence, a mobile trailer, and a large metal building on the property. There are no heating systems that she is aware of in the buildings.

Ms. Bagwell indicated the property was leased to Maxim Crane for at least twenty years. More recently, Big Daddy Dredge leased the property. They sublet the property which was a breach of contract. There have been some issues with storm water on the property, but she thinks the problems have all been settled. She was not fully aware of past practices of previous tenants.

Tract 43

S&ME interviewed Ray Taylor of SSA Cooper during the site reconnaissance on November 11, 2010. SSA Cooper is a stevedoring business that uses the property as a

shop and for storage. Mr. Taylor was unsure when the property was purchased. He has worked there since approximately 1983.

S&ME Project No. 1131-08-554

There are three metal structures constructed in the 1970s on the property. They use modern HVAC with natural gas as a heating source. He was unaware of past heating systems. Floor drains are only in the restrooms. An oil water separator is located in the wash area. Water supply and wastewater disposal are provided by the municipality.

The business uses various oils, lubricants and solvents. A diesel and gas above ground storage tank are located south of the shop building. There are propane tanks and several portable ASTs for off-site use.

Mr. Taylor was unaware of any underground storage tanks ever being on the property. He stated the property was once part of the adjoining property to the east and the tanks may have been on that parcel. He was unaware of any environmental concerns on the property or nearby.

Tract 44

S&ME interviewed Mr. Anthony Rhodes, property owner representative, on October 28, 2010. Mr. Rhodes indicated S&ME previously conducted a Phase I ESA and test pits on the property. The property was historically used as a municipal landfill. Currently, he leases the property to a trucking company. There are no structures on the property. He is unaware of any other environmental concerns on the property or nearby.

Tract 45

S&ME interviewed Mr. Joe Warren, Central Transport Terminal Manager, on November 11, 2010. The property is used as a trucking terminal and warehouse. One single story metal structure that uses modern HVAC with natural gas is on the property. Floor drains are located in the restrooms only. The building is currently connected to municipal water and sewer. A septic tank was removed from the property when it was connected to public sanitary sewer service.

The property was previously used by Cooper Motor Lines. A dirt horse and auto racetrack was also once on the property. Non hazardous wastes are disposed through a private contractor.

Mr. Warren has worked at the site for about seven years. He is unaware of any underground storage tanks ever being on the property. He is not aware of any environmental concerns on the property or nearby.

Tract 46

S&ME interviewed Mr. William Butt, property owner, on November 11, 2010. Mr. Butt indicated the property is currently used by AT&T. The facility was built for Bell South in the late 1950s or early 1960s. He indicated the property has been in his family since 1957. He inherited the property.

The structures that have heating/cooling systems use modern HVAC with electric and natural gas. Past heating sources are unknown. Mr. Butt was not aware of heating oil tanks or septic systems. Floor drains were previously located in the wash bay area of the auto shop. Water supply and wastewater disposal are provided by the municipality.

S&ME Project No. 1131-08-554

January 2010

Mr. Butt stated he thought a gasoline underground storage tank or tanks were removed from the area between the main office building and the carports in the 1970s or 1980s before it became AT&T.

Tract 47

S&ME interviewed Mr. Anthony Rhodes, property owner representative, on October 28, 2010. Mr. Rhodes indicated the property was constructed as a department store for the Navy. He purchased the property from Joe Griffith in the 1980s. Mr. Rhodes used the property to repair shipping containers. He sold the business in 1995 but kept the property. Currently, the property is leased to a trucking company.

One single story 130,000 square feet structure constructed in the 1960s with block walls and a concrete roof is located on the property. Currently there is a heat pump for the office space in the building. The warehouse area is not heated. Mr. Rhodes stated he had a large heating and air system torn out. He never saw fuel tanks, just lots of power connections. Floor drains are located in the building but he was unsure if they were connected to city sewer or not. He indicated there is a lift station for sanitary sewer on the property. The building is connected to municipal water and sewer.

Mr. Rhodes indicated he was unaware of any underground storage tanks located on the property. There was a gasoline tank on the north side of the building he stopped using and had tested in the 1980s. He was unaware of any wells on the property. He indicated S&ME previously conducted an environmental report on the property. There is a landfill on the eastern adjoining property. He was unaware of any environmental concerns on the property.

Tract 49

S&ME interviewed Mr. Thomas Eason, property owner, on November 23, 2010. Mr. Eason indicated the property was part of the footprint of a former gas station. Monitoring wells are located on the property. Someone recently visited the property to do something to the wells. He did not know if they were installing wells or sampling them. He thought the tanks were removed from the ground before he purchased the property. Mr. Eason was unaware of any environmental liens or activity use limitations on the property, but stated there could be something through the SUPERB program. Mr. Eason also stated the property and surrounding area was previously part of a landfill.

Mr. Eason stated the structure on the property is not heated. It is a warehouse used for storage. There are no floor drains. There is a septic tank on the property and the

building is connected to city water, both are rarely used. One empty mobile AST is currently stored on the property.

S&ME Project No. 1131-08-554

Tract 50

S&ME interviewed Mr. Chris Maloney, property owner representative, on November 19, 2010. Mr. Maloney stated he currently leases the property to a woodworker and a painter. The building is vacant and he is currently trying to lease the space.

Mr. Maloney purchased the property approximately five years ago. He had a Phase I and Phase II ESA conducted prior to purchase. A gas station previously operated on the adjoining property to the south. He indicated the gas station was never on the subject property. Mr. Maloney's knowledge of the findings of the Phase II was that the results came back ok for the bank to lend. He indicated no one has asked to install monitoring wells on his property as part of the assessment of the gas station. The Phase I assessment also revealed the neighborhood was previously used as a dump.

There are two structures on the property. One is approximately 40 to 50 years old and constructed of block. The other building is a new metal and block structure. The property is connected to municipal water and uses a septic tank. There is a floor drain in the new structure that drains to the outside, not the septic system. He indicated the painter uses paint thinners, but other than that he was unaware of any hazardous substances or petroleum products on the property.

Tract 51

S&ME interviewed Mr. Allyson Gregory, property owner, on November 18, 2010. Mr. Gregory stated he purchased the property in the early 1980s. He operates a crane rental business from the property. A mechanical contractor used the property before his purchase. He constructed two metal pole buildings. One is heated with a heat pump. There are no floor drains. The property is connected to city water and uses an onsite septic tank. Public sanitary sewer was not available to the property when the buildings were constructed in the early 1980s. Mr. Gregory indicated the property is part of the landfill that that is now the city park to the east and south.

Tract 52

S&ME interviewed Mr. Thomas Eason, property owner, on November 23, 2010. Mr. Eason indicated he runs a commercial diving business on the property. Buildings are used as office space and a shop. He purchased the property in the early 1980s and constructed the buildings after purchase. The buildings use electric heat pumps. There are no floor drains. A septic tank was used on the property until the mid 1990s. Mr. Eason could not remember if the tank was removed or filled in place. Currently the buildings use municipal water and sewer service.

Mr. Eason is unaware of any USTs on the property. Two 300 gallon mobile skid mounted ASTs, one diesel and one gasoline, are stored on asphalt on the property. A 6,000 gallon water tank is behind the building and is used for training divers.

Currently, no hazardous or non-hazardous wastes are generated from the property. Mr. Eason indicated he previously stored waste oily water and diesel fuel in two 10,000 gallon ASTs from work on Navy ships. He stated the tanks were stored on slabs behind the buildings.

S&ME Project No. 1131-08-554

Mr. Eason indicated the whole area was previously a dump. He is having some settlement issues with his building because of the landfill.

Tract 53

S&ME interviewed Mr. James Milton, property owner, on November 29, 2010. He stated the property is currently used as a restaurant and bar. Mr. Milton purchased the property in 1996. He thought the building was previously used as a whiskey store. The building is currently heated with natural gas. He had no knowledge of past heating practices. Mr. Milton stated the property is connected to city water and has an onsite septic tank. He was unaware of any environmental concerns on the property or nearby.

Tract 54

S&ME interviewed Ms. Debbie Walker, property owner representative, on November 11, 2010. She stated this property is currently leased to the Fish Hut. The property was purchased in 1960. There is a trailer onsite that is connected to public water and sewer. There have been structures on the property in the past that were used as bars. Ms. Walker has no knowledge of the heating systems. She thinks the buildings were removed in the early 1990s. She is unaware of any environmental concerns on the property or nearby.

Tract 55

S&ME interviewed Ms. Debbie Walker, property owner representative, on November 11, 2010. Ms. Walker stated the property was purchased in the 1960s. She indicated this property has been leased to Charleston Steel and Metal for approximately four years. The original building was constructed in the early 1970s. It is a cement block structure approximately 2,500-3,000 square feet and operated as a bar, Amvets for many years.

Ms. Walker indicated Charleston Steel constructed several new structures on the property. They had problems with the fill on the property and the new buildings were constructed on pylons. She recommended contacting Charleston Steel for information on the property.

Tract 56

S&ME interviewed Ms. Debbie Walker, property owner representative, on November 11, 2010. Ms. Walker stated the property was purchased in 1967. Mims Amusement currently uses the building as office space and a technical repair shop. The building was used as the Navy finance office when purchased.

Ms. Walker indicated a single story brick building is located on the property that has gas heat. There are floor drains in the building that are connected to sewer. They

currently use public water and sewer. She was not aware of past wastewater practices. When asked about hydraulic lifts, Ms. Walker indicated they install hydraulic lifts on trucks. She was not aware of any in the shop. She also stated she was not aware of a parts washer in the shop.

S&ME Project No. 1131-08-554

Tract 57

S&ME interviewed Mr. Loren Ziff, property owner representative, on November 18, 2010. He indicated the property was purchased about five years ago. It is currently used for storage. Mr. Ziff indicated the property was historically used as a church.

One single story block building that is approximately 1,000 square feet is located on the property. Mr. Ziff stated he thinks the building has a modern HVAC system. They currently use a dehumidifier in the summer. The building is connected to municipal water a sewer. Mr. Ziff was unaware of any environmental concerns on the property.

Tract 58

S&ME interviewed Mr. Carlyle Blakeney, property owner representative, on November 11, 2010. Mr. Blakeney indicated the building is used as warehouse storage and distribution of fine wine and fireplace components. The portion of the property the SCDOT is acquiring is used as parking and is not fenced. The property was purchased in 2006. The single concrete block building approximately 25,000 square feet was previously used by Liquid Culture. Mr. Blakeney was not sure how the building was heated, but thought it may be natural gas. He was unaware of any environmental concerns on the property or nearby.

Tract 59

S&ME interviewed Mr. Tim Nesbit, property owner representative, on December 16, 2010. Mr. Nesbit stated the property is currently used to collect and bail waste paper and plastics for recycling. The company purchases the property approximately 3 years ago. One 28,000 square feet metal warehouse is located on the property. The office space is heated with an electric heat pump. The warehouse portion of the building is not heated. There are drains located on the loading docks that are connected to the storm sewer. No floor drains are located in the building. Water and wastewater service are provided by the municipality.

Mr. Nesbit indicated the property was previously part of the Macalloy Superfund Site. He indicated he was aware of chromium contamination in the soils at Macalloy. Monitoring wells connected to the Macalloy assessment are located on the property.

Two above ground storage tanks are located on the property. Both are 200 gallon tanks in secondary containment. One stores diesel fuel and one stores gasoline. Mr. Nesbit was unaware of any environmental concerns on the property or in the area other than Macalloy.

Tract 60

The SCDOT requested S&ME not to contact the property owner.

Tract 62

The SCDOT requested S&ME not to contact the property owner.

Tract 63 and Tract 67

S&ME attempted to contact Reverend Edward McClain on numerous occasions. At the time of this report, we were unable to conduct an interview.

S&ME Project No. 1131-08-554

January 2010

6.2 Interview with Key Site Manager

Except as noted below, the manager of the property is the owner. Interview information from the owners is included in Section 6.1.

Tract 8

S&ME interviewed Ms. Colleen Carducci with the City of Charleston on November 4, 2010. Ms. Carducci stated the property is leased to the City by owners connected to Rhodia. She stated she thought the lease was \$1/year. She was unaware of past use of the property. Ms. Carducci stated nearby environmental concerns include the Hall II site and Ashley II property.

Tract 9, Tract 10, and Tract 11

Requests for interview of the key site manager and occupant were declined by the property owner's attorney Mr. Rick Bybee.

Tract 28 and Tract 61

The owner, Mr. Jennings, accompanied on the site visit and requested us to use discretion as to why we were doing an assessment. A gentleman was working at the shop during the site reconnaissance. His name and position were not revealed. He indicated he had worked at the facility for about three years. He was unaware of any underground storage tanks on the property. He was unaware of the purpose of the manholes at the front of the building or the steel/concrete plates at the side of the building. He had no knowledge of past operations on the property. He indicated there were previously floor drains in the bays but they filled them with concrete. He was unaware of where the trough drains located beside the building drain. Private contractors routinely pickup petroleum products, solvents, and batteries. He was unaware of the contents of the rusted drum observed beside the outdoor truck bay. He stated he thought the drum was there when the moved in to the facility.

Tract 35 and 70

S&ME attempted to contact Ms. Melissa Shearer with FLETC on several occasions with no response.

Tract 37

The site manager of the demolition company currently working on Tract 37 was not interviewed.

Tract 38 and 39

The owner indicated we should contact Mr. Bobby Reynolds of ConGlobal for access to the property. Mr. Reynolds directed us to Ms. Deniese Brown, the Administrative Services Manager. Ms. Brown had Marvin walk us through the property and address any questions we had about our observations. Questions were limited because the property owner asked for us to use discretion as to why we were there doing an assessment. Marvin stated he had only worked at the property for one year. He did not have any knowledge about past operations on the property. He was not aware of any underground storage tanks on the property.

S&ME Project No. 1131-08-554

January 2010

Tract 41 and Tract 48

The site manager of the stevedore training company that leases Tract 41 was not interviewed.

Tract 44

The manager of the trucking company that leases Tract 44 was not interviewed.

Tract 46

Mr. Steve Howell, AT&T personnel at the auto shop for 33 years, provided some information during our site reconnaissance on November 4, 2010. Mr. Howell indicated he thought there was a former UST system in the middle of the site. He also stated a floor drain was previously located in the former wash bay of the auto shop.

Mr. Andrew Jur, the office engineer, has been at the property for ten years. He was not aware of any environmental concerns on the property.

Tract 47

The site manager of the trucking company that leases Tract 47 was not interviewed.

Tract 55

S&ME interviewed Mr. Berry Wolf of Charleston Steel on November 11, 2010. Mr. Wolf indicated Charleston Steel has leased the property for approximately three years. The facility processes ferrous and non-ferrous metals. They operate a scrapyard and recycling business. The portion of the property the SCDOT is acquiring is used as parking, an outside break area for employees, and a landscape buffer. The break area is part of the patio of the building that was previously the Amvet bar.

Mr. Wolf stated there were no underground storage tanks on the property. He has above ground storage tanks of on and off- road diesel fuel and oxygen on the property. He was unaware of any environmental concerns on the property or nearby and specifically stated Charleston Steel has not caused any environmental problems.

Tract 57

Ms. Sharon Relford of East Rock Properties accompanied S&ME during the site reconnaissance of Tract 57. She stated the building was connected to public water and sewer, but currently water is turned off to the building. Ms. Relford stated the property

was rumored to be a gas station. She had no memory or direct knowledge if it were true or not.

S&ME Project No. 1131-08-554

January 2010

6.3 Interview with Occupants

Except as noted below, occupants were either the owner or key site manger. Interview information from the owner and key site manager is included in Sections 6.1 and 6.2 of this report, respectively.

Tract 1 and Tract 66

There are no occupants on Tract 1 or Tract 66.

Tract 5 and Tract 68

There are no occupants on Tract 5 or Tract 68.

Tract 8

There are no occupants on Tract 8.

Tract 13

There are no occupants on Tract 13.

Tract 19

There are no occupants on Tract 19.

Tract 21

The tenant of the residence on Tract 21 was interviewed on November 1, 2010. The tenant stated he was unaware of any environmental concerns on the property. He stated the home had central heat and air conditioning and was connected to a septic tank. He was unaware of any underground storage tanks on the property.

Tract 22

There are no occupants on Tract 22.

Tract 23

There are no occupants on Tract 23.

Tract 24

There are no occupants on Tract 24.

Tract 30

There are no occupants on Tract 30.

Tract 37

Occupants of Tract 37 were not interviewed.

Tract 40

There are no occupants on Tract 40.

Tract 41 and Tract 48

Occupants of Tract 41 and Tract 48 were not interviewed.

S&ME Project No. 1131-08-554

January 2010

Tract 42

There are no occupants on Tract 42.

Tract 44

Occupants of Tract 44 were not interviewed.

Tract 47

Occupants of Tract 47 were not interviewed.

Tract 50

Occupants of Tract 50 were not interviewed.

Tract 54

Occupants of Tract 54 were not interviewed.

Tract 57

There are no occupants on Tract 57.

Tract 58

Occupants of the building were not interviewed for Tract 58.

6.4 Interview with Local Government Officials

S&ME contacted Chief Kyle Minick of the City of North Charleston Fire Department on January 19, 2011 via email regarding fires, clandestine drug laboratories, and hazardous material emergency responses. On January 25, 2011, Chief Minick responded with an environmental study report. The report included numerous false alarm, unintentional, medical assistance, and fire calls in the area of the subject property. No hazardous material emergency response or clandestine drug laboratories were listed. Chemical spills and refrigeration leaks were reported, but addresses listed did not correspond to those of the subject property. A copy of the report is included in Appendix V.

S&ME interviewed Chief Frank Finley of the City of Charleston Fire Department on January 21, 2011 (864.720.1981) regarding fires, clandestine drug laboratories, and hazardous material emergency responses. Chief Finley has been with the department for 30 years. He stated the following on properties located within the City Limits.

• The department has responded to emergency release responses at the Rhodia plant. The plant has their own team, but the City responds when they need assistance or if a cloud moves off the property.

- He did not remember any responses to the Van Ness property. To his knowledge, it has always been vacant and wooded.
- He did not recall any responses to Southern Lumber other than small dust fires.

S&ME Project No. 1131-08-554

January 2010

• Chief Finley did not recall any hazardous material responses to the property along Summerville Avenue. He stated they did respond to a fire at Anchor Sign several years ago. He is not aware of any clandestine drug labs in that area.

S&ME interviewed Mr. Joel Padgett, SCDHEC Bureau of Land and Waste Management- Underground Storage Tank Division, (803.896.6323) on December 10, 2010, January 4, 2011, and January 5, 2011. Mr. Padgett provided the following information.

- Silk Stockings by Amber (Facility ID 19206) Mr. Padgett stated a release was reported in March 2006. An NFA was issued in November 2006. He said it looked like an IGWA was installed, there was no groundwater contamination above regulatory standards, and the well was abandoned.
- Carolina Shipping Company (Facility ID 01325) Mr. Padgett stated a release
 was reported in August 1993. Levels of contamination in the soil were not high
 enough to warrant regulatory action. A Regulatory NFA was issued in July
 1995.
- CC South (Facility ID 16835) Mr. Padgett stated a tank was removed in November 1984. He said no release was reported. However, closure reports were not required until 1988.
- Southern Bell (Facility ID 01536) Mr. Padgett stated a Conditional NFA was issued September 30, 2008. Nine monitoring wells were installed. Three are off-site on the northern adjoining property. A cost order was issued to abandon the wells, but no abandonment report has been received. The groundwater is flowing toward the northeast with a seepage velocity of 48 ft/yr. Worst case well contamination: benzene 6900 μg/L, toluene 5800 μg/L, ethylbenzene 2500 μg/L, xylenes 5200 μg/L, and naphthalene 1400 μg/L. Two 10,000 gallon gas tanks were removed from the property in December 1987.
- Intermodal Management (Facility ID 15926) Mr. Padgett stated a release was reported in July 1996. An NFA was issued in January 1999. He said it was ranked 5B which indicates there was no groundwater contamination.
- Dan Beach (Facility ID 15025) Mr. Padgett stated a Tier I has been completed on the property. A Tier II is in progress. The site has a low ranking and is waiting on funding. Eventually more work will be conducted at the site.
- Browning Ferris Industries (Facility ID 01477) Mr. Padgett stated a Regulatory NFA was issued in July 1995 for this site.
- Hermann Warehouse SE (Facility ID 18621) Mr. Padgett stated there were two
 releases at the facility. One release was reported in September 2005. An NFA
 was issued in February 2008 for this release. The other release was reported in

April 2006. An NFA was issued in February 2008 for this release. He did not have a map of this facility.

S&ME Project No. 1131-08-554

January 2010

- Ruscon (Facility ID 01866) Mr. Padgett stated there are four monitoring wells
 on the property for a release that was reported in 1989. The facility has a low
 ranking and is currently monitored. No additional investigation is underway.
 He stated it did not seem that contamination was migrating offsite.
- Navy Base Building 661 (Facility ID 14437) Mr. Padgett stated two underground storage tanks were previously located at Building 661. Both tanks, a 4,000 and a 5,000 gallon, contained diesel fuel and were removed from the ground in February 1992. A Conditional NFA was issued in March 2008. Monitoring wells have been abandoned.

S&ME interviewed Ms. Stephanie Briney, SCDHEC Bureau of Land and Waste Management- Underground Storage Tank Division, (803.896.6323) on December 13, 2010. Ms. Briney provided the following information.

- Ruscon (Facility ID 01866) Ms. Briney stated there is an ongoing active release at the facility that was reported in June 1989. Groundwater flows to the west.
- Browning Ferris Industries (Facility ID 01681) Ms. Briney stated a release was reported in July 1985. Levels of contamination in the soil were not high enough to warrant regulatory action. A Regulatory NFA was issued in July 1985.
- J & G Properties (Facility ID 11584) Ms. Briney stated an NFA was issued in February 1998. An IGWA was installed, concentrations were below the RBSLs, and the well was abandoned.
- Belcher Service Station (Facility ID 01672) Ms. Briney stated an NFA was issued in January 2000. An IGWA well was installed and abandoned at the site.

S&ME interviewed Ms. Keisha Long, SCDHEC Bureau of Land and Waste Management- State Remediation Division, (803.896.4872) on January 20, 2011. Ms. Long provided the following information:

• Infinger Transportation (2111 Carner Avenue) – Ms. Long stated the property was previously a wood preserving facility. It is unknown if contamination has migrated off-site because it has not been assessed. VOCs are in the groundwater in a plume that is 300 by 600 feet in size. She stated the file did not state the groundwater flow direction. Her records document the latest activity in the file was in 2007.

During previous work in the area of Stromboli Avenue, S&ME interviewed Rich Richter (formerly with SCDHEC) regarding the Tri-State Landfill. Property in the area north of Stromboli Avenue was used as part of the Tri-State Landfill, which was used for domestic solid waste in the 1960s.

6.5 Interviews with Others

No other interviews were conducted for this report.

7. FINDINGS

7.1 On-Site Findings

Based on the historical document research, site reconnaissance, interviews and database search, the following findings are provided:

S&ME Project No. 1131-08-554

- 1. Tract 1 and Tract 66 are known as the Magnolia Property. The site is listed as Swift Agri-Chem Corporation on the Brownfields, VCP, Allsites, CERCLIS, SHWS, GWCI, and FINDS databases. A monitoring well was observed on the property during the site reconnaissance.
- 2. Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D are part of the Rhodia Property. Rhodia is listed on the GWCI, LUST, UST, RCR, and Spills databases. This property was previously owned by Mobile Chemical. Mobile Chemical is listed on the GWCI, Corracts, Airs, CERC-NFRAP, SHWS, SSTS, RCRA-LQG, TRIS, and RCRA-TSDF databases. Tailings labeled as Plaster Disposal Area are shown on historical topographic maps.
- 3. Tract 5 and Tract 68 are known as the Van Ness Property. The site is listed as Van Ness Property VCC on the Brownfields, VCP, Allsites, and SHWS databases. Monitoring wells were observed on the property.
- 4. Tract 6 is developed with Southern Lumber. Staining was observed around two above ground storage tanks on the property. A 1955 Sanborn Map shows a gas tank on the property.
- 5. City directory listings for 2001 Summerville Avenue (Tract 11) included Southern Chemical from 1970 to 2005 and Professional Carpet Sales from 1975 to 2009. Property ownership information indicated Southern Chemical previously owned Tract 9, Tract 10, and Tract 11.
- 6. A truck repair shop for Anchor Sign is located on Tract 15. Oils, lubricants, solvents, used oil, used oil filters, transmission fluids, a parts washer, batteries, a portable AST, and other materials typical of a repair shop were observed. City directory listing for 1913 Summerville Avenue (Tract 15) included a general contractor (1990), an acoustics and dry wall warehouse (1975 and 1980), and an unclaimed freight disposal company (1970).
- 7. A fire previously burned the building on Tract 16, Tract 17, and Tract 18. A used oil tote and a rusted drum with unknown contents were observed south of this building.

8. A machine shop has operated on Tract 20 since 1981. Stained soils were observed around a compressor near the welding shop and outside the building adjacent to the interstate. A rusted metal 55-gallon drum with unknown contents was observed behind the southern shop building. Drums and small containers of motor oils were observed in the shops.

S&ME Project No. 1131-08-554

- 9. EK SVC air conditioning contractors & systems was listed on Tract 21 in the 2009 city directory.
- 10. Tract 22 was previously used as an automobile junk yard. What appeared to be asphalt and soil mounds were pushed into piles against the tree line that forms the eastern property boundary. Some of the mounds were overgrown with vegetation and the contents could not be determined. The 1955 Sanborn Map indicated there may have been an auto shop on the property.
- 11. Tract 23 was historically developed with a store according to a 1955 Sanborn Map. Household debris including bottles, tires, and a small gasoline can were observed on the property.
- 12. Tract 24 was previously developed with a gasoline station. City directory listed Sharpton's Triangle Service Center on the property from 1968 to 1980. A filling (retail petroleum) station is shown on the property in a 1955 Sanborn Map. The facility is not listed in the EDR Report or on the SCDHEC UST database.
- 13. City directories indicate Tract 25 has been used as Baldwin Brothers (hydraulic equipment, auto parts, scooter, and motorcycles sales and service) since at least 1955.
- 14. A painting contractor, Plantation Painters, currently uses Tract 26. Paints and thinners are stored inside and out. Plantation Painters is listed on the RCRA-SQG database with no violations. Mr. Snyder stated the listing was from disposing of paint chips that contained lead based paint. Mr. Snyder was aware of past use of the property by a roofer and a company that made and sold ice. City directory listed a body shop on the property (1975-1990). A store is shown on the property in a 1955 Sanborn Map. Historical ownership indicated Atlantic Pest Control previously owned the property.
- 15. Tract 28 and Tract 61 are developed with a truck repair shop. Closed floor drains, trough drains, oils, lubricants, parts washers, oil water separator, batteries, drums, a tote, and an AST were observed. Steel or concrete plates were observed east of the building. They were not lifted. Their purpose is unknown. A large store is shown on the property in a 1955 Sanborn Map. City directory listings for the property, 2102 Meeting Street Road, include Jones Truck Service (2009), Road 1 (2009), BPK Construction Equipment Sales and

Service (1996 and 1985), Hertz Corporation (1975 and 1970), Livingston's Self Service food store (1961), and Triangle Service Center (1961).

S&ME Project No. 1131-08-554

- 16. Macalloy previously operated on Tracts 29, 30, 31, 32, 33, 59, and 65. The property identified as Macalloy Corporation in the EDR Report is listed on the Brownfields, SHWS, GWCI, Corracts, CERCLIS, US Eng Controls, US Inst Controls, RCRA-NonGen, NPL, ROD, RCRA-TSDR, VCP, Allsites, RCR, and LUST databases. Tailings labeled Ore Dump are shown on historical topographic maps on Tract 33. This facility produced ferrochromium which is used in the production of high quality stainless steel. High levels of metals including hexovalent chromium due to by-products and air emissions have impacted the site. Remedial strategies are being implemented under CERCLA for the site.
- 17. The Navy Base is listed on the CERCLIS, GWCI, CORRACTS, US ENG Controls, US Inst Controls, SHWS, RAATS, RCRA-TSDF, PADS, MANIFEST, RCRA-NonGen, and FINDS databases. Tract 34, Tract 35, and Tract 70 are part of SWMU 9 (a closed monitored landfill), SWMU 196 (previous storage area of solvents, paints, acid, and lubricant oil, a potassium chromate tank, and transformers), SCDHEC UST Facility ID# 14437, and AOC 654 (the former septic tank and drain field associated with Building 661) on the navy base.
- 18. The Charleston County incinerator previously operated on Tract 37. Petroleum products are used and stored onsite. The facility is listed on the AST and SWF/LF databases. Mr. Ferrette indicated it was possible old underground utilities such as sewer or storm drainage may be present on the property. A 1986 General Engineering Laboratories (GEL) Groundwater Assessment Report of the Charleston Resource Recovery Facility reported volatile organic compounds in the groundwater.
- 19. ConGlobal repairs container boxes, chassis, and flat racks on Tract 38. Mounds of what appeared to be concrete block and rubble covered in vegetation were observed on the southeastern corner of the property. Concrete debris was observed along the majority of the fence line. ConGlobal previously operated a blast pit on the property. The ground surface is covered with spent blasting materials. Mounds of the spent blasting materials are on the eastern side of the building and possibly on SCDOT property. Electrical equipment, a compressor, a silo, and a drum were observed in this area. A compressor room covered in petroleum slime is also located on the eastern side of the building.
- 20. ConGlobal repairs chassis on Tract 39. The majority of repair work takes place on the central portion of this property. Numerous drums and buckets of paints, paint thinners, and oil and grease, welding materials, two parts washers, and tires were observed. Stained concrete and soils were observed in and around the

maintenance area. The facility is listed on the RCRA-SQG database with no violations.

S&ME Project No. 1131-08-554

- 21. Debris including concrete and tires was observed on Tract 41 and Tract 48. A deep ditch containing water is present along the southern and eastern property boundaries, parallel to Stromboli Avenue and Spruill Avenue. Concrete debris was observed in these ditches.
- 22. Tract 43 is used as a repair shop and storage yard for a stevedoring business. An oil water separator is located on the south side of the shop. A diesel and a gas aboveground storage tank with secondary containment were observed on the southern portion of the site. Two portable AST with built in secondary containment were also observed onsite. Drums, buckets, small containers, and an AST were observed inside the gear shop. Materials were typical of a shop and included oils, used oils, solvents, lubricants, transmission fluids, and antifreeze. Minor staining was observed on the floor in the shop. A hydraulic lift was observed in one bay of the shop.
- 23. A deep ditch containing water was observed along Stromboli Avenue on Tract 44. Concrete debris is present in the ditch. A fence covered with thick vegetation is located beside the ditch. The facility is listed on the SCDHEC UST database as Facility ID# 01325. The previous location of the tank was not observed during the site reconnaissance.
- 24. Tract 45 is listed on the SCDHEC UST database as Facility ID# 16835. The location of the tank was not observed on Tract 45 during the site visit.
- 25. Tract 46 is currently used by AT&T as dispatch offices, an auto shop, and storage. Evidence of several closed monitoring wells was observed on-site. The auto shop is located in the center of the site along the southern property boundary. The shop previously contained a wash bay. A closed drain was observed in the floor of this area. Various oils and solvents typical of an auto shop were neatly stored in designated areas in drums, small containers, a used oil AST, and a parts washer. The facility is listed on the UST, LUST, and GWCI database as Facility ID# 01536.
- 26. Tract 47 is a paved strip of land adjacent to GEX, the former navy supply store. Two abandoned monitoring wells were observed onsite.
- 27. Tract 49 is listed on the UST, LUST, and GWCI database as Facility ID# 15025. Four monitoring wells were observed on the property. The facility is in the SUPERB program. Historical property ownership for Tract 49 and Tract 50 indicate previous ownership by petroleum companies.
- 28. City Directories list Jake's Stop grocery on Tract 53 from 1968 to 1990. The property owner indicated he thought the building was previously a liquor store.

29. Tract 57 was illustrated as a filling (retail petroleum) station on 1912, 1951, and 1955 Sanborn Maps.

S&ME Project No. 1131-08-554

- 30. Historical aerial photographs indicated Tract 62 was previously used as a junk yard.
- 31. Tract 63 was covered with thick vegetation. Mounds were observed on the property. The contents of the mounds were not clear because of the thick vegetation. Concrete debris was also observed onsite. The property was previously owned by several different fertilizer and chemical companies.
- 32. The former TriState landfill that was closed in the 1960s prior to regulations was located somewhere in the area between Jacksonville Avenue, the railroad, Hampton Avenue, and Carner Avenue/Meeting Street Road. Property owners for Tract 40, Tract 44, Tract 49, Tract 50, Tract 51, and Tract 52 indicated their property was part a former landfill. Three SWF/LF database listings (Charleston/Spruill Avenue Dump, Gaston Dump, and Charleston County Dump) were identified in the area of the property. No address information was given for the facilities.
- 33. Septic tanks were previously and are currently used on some of the tracts. Residential septic tanks do not typically pose a threat to the environment. However septic tanks contain and disperse any products that are disposed into drains. Septic tanks on properties that use petroleum products and solvents have the potential to contaminate the soil and groundwater if proper disposal practices are not followed.
- 34. Aerial and topographic maps reviewed as part of this assessment document the filling in of marshlands. Contents of the fill material are unknown. Portions of the subject property were, at one time, an estuarine environment open to tidal activity. Sources of industrial effluents dating back to the 1880s are numerous on the Charleston peninsula.
- 35. Historical ownership information was provided by the SCDOT on the Right of Way Agent's Worksheets and reviewed on the Charleston County website. Fertilizer and chemical companies owned and operated on portions of the subject property. Fertilizer production was prevalent in this area of the peninsula dating back to the 1800s. From the limited information reviewed, Tract 1, Tract 66, Tract 2, Tract 3, Tracts 4, 4A, 4B, 4C, and 4D, Tract 5, Tract 23 and Tract 63 were previously owned fertilizer and chemical companies.
- 36. Transformers were observed throughout the SCDOT proposed right-of-way property. Generally, the transformers were in good condition and no releases were observed. Underground and overhead utility lines and storm water drainage pipes traverse the site.

7.2 Off-Site Findings

1. The EDR database showed 98 listings, some of which were located on the subject property and are discussed in Section 7.1. Others were observed on off-site surrounding properties. The off-site listings deemed to represent a potential environmental concern to the property are discussed below; the remaining listings are deemed not to pose a threat to the subject property.

S&ME Project No. 1131-08-554

- 2. Silk Stockings by Amber is located on the tax parcel of Tract 23, south of the proposed DOT right-of-way. The facility listed on the SCDHEC UST and LUST databases as Facility ID# 19206. Debris that appeared to be contractor wastes including paint cans, plastic, plywood, and calk, was observed behind this building. A 1955 Sanborn Map shown several buildings on this property. One is a restaurant, one is a filing station, one is a store, two are dwellings, one is labeled auto express, and one is not labeled. Silk Stockings by Amber Entertainers (2005), Triangle Restaurant (1990), Sharpton's JB Liquor Store (1980 and 1975), Dix Ollian Retail Liquor Store (1970 and 1968), and Carolina Security Patrol Service (1970) were listed in city directories on Tract 23 at 2103 Meeting Street Road. Structured Wiring & Electric and The Doll Housewere listed at 2045 Meeting Street Road on the property in city directories from 2005 and 1990, respectively.
- 3. ConGlobal repairs container boxes, chassis, and flat racks on Tract 38. Paints, paint thinners, welding materials, tires, grease, oils, and parts washers were observed on the central portion of the property which is off-site of the proposed right-of-way. A diesel, an unleaded gas, a hydraulic oil, an engine oil, and an empty (previously kerosene) ASTs were observed adjacent to SCDOT property. Some piping appeared to go underground. Soil was stained and there was no vegetation around some of the ASTs.
- 4. Tract 47 is listed on the SCDHEC UST and LUST databases as Facility ID# 15926. Armour Oil is listed on the property in the 1975, 1970, and 1968 city directories. The GEX was listed on the property in 1970 and 1975 city directories. The GEX Paint Department was listed in the 1970 and 1975. The GEX Laundry & Cleaners was listed in the 1968 directory. Starting in the 1980s the property was used in conjunction with Tract 44 as a truck container and warehouse facility. Tract 47 was used as a warehouse and container truck repair shop. Past industrial activities conducted at the site include the storage, repair, and painting of shipping containers and truck chassis.
- 5. Eason Diving is located on the off-site portion of Tract 52. The facility is listed on the RCRA-NonGen database with no violations.
- 6. Mims Amusement repairs equipment on the off-site portion of Tract 56. The facility is listed as South Atlantic Amusements on the RCRA-NonGen database with no violations.

7. A junk yard was previously located on the property northwest of Tract 46 and Tract 47.

S&ME Project No. 1131-08-554

- 8. A butane gas tank is shown on the 1912 Sanborn Map west of the intersection of Meeting Street Road at Hampden Avenue.
- 9. A 1939 Sanborn Map illustrated the northwest corner of the intersection of Disher Street and King Street Extension as Riverside Iron Works. A machine shop and pattern shop are shown on the property.
- 10. A 1939 and 1955 Sanborn Maps illustrated an auto junk yard on the southwest corner of the intersection of Disher Street and King Street Extension. A building labeled used auto parts and a dwelling were also located on this property in 1939. A small structure labeled junk storage is shown on the 1955 map. The property is currently used by Sea Port Mechanical, a truck repair shop.
- 11. Maloney Fertilizer was shown on the eastern/northeastern adjoining property of Tract 2 and Tract 3, on the northwestern corner of the intersection of Union Street and King Street Extension, on a 1940 and 1955 Sanborn Map.
- 12. A drycleaner was illustrated on a 1951 Sanborn Map in the northeast corner of the intersection of Corona Street and Riverview Avenue.
- 13. A bottling plant is shown northeast of the intersection of Disher Avenue and Summerville Avenue.
- 14. A filling (retail petroleum) station was shown on a 1955 Sanborn Map directly across Meeting Street Road from Disher Avenue.
- 15. B.L. Montegue & Co. is illustrated on the 1955 Sanborn Map north of Azelia Drive at its intersection with King Street Extension. A fabrication area and machine shop are shown on the property.
- 16. A filling (retail petroleum) station previously operated on Tract 67, north of the proposed DOT right-of-way. The northern portion of property was also used for auto repair and a scrap yard. City Directory lists Al's Auto Service Repairs in 1970. Sanborn Maps depict two auto repair shops on the property.
- 17. Ruscon Corp Prop is listed on the GWCI, LUST, UST, and FINDS databases. The facility is located on the northern adjoining property of Tract 2.
- 18. Browning Ferris Industries was previously located east of Tract 11 and Tract 12. The facility is listed on the UST database as Facility ID #01477 and Facility ID

#01681. Trident Services Incorporated is listed at the same address on the RCRA-NonGen database with no violations.

S&ME Project No. 1131-08-554

January 2010

- 19. J&G Properties, Inc is listed at 2038 Meeting Street Road. This facility is the southern adjoining property to Tract 61. The facility is listed on the LUST and UST databases. Jennings Body Shop is also listed at this address on the RCRA-CESQG and FINDS databases. Several RCRA violations are listed with compliance achieved in 2003. Coach Craft Bodyworks, an automobile repair shop, is located on the southern adjoining property of Tract 61.
- 20. Belcher Service Station is listed at 2502 Spruill Avenue on the LUST, UST, and FINDS databases. The facility is located approximately 400 feet south of Tract 58.
- 21. Infinger Transportation Company is listed at 2811 Carner Avenue on the Brownfields, SHWS, GWCI, RCRA-NonGen, FINDS, VCP, RCR, and Allsites databases. The facility is located approximately 800 feet northwest of the subject property.
- 22. Excel Apparatus Services, General Electric Company, and Besco Facility are listed at 2490 Debonair Street. This facility is located approximately 1000 feet south of the subject property. Excel Apparatus appears on the UST and FTTS databases. General Electric Company is listed on the UST, RCRA-NonGen, and PADS databases. Besco Facility is listed on the Brownfields and SHWS databases.
- 23. Chicora Tank Farm is listed at 2960 Carner Avenue on the Brownfield and SHWS databases. The facility is approximately 1000 feet from Tract 56 and Tract 62.
- 24. Flexi-Van Leasing operates on the southern adjoining property of Tract 46 at 2580 Meeting Street Road.
- 25. Phosphate plants, chemical companies, bulk oil terminals, and the Navy Base have operated on and around the subject property since the 1800s.

8. OPINION

8.1 On-Site Opinions

1. Tract 1 and Tract 66 have historically been owned/used by fertilizer companies. The property is identified on the on the Brownfields, VCP, Allsites, CERCLIS, SHWS, GWCI, and FINDS databases as Swift Agri-Chem Corporation. The regulatory status and historical property use of Tract 1 and Tract 66 are considered a *recognized environmental condition*.

2. Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D property has historically been owned/used by Rhodia and Mobile Chemical Company. Rhodia is listed on the GWCI, LUST, UST, RCR, and Spills databases. Mobile Chemical Company is listed on the GWCI, Corracts, ARIS, CERC-NFRAP, SHWS, SSTS, RCRA-LQG, TRIS, and RCRA TSDF databases. The regulatory status and historical property use of Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D are considered a *recognized environmental condition*.

S&ME Project No. 1131-08-554

- 3. Tract 5 and Tract 68 property has historically been owned by fertilizer companies. The site is part of the Van Ness Sign & Leasing Site that is listed on the Brownfield, VCP, SHWS, and Allsites databases. The regulatory status and historical property use of Tract 5 and Tract 68 are considered a *recognized environmental condition*.
- 4. The historical presence of a gas tank on Tract 6 is considered a *recognized environmental condition* based on the potential for a release. Staining was observed around the above ground storage tanks during the site reconnaissance. The staining is *de minimis* and not considered a *recognized environmental condition*.
- 5. The past operation of Southern Chemical and Professional Carpet Sales on Tract 11 and the historical ownership of Tract 9, Tract 10, and Tract 11 by Southern Chemical are considered a *recognized environmental condition* because chemical use and past practices of these companies are unknown.
- 6. The truck repair shop on Tract 15 is not considered a *recognized environmental condition* because no floor drains were observed and materials were stored in a neat and orderly manner.
- 7. The used oil tote and a rusted drum with unknown contents on Tract 16, Tract 17, and Tract 18 are not considered a *recognized environmental condition* because no evidence of a release was observed. However both should be disposed properly.
- 8. The historical land use as a machine shop is and the stained soils observed during the site reconnaissance are considered a *recognized environmental condition* because past practices of petroleum products and hazardous substances are unknown. The rusted metal 55-gallon drum with unknown contents behind the southern shop building should be disposed properly.
- 9. The city directory listing of Tract 21 as EK SVC air conditioning contractors & systems is not considered a *recognized environmental condition* because during the site reconnaissance the property was occupied by a private residence. No evidence of petroleum products or hazardous materials was observed on the property.

10. The previous land use as an automobile junk yard, observed mounds, and historical auto shop on Tract 22 are considered a *recognized environmental condition* because past practices of petroleum products and hazardous substances are unknown.

S&ME Project No. 1131-08-554

- 11. The historical land use as a store and minimal debris observed on Tract 23 is not considered a *recognized environmental condition* because no evidence of petroleum products, underground storage tanks, or staining was observed.
- 12. The historical property use of Tract 24 as a gasoline station is considered a *recognized environmental condition* because of the potential for underground storage tanks and dispensing lines to leak petroleum products into the soil and groundwater.
- 13. The historical property use of Tract 25 as a repair shop since at least 1955 is considered a *recognized environmental condition* because past use and practices of petroleum products is unknown.
- 14. The database listing as a RCRA-SQG and use by a painting contractor is not considered a *recognized environmental* condition on Tract 26 because no violations were reported. The paints and thinners should be disposed properly. The historical use of the property as a body shop from 1975 to 1990 and the historical property ownership by Atlantic Pest Control Company in 1960 is considered a *recognized environmental* condition because past use and practices of petroleum products and hazardous substances is unknown.
- 15. The historical property use of Tract 28 and Tract 61 as a truck repair shop with floor drains, trough drains, oils, lubricants, parts washers, and an oil water separator considered a *recognized environmental condition* because of the potential for a release of petroleum products and solvents on the property.
- 16. The historical land use by Macalloy and database listings for Tracts 29, 30, 31, 32, 33, 59, and 65 are considered a *recognized environmental condition* because of the known soil and groundwater contamination.
- 17. The historical land use of Tract 35 and Tract 70 as a landfill on the Navy Base, identified as SWMU 9, is considered a *recognized environmental condition* because of the known soil and groundwater contamination. SWMU 196 is also located on Tract 35. SWMU 196 is considered a *recognized environmental condition* because of the known soil and groundwater contamination. The former USTs associated with Building 661 on Tract 35 are considered a *recognized environmental condition* because according to Joel Padgett of DHEC, a Conditional NFA was issued in March 2008 with groundwater concentrations above RBSLs. AOC 654, the former septic and drain field associated with Building 661, is not considered a *recognized environmental*

condition because COCs were not identified though soil sampling and a NFA from SCDHEC in August 1997.

S&ME Project No. 1131-08-554

- 18. Historical land use of Tract 37 as the Charleston County incinerator and documented groundwater contamination is considered a *recognized environmental condition* because past practices of operation are unknown and the source of the contamination has not been confirmed.
- 19. The historical operation of a blast pit and the spent materials from the blasting on Tract 38 are considered a *recognized environmental condition* because of the potential for these materials to leach into the soil and groundwater.
- 20. The operation of chassis repair shop and stained soils on Tract 39 considered a *recognized environmental condition* because of the potential for a release of petroleum products and solvents on the property.
- 21. The debris observed on Tract 41 and Tract 48 is not considered a *recognized environmental condition* because no evidence of petroleum products or staining was observed.
- 22. The operation of a stevedoring repair shop and the oil water separator on Tract 43 is considered a *recognized environmental condition* because of the potential for a release of petroleum products and solvents on the property.
- 23. The listing of Tract 44 on the UST database is not considered a *recognized environmental condition* because, according to Joel Padgett of DHEC, a Regulatory NFA was issued in July 1995. He stated levels of contamination in the soil were not high enough to warrant regulatory action. The debris observed on Tract 44 is not a *recognized environmental condition* because no evidence of petroleum products or staining was observed. The debris should be disposed properly.
- 24. The listing of Tract 45 on the UST database is considered a *recognized environmental condition* because, according to Joel Padgett of DHEC, one tank was removed in November 1984 and closure reports were not required until 1988. The exact location of the tanks is unknown.
- 25. The listing of Tract 46 on the UST, LUST, and GWCI database is considered a recognized environmental condition because, according to Joel Padgett of DHEC, a Conditional NFA was issued in September 2008 with groundwater concentrations of benzene, toluene, and ethylbenzene in the wells near the tank basin above RBSLs. The historical operation of the wash bay, the associated underground piping, and potential for an oil-water separator is considered a recognized environmental condition because past use and practices of petroleum products and solvents is unknown. The current use of the facility is not

considered a *recognized environmental condition* because materials were stored in an orderly manner and no evidence of a release was observed.

S&ME Project No. 1131-08-554

- 26. The abandoned monitoring wells on Tract 47 are associated with the release from the adjoining property to the south (Tract 46), according to Joel Padgett of DHEC. The abandoned monitoring wells are considered a *recognized environmental condition* because contaminant concentrations in this plume were above their RBSLs when the conditional NFA was issued in September 2008.
- 27. The listing of Tract 49 on the UST, LUST, and GWCI database is considered a *recognized environmental condition* because, according to Joel Padgett of DHEC, additional investigation is in progress at the site. The site has a low ranking and is waiting on funding
- 28. City Directories list Jake's Stop grocery on Tract 53 from 1968 to 1990. Historically some grocery stores sold petroleum products. The property owner indicated he thought the building was previously a liquor store. The past use of Tract 53 is not considered a *recognized environmental condition* because no evidence that petroleum products were stored or sold on the property was revealed through interviews or the site reconnaissance.
- 29. The past use of Tract 57 as a filling (retail petroleum) station is considered a *recognized environmental condition* because of the potential for underground storage tanks and dispensing lines to leak petroleum products into the soil and groundwater.
- 30. The historical property use of Tract 62 as a junk yard is considered a *recognized environmental condition* because of the potential for a release of petroleum products or hazardous substances.
- 31. The fill material mounded on Tract 63 is not considered a *recognized environmental condition* because the limited amount observed. However, the debris should be removed and properly disposed.
- 32. The former TriState landfill closed in the 1960s prior to regulations. It was located somewhere in the area between Jacksonville Avenue, the railroad, Hampton Avenue, and Carner Avenue/Meeting Street Road. Property owners for Tract 40, Tract 44, Tract 49, Tract 50, Tract 51, and Tract 52 indicated their property was part a former landfill. Three SWF/LF database listings (Charleston/Spruill Avenue Dump, Gaston Dump, and Charleston County Dump) were identified in the area of the property. No address information was given for the facilities. The historical landfill is considered a *recognized environmental condition* because of the potential for contaminates to impact the soil and groundwater.

33. Septic tanks on residential properties are not considered a *recognized environmental* condition because household sanitary wastes and gray water do not typically pose a threat to the environment. Septic tanks on non-residential properties that use petroleum products, solvents, or hazardous substances or operate an oil water separator are considered *recognized environmental conditions* because of the potential for petroleum products or hazardous substances to enter the system and impact the soil and groundwater.

S&ME Project No. 1131-08-554

January 2010

- 34. Aerial and topographic maps reviewed as part of this assessment document the filling in of marshlands. The fill is considered a *recognized environmental condition* because the source and content of the material are unknown.
- 35. From the limited information reviewed, Tract 1, Tract 66, Tract 2, Tract 3, Tracts 4, 4A, 4B, 4C, and 4D, Tract 5, Tract 23, and Tract 63 were previously owned fertilizer and chemical companies. The historical ownership is considered a *recognized environmental condition* based on the potential for past use to impact the property.
- 36. Transformers, utility lines, and storm water drainage pipes are not considered a *recognized environmental condition* because no evidence of a release was observed during the site reconnaissances.

8.2 Off-Site Opinions

- 1. The EDR database listings identified on off-site surrounding properties with potential environmental concern are discussed below. Other database listings identified on off-site surrounding properties are not considered a *recognized environmental condition* based on intervening topography, distance from the subject property, or nature of the database listing.
- 2. The Silk Stockings by Amber UST and LUST site on Tract 23 is not considered a recognized environmental condition because, according to Joel Padgett of DHEC, an NFA was issued in November 2006 and groundwater was not impacted. The debris behind the structure is not considered a recognized environmental condition because no evidence of petroleum products or staining was observed. However, this debris should be properly disposed. The past property uses as a restaurant, store, dwellings, and auto repair shop are not considered a recognized environmental condition because no evidence of a release from previous use was discovered during the investigation of the Silk Stockings by Amber site.
- 3. Current operations, the stained soil, and underground piping associated with the ASTs on Tract 38 is considered a *recognized environmental condition* because of the potential for petroleum products or solvents to impact the soil and groundwater.

4. The listing of Tract 47 on the UST and LUST database is not considered a recognized environmental condition because, according to Joel Padgett of DHEC, a Regulatory NFA was issued in July 1995. He stated levels of contamination in the soil were not high enough to warrant regulatory action. The past use of the property as a container truck repair shop is not considered a recognized environmental condition because, according to Joel Padgett of DHEC, groundwater on the adjoining property to the south (Tract 46) flows northeast. Therefore groundwater is assumed to flow northeast and away from the portion of the property the SCDOT is considering for purchase.

S&ME Project No. 1131-08-554

- 5. Eason Diving on Tract 52 is not considered a *recognized environmental condition* because of the nature of the database listing as a RCRA-NonGen facility with no violations.
- 6. Mims Amusement on Tract 56 is not considered a *recognized environmental condition* because of the nature of the database listing as a RCRA-NonGen facility with no violations.
- 7. The historical operation of junk yard on the northwestern adjoining property of Tract 46 and Tract 47 is not considered a *recognized environmental condition* because of the assumed groundwater flow toward the northeast and away from the subject property.
- 8. The butane tank at the intersection of Meeting Street Road and Hamden Avenue is not considered a *recognized environmental condition* based on distance from the subject property and butane's natural state as a gas.
- 9. The past use of the property on the northwest corner of the Disher Street and King Street Extension intersection as Riverside Iron Works is not considered a *recognized environmental condition* because no evidence of tanks or chemical/petroleum use was revealed during this assessment.
- 10. The historical use of the property on the southwest corner of the intersection of Disher Street and King Street Extension (eastern adjoining property of Tract 20) as an auto junk yard, used auto parts store and the current use as a truck repair shop is considered a *recognized environmental condition* because of the potential for petroleum products or solvents to impact the property.
- 11. The previous operation of Maloney Fertilizer on the eastern/northeastern adjoining property of Tract 2 and Tract 3 is considered a *recognized environmental condition* based on its upgradient topographic location.
- 12. The drycleaner located in the northeast corner of the intersection of Corona Street and Riverview Avenue is considered a *recognized environmental condition* because of its close proximity to the property (approximately 600 feet

south of Tract 46) and the potential for solvents to travel long distances in the groundwater.

S&ME Project No. 1131-08-554

- 13. A bottling plant is shown northeast of the intersection of Disher Avenue and Summerville Avenue is not considered a *recognized environmental condition* because no evidence of tanks or chemical/petroleum use was revealed during this assessment.
- 14. The filling (retail petroleum) station across Meeting Street Road from Disher Avenue is not considered a *recognized environmental condition* based on distance from the subject property and intervening topography.
- 15. B.L. Montegue & Co., located north of Azalea Drive at its intersection with King Street Extension, is considered a *recognized environmental condition* because past use of petroleum products and hazardous substances is unknown.
- 16. The historical operation of a filling (retail petroleum) station, auto repair shops, and a scrap yard on the northern off-site portion of Tract 67 is considered a *recognized environmental condition* because of the potential for petroleum products or hazardous substances to impact the property.
- 17. Ruscon Corp Prop is not considered a *recognized environmental condition* because, according to Joel Padgett of DHEC, there plume does not appear to migrate off-site and the release has a low ranking.
- 18. Browning Ferris Industries, previously located east of Tract 11 and Tract 12, is not considered a *recognized environmental condition* because, according to Joel Padgett and Stephanie Briney of DHEC, Regulatory NFAs were issued for Facility ID #01477 and #01681 in July 1995. Trident Services Incorporated, listed at the same address, is not considered a *recognized environmental condition* based on the nature of the listing on the RCRA-NonGen database with no violations.
- 19. The listing of J&G Properties, Inc on the UST and LUST database is not considered a *recognized environmental condition* because, according to Stephanie Briney of DHEC, an NFA was issued in February 1998. The listing of Jennings Body Shop on the RCRA-CESQG and FINDS databases is not considered a *recognized environmental condition* because violations have achieved compliance. The current use of the property as Coach Craft Bodyworks, an automobile repair shop, is not considered a *recognized environmental condition* because of assumed groundwater flow away from the subject property to the southeast based on topographic maps.
- 20. Belcher Service Station is not considered a *recognized environmental condition* because, according to Stephanie Briney of DHEC, an NFA letter was issued in January 2000.

21. Infinger Transportation Company is considered a *recognized environmental condition* based on its regulatory status on the Brownfields, SHWS, GWCI, RCRA-NonGen, FINDS, VCP, RCR, and Allsites databases, known VOC groundwater contamination, and according to Keisha Long of DHEC, assessment has not been conducted to document if contamination is migrating off-site.

S&ME Project No. 1131-08-554

January 2010

- 22. The historical use of the property located at 2490 Debonair Street as Excel Apparatus Services, General Electric Company, and Besco Facility is considered a *recognized environmental* condition based on its regulatory status on the UST, FTTS, UST, RCRA-NonGen, PADS, Brownfields, and SHWS databases and distance (approximately 1000 feet south) from the subject property.
- 23. Chicora Tank Farm is not considered a *recognized environmental condition* based on the documented groundwater flow direction to the northeast away from the subject property.
- 24. Flexi-Van Leasing, a service center for truck chassis, is not considered a *recognized environmental* condition based because no evidence of tanks or chemical/petroleum use was revealed during this assessment.
- 25. The historical use of the Charleston Peninsula neck area as phosphate plants, chemical companies, fertilizer companies, bulk oil terminals, and the Navy Base since the 1800s is considered a *recognized environmental condition* because past use of petroleum products and hazardous substances is unknown.

8.3 Data Gaps, Data Failure and Limitations

The lack of a review of title records is a data gap. Once this information is provided to us and we review it, we will comment of the significance of this data gap in an addendum letter to this Phase I ESA report if the information alters the findings and conclusions presented herein. Usage of the subject property was not researched to before the property was developed and there are intervals greater than five years between selected standard historical sources and because sources to achieve that level of documentation were not reasonably ascertainable. Limitations of property access and interviews were also encountered during this assessment. It is our opinion that these data gaps were not significant and did not affect the environmental professional's ability to identify possible *recognized environmental conditions* on the subject site.

9. CONCLUSIONS

S&ME has performed a Phase I Environmental Site Assessment of the *Port Access Road Property* in Charleston County, South Carolina in conformance with our understanding of the ASTM Standard Practice E 1527-05. Limitations and exceptions to this practice are described in Section 1.4 of this report. Deviations are described in Section 11.0.

This assessment has revealed evidence of the following *recognized environmental conditions* in connection with the property:

On-site

• Regulatory status (Swift Agri-Chem Corporation) and historical property use of Tract 1 and Tract 66

S&ME Project No. 1131-08-554

January 2010

- Regulatory status (Rhodia and Mobile Chemical Company) and historical property use of Tract 4, Tract 4A, Tract 4B, Tract 4C, and Tract 4D
- Regulatory status (Van Ness Sign & Leasing Site) and historical property use of Tract 5 and Tract 68
- Historical presence of a gas tank on Tract 6
- Past operation of Southern Chemical and Professional Carpet Sales on Tract 11 and historical ownership of Tract 9, Tract 10, and Tract 11 by Southern Chemical
- Historical land use as a machine shop since 1981 and stained soils on Tract 20
- Previous land use as an automobile junk yard, observed mounds, and historical auto shop on Tract 22
- Historical property use of Tract 24 as a gasoline station
- Historical property use of Tract 25 as a repair shop since at least 1955
- Historical property use of Tract 26 as a body shop from 1975 to 1990 and the historical property ownership by Atlantic Pest Control Company in 1960
- Historical property use of Tract 28 and Tract 61 as a truck repair shop with floor drains, trough drains, oils, lubricants, parts washers, and an oil water separator
- Regulatory status (Macalloy) and historical property use of Tracts 29, 30, 31, 32, 33, 59, and 65
- Regulatory status (SWMU 9 and SWMU 196) and historical land use of Tract 34, Tract 35 and Tract 70 as a landfill on the Navy Base and groundwater contamination above the RBSLs associated with the USTs previously located at Building 661
- Historical land use of Tract 37 as the Charleston County incinerator and documented groundwater contamination
- Historical operation of a blast pit and the spent materials from the blasting on Tract 38
- Operation of chassis repair shop and stained soils on Tract 39
- Operation of a stevedoring repair shop and oil water separator on Tract 43
- The previous use of an underground storage tank on Tract 45 with no closure assessment
- Groundwater contamination above the RBSL and the historical operation of the wash bay, the associated underground piping, and potential for an oil-water separator on Tract 46
- Groundwater contamination on Tract 47 associated with the plume on Tract 46
- An active UST release with additional assessment pending on Tract 49
- Historical property use of Tract 57 as a gasoline station
- Historical property use of Tract 62 as a junk yard

- The former TriState landfill
- Septic tanks on non-residential properties
- The unknown source and content of fill material in marshlands
- Historical ownership of Tract 1, Tract 66, Tract 2, Tract 3, Tracts 4, 4A, 4B, 4C, and 4D, Tract 5, Tract 23 and Tract 63

S&ME Project No. 1131-08-554

January 2010

Offsite

- Current operations, the stained soil, and underground piping associated with the ASTs on Tract 38
- Historical use of the property on the southwest corner of the intersection of Disher Street and King Street Extension (eastern adjoining property of Tract 20) as an auto junk yard, used auto parts store and the current use as a truck repair shop
- Previous operation of Maloney Fertilizer on the eastern/northeastern adjoining property of Tract 2 and Tract 3
- Historical drycleaner located in the northeast corner of the intersection of Corona Street and Riverview Avenue
- B.L. Montegue & Co., located north of Azalea Drive at its intersection with King Street Extension
- Historical operation of a filling (retail petroleum) station, auto repair shops, and a scrap yard on the northern off-site portion of Tract 67
- Infinger Transportation Company located approximately 800 feet from the subject property.
- Excel Apparatus Services, General Electric Company, and Besco Facility listed on the UST, FTTS, UST, RCRA-NonGen, PADS, Brownfields, and SHWS databases approximately 1000 feet from subject property.
- Phosphate plants, chemical companies, fertilizer companies, bulk oil terminals, and the Navy Base have operated in the neck area of the Charleston Peninsula since the 1800s.

10. DEVIATIONS

S&ME has endeavored to perform this Phase I ESA in substantial conformance with the scope and limitations of ASTM Standard Practice E1527-05 without significant deviation. Because of the limited availability of data, the operational history of the subject property was not documented at intervals of approximately 5 years and the use of the subject property prior to development could not be determined. In addition, complete chain-of-title and environmental lien and activity or use limitations information was not provided by the user. Physical limitations included dense vegetation and marshland. Other constraints encountered during the assessment included access to portions of the property and limited interviews of some owners, key site managers, and occupants. No other deviations to ASTM Practice E 1527-05 were made in the completion of this Environmental Site Assessment.

11. ADDITIONAL SERVICES

No additional services were provided.

12. REFERENCES

Published references used for this project are noted in the section of the report in which they appear.

13. SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

I declare that, to the best of my professional knowledge and belief, that I meet the definition of *Environmental professional* as defined in paragraph 312.10 of 40 CFR 312, and that I have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312."

Chuck Black, P.E.

Environmental Professional

14. QUALIFICATION OF ENVIRONMENTAL PROFESSIONAL

The environmental professional for this project is Mr. Chuck Black. Mr. Black is a graduate of Clemson University with a BS in Civil Engineering. He is a Senior Reviewer with 16 years of environmental consulting experience. Mr. Black has completed ASTM training for performing Phase I ESAs.

Ms. Mary Beth Cline, P.E. also conducted part of this assessment and prepared the report. Ms. Cline is a graduate of Clemson University with a BS degree in Biosystems Engineering. She has five years of experience conducting Phase I and Phase II ESAs. She has attended ASTM training for Phase I Environmental Site Assessment

LINE#4 Formerly Carolina Atlantic and Western Railway - merged L23-682 1915. Now Seaboard Coast Line Railroad Company.

LINE#15 This particular remaining acreage is the combination of deeds: P31-319, L32-214, W46-1 and after sales to Pittsburg Metallurgical Company - Z51-565 and US A B87-24. In 1936 listed 96.63 Ac. 31.50 Ac. Windsor lots and Streets. 1937 changed to CXOPER YARD 117 Ac. obviously when they added 96.63 plus 31.50 it should have been 128.13 Ac. but they called it 117 Ac. No explanation as to why the difference. After allowing for daily use we compute remaining land to be 36.4 ac High and 10.6 Ac. marsh. (Beth Cole 5-71)

IINE #12--Previously mapped as 36.4 ac.H. & 10.6 ac.M, High and Marsh., Cooper Yard. Subdivided into Tract A and B per plat AF-14 for 1977. See 469=-=-8/ jk, 3-8-77.

LINE #12--Per re-survey plat BP-115, the acreage is changed from 17.8 ac. high to 15.05 ac. high, 2.75 ac. marsh = total 17.8 ac., and the measurements are changed from 920.2 x 934.9 x 312.2 x 535.5 x 855.8 to 920.6 x 934.4 x 312.2 x 535.1 x 855.8 for 1988. 4-21-88

LINE #5--Jurisdiction changed from 1 to 7 per deed M169-791 for 1988. Also see Q/C deeds M169-802 and P169-451, from CSX Transportation, Inc. to The County of Charleston, for all right, title and interest in the 1.03 ac. marsh. 4-21-88 sb

LINE #1--Annexed into the City of North Charleston 4-3 from North Charleston 4-1 by Ratif. #1987-125 Sec. #24-D dated 12-30-87 for 1988/ bt 5-26-88

- LINE #3--By Will of Wilbur L. Spruill. Also Q/C deed F94-267 form City Council of Charleston for int in R/W and Lots 9, 10, 11 and 12 LINE #15--Lots combined for common use
- LINE #19--Asmts combined: Tuxbury is 1L-200; LT 9, 10, & 11 Spruill is 3L-100.
- LINE #11--Lots 9, 10 and 11 is included in this legal. Wilbur L. Spruill purchased many lots. The one-concerning this entry are listed below: I41-338 with plat for corner lot, Q42-169 (6,7,8) in F-57 (resub 6 & 7), U45-437 for 60' r/w adj from City Council The entry we are creating combines two Auditors entries which do not represent actually all the land Mr. Terry owns.

 Spruill Ave. splits her land- She sold some and by plat and deed she has left what we show here- 9, 10 & 11 Spruill F-243, 8 Pritchard F-57 only pt left. Tuxbury I41-338 & F-45 (deed and plat) City Council R/W F-227
- LINE #14--Finally measurements taken from unrecorded plat from Mr. Pritchard in work sheet folder
- LINE #1--466-15-00-16 separated into A & B cards for 1980 by letter dated Nomember 10, 1977 in Auditor Office. The B card is leased to the Hertz Corporation. Separated for 1980. 11/18/80 ds
- LINE# 11--Prev. mapped as just land. Per Auditor, TMS#--466-16-00-16A and 16B are combined, because Deed K131-311 buys both Land and Bldg. Combined for 1984. jwc 5-29-84
- LINE# 4--Deed K131-311 buys both land and bldg. 7 Therefore, as line # 11 indicates, both 466-16-0-16A and 16B were combined and Deed was transfered. Kelly and Kelly is a South Carolina General Partnership. jwc 5-29-84
 - LINE #1--Tax district changed from tax district 4-1, North Charleston P.S.D. to tax district 4-3, City of North Charleston by ordinance no. 1994-45 dated 12-22-94 for 1995. 2/24/95 cdf

Disclaimer - Copyright and Trademark Notice

The EDR FieldCheck ®System enables EDR's customers to make certain online modifications to the maps and text contained in EDR Radius Map Reports. As a result, the maps and text contained in this Report may have been so modified. EDR has not taken any action to verify any such modifications, and this report and the findings set forth herein must be read in light of this fact. The EDR FieldCheck System accesses user-modified records from previously submitted reports. Any user-modified record from a previous report that is plotted outside the search radius of this report may not be included in this report.

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2010 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.

A search of the environmental records was conducted by Environmental Data Resources, Inc. (EDR). S&ME used the EDR FieldCheck System to review and/or revise the results of this search, based on independent data verification by S&ME. The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

SPRUILL AVENUE NORTH CHARLESTON, SC 29405

COORDINATES

Latitude (North): 32.838660 - 32° 50' 19.2" Longitude (West): 79.958400 - 79° 57' 30.2"

Universal Tranverse Mercator: Zone 17 UTM X (Meters): 597483.0 UTM Y (Meters): 3633691.0

Elevation: 15 ft. above sea level

SSTS..... Section 7 Tracking Systems

ICIS..... Integrated Compliance Information System

UIC...... Underground Injection Wells Listing

DRYCLEANERS...... Drycleaner Database

NPDES...... Waste Water Treatment Facilities Listing

AIRS..... Permitted Airs Facility Listing

INDIAN RESERV..... Indian Reservations

SCRD DRYCLEANERS...... State Coalition for Remediation of Drycleaners Listing COAL ASH EPA...... Coal Combustion Residues Surface Impoundments List

PCB TRANSFORMER...... PCB Transformer Registration Database

COAL ASH...... Coal Ash Disposal Sites

COAL ASH DOE..... Sleam-Electric Plan Operation Data

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants..... EDR Proprietary Manufactured Gas Plants

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

An online review and analysis by S&ME of the NPL list, as provided by EDR, and dated 07/02/2010 has revealed that there are 2 NPL sites within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MACALLOY CORPORATION	1800 PITTSBURG AVENUE	ESE 1/8 - 1/4 (0.178 mi.)	Q57	141
KOPPERS CO., INC. (CHARLESTON	CHARLESTON HEIGHTS	S 1/2 - 1 (0.536 mi.)	AF103	264

Federal CERCLIS list

CERCLIS: The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

An online review and analysis by S&ME of the CERCLIS list, as provided by EDR, and dated 01/29/2010 has revealed that there are 7 CERCLIS sites within approximately 0.5 miles of the target property.

SWIFT AGRI-CHEM CORP	2750 SPEISSEGGER DRIVE	W 1/8 - 1/4 (0.197 mi.)	60	183

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

An online review and analysis by S&ME of the CERC-NFRAP list, as provided by EDR, and dated 06/23/2009 has revealed that there are 2 CERC-NFRAP sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

An online review and analysis by S&ME of the CORRACTS list, as provided by EDR, and dated 05/25/2010 has revealed that there are 4 CORRACTS sites within approximately 1 mile of the target property.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste.

An online review and analysis by S&ME of the RCRA-TSDF list, as provided by EDR, and dated 02/17/2010 has revealed that there are 2 RCRA-TSDF sites within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

An online review and analysis by S&ME of the RCRA-LQG list, as provided by EDR, and dated 02/17/2010 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

An online review and analysis by S&ME of the RCRA-SQG list, as provided by EDR, and dated 02/17/2010 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

An online review and analysis by S&ME of the RCRA-CESQG list, as provided by EDR, and dated 02/17/2010 has revealed that there are 5 RCRA-CESQG sites within approximately 0.25 miles of the target property.

Federal institutional controls / engineering controls registries

US ENG CONTROLS: A listing of sites with engineering controls in place.

An online review and analysis by S&ME of the US ENG CONTROLS list, as provided by EDR, and dated 12/20/2009 has revealed that there is 1 US ENG CONTROLS site within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MACALLOY CORPORATION	1800 PITTSBURG AVENUE	ESE 1/8 - 1/4 (0.178 mi.)	Q57	141

US INST CONTROL: A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

An online review and analysis by S&ME of the US INST CONTROL list, as provided by EDR, and dated 12/20/2009 has revealed that there is 1 US INST CONTROL site within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MACALLOY CORPORATION	1800 PITTSBURG AVENUE	ESE 1/8 - 1/4 (0.178 mi.)	Q57	141

State- and tribal - equivalent CERCLIS

SHWS: State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

An online review and analysis by S&ME of the SHWS list, as provided by EDR, and dated 10/05/2010 has revealed that there are 39 SHWS sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Health & Environmental Control's Permitted Landfills List/Inactive MSWLF List.

An online review and analysis by S&ME of the SWF/LF list, as provided by EDR, and dated 09/22/2010 has revealed that there are 4 SWF/LF sites within approximately 0.5 miles of the target property.

State and tribal institutional control / engineering control registries

RCR: The Bureau of Land and Waste Management established this Registry to help monitor and maintain sites that have conditional remedies. A Conditional Remedy is an environmental remedy that includes certain qualifications. These qualifications are divided into two major categories: Remedies requiring Land Use Controls and Conditional No Further Actions.

An online review and analysis by S&ME of the RCR list, as provided by EDR, and dated 09/21/2010 has revealed that there are 9 RCR sites within approximately 0.5 miles of the target property.

Local Lists of Hazardous waste / Contaminated Sites

ALLSITES: The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

An online review and analysis by S&ME of the ALLSITES list, as provided by EDR, and dated 08/16/2010 has revealed that there are 11 ALLSITES sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA-NonGen: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

An online review and analysis by S&ME of the RCRA-NonGen list, as provided by EDR, and dated 02/17/2010 has revealed that there are 10 RCRA-NonGen sites within approximately 0.25 miles of the target property.

The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS

CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE

DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Biennial Reports:

Last Biennial Reporting Year: 2009

Annual Waste Handled:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 505620

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS

CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS

Direction Distance Flevation

Elevation Site Database(s) EPA ID Number

MOBIL CHEMICAL CO (Continued)

1000253074

EDR ID Number

USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 592430

Waste code: D003

Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS

NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE

OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

Amount (Lbs): 64950

Event: Igration of Contaminated Groundwater under Control, Yes, Migration of

Contaminated Groundwater Under Control has been verified. Based on a review of information contained in the EI determination, it has been determined that migration of contaminated groundwater is under control at the facility. Specifically, this determination indicates that the migration of contaminated groundwater is under control, and that monitoring will be conducted to confirm that contaminated groundwater remains within the existing area of contaminated groundwater. Environmental Interest/Information System

SC-EFIS (South Carolina - Environmental Facility Information System)

integrates information on environmental facilities, permits,

violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina

and Maine joined their system in 2004.

Summary Details:

Conditions of Proposal October 22, 1999): The Macalloy Corporation Macalloy) is located in North Charleston, Charleston County, South Carolina. The facility comprises about 125-acres, and is bound on the west by the CSX Railroad, on the east by Shipyard Creek, a tributary of the Cooper River, on the south by Pittsburgh Avenue, and on the north by a waste-to-energy plant operated by Foster Wheeler, Inc. Since 1979, Macalloy has owned and, until July 1998, operated the facility for the production of ferrochromium alloy. From 1966 to 1979, the facility was owned and operated by AIRCO Corporation. From 1941 to 1966, the facility was owned and operated by the Pittsburgh Metallurgical Corporation. Prior to 1941, the facility propertywas used as a lumbermill and a rice plantation. At various times from 1942 to July 1998, the United States owned, operated, or otherwise used portions of the facility for the production of ferrochromium alloy. The facility ceased operations in July 1998 due to market pressures from cheaper ferrochromium produced abroad. Macalloy produced ferrochromium alloy by smelting iron and chromium ore in submerged electric arc furnaces. Ferrochromium alloy is used in the production of high quality stainless steel. Historically, as many as 12 furnaces were used to produce the alloy. At the time of closing, Macalloy operated only one furnace. Alloy manufacturing activities have resulted in the generation of slag, fine particulate matter, ashes and dust PMAD), gas conditioning tower GCT) sludge and associated wastewater, electrostatic precipitator ESP) dust, and baghouse dust. Slag containing chromium and cadmium has been deposited as fill material throughout the facility and has been used to construct a portion of an on-site unlined surface impoundment. From 1941 to 1970, PMAD was discharged directly into the atmosphere. PMAD containing

chromium, lead, inc, and manganese was deposited throughout the facility through fallout from the atmosphere. Air pollution control APC) equipment, including gas conditioning towers and electrostatic precipitators, was installed in approximately 1970 to remove contaminants from plant air emissions prior to their discharge tothe atmosphere. ESP dust containing cadmium, chromium, lead, inc, mercury, and manganese has been generated as part of the operation of the APC at a rate of approximately seven tons per day. From 1970 to approximately 1988, untreated ESP dust was stockpiled in numerous areas on the facility property and was used to fill low areas on site. From 1988 to 1997, Macalloy placed treated ESP dust on site, primarily in the unlined surface impoundment. In January 1997, pursuant to the terms of a consent order with the South Carolina Department of Health and Environmental Control SCDHEC), Macalloy discontinued disposal of ESP dust in the unlined surface impoundment and initiated off-site disposal of the material. On June 10, 1998, pursuant to the terms of an administrative order on consent with the U.S. Environmental Protection Agency EPA), Macalloy agreed to conduct work to abate an imminent and substantial threat to human health and the environment. GCT sludge and associated wastewater containing cadmium, chromium, lead, mercury, nickel, and inc have also been generated as part of the operation of the APC equipment. GCT sludge has been disposed as fill material at numerous locations at the facility. Approximately 40,000 tons of GCT sludge were used in the construction of the unlined surface impoundment. Macalloy generated approximately six tons of GCT sludge per day and returned this material from the settling basins to the furnace as a substitute for low-grade chromite ore. From 1970 to July 1998, the GCT wastewater was discharged to a settling basin. Macalloy operated four surface water discharge points under a National Pollutant Discharge Elimination System permit that SCDHEC issued. These outfalls discharge into Shipyard Creek. Macalloy has repeatedly exceeded its permit limits for total chromium and hexavalent chromium. In 1997, EPA and SCDHEC collected soil, sediment, and surface water samples from various locations at the facility. Shipyard Creek is used for recreational fishing. On April 30, 1998, SCDHEC issued an emergency order closing Shipyard Creek to the harvesting of all shellfish due to high levels of chromium detected in edible fish tissue. The Cooper River, located approximately 0.75 mile downstream from the facility, is used for fishing, boating, and water skiing. Status February 2000): EPA is considering various alternatives for this site. The description of the site is based on information available at the time the site was scored. The description may change as additional information is gathered on the sources and extent of contamination. See 56 FR 5600, February 11, 1991, or subsequent FR notices.

CERCLIS Site Alias Name(s):

Alias Name: MACALLOY SITE

Alias Address: 1800 PITTSBURG AVENUE

CHARLESTON, SC 29405

Alias Name: MACALLOY CORPORATION
Alias Address: 1800 PITTSBURGH AVENUE

NORTH CHARLESTON, SC 29405

Site Description: preparing to negotiate an AOC - may ultimately go enforcement lead or fund

-lead. The Macalloy Corporation Site is located at 1800 Pittsburgh Avenue in Charleston, South Carolina. This former ferrochromium alloy manufacturing plant is located on approximately 147 acres fronting Shipyard Creek in an industrial and commercial section of the Charleston Peninsula, formed by the confluence of the Ashley and Cooper Rivers. The facility is located directly adjacent to a tidal marsh along Shipyard Creek. Much of the site is open and not vegetated. Topography of the site is essentially flat with most elevations averaging 10 to 15 feet mean sea level (msl). The ground surface is covered primarily with material from plant operations and is essentially devoid of vegetation except in the far north portion and the extreme southeast corner of the site. Most of the buildings at the former plant have been demolished, although some building foundations remain. Portions of the site have been built up to current grade using slag, sludge, treated and untreated dust from air pollution control equipment, and raw materials. The site contains large piles of berm material from two former surface impoundments. Macalloy has discontinued ferrochromium alloy production and redevelopment of the property for other industrial uses is planned following remediation. The most likely future land

use is commercial/industrial that will utilize the multi-modal transportation options afforded by Interstate 26, adjacent rail lines, and deep water access of Shipyard Creek. The future land use envisioned for the property is consistent with adjacent properties and zoning established by the city of North Charleston. EPA has encouraged prospective purchasers to become involved with remedy selection and implementation so that remediation plans can be reconciled with redevelopment concepts. Geologic and groundwater information has been correlated into four groundwater units for the site: the shallow upper groundwater aguifer; the intermediate confining unit; the deep lower aguifer; and a basal confining unit. Groundwater in the shallow aquifer is encountered at depths of approximately 3 to 8 feet below ground surface (bgs). Shallow surficial aguifer groundwater flows east towards Shipyard Creek and is essentially unaffected by tides. Groundwater discharges to surface water in the 002 Settling Canal and Basin 002A. Groundwater at the Macalloy Site is not currently used for consumption and probably will not be in the future because Macalloy is located in a commercial/industrial area that is connected to the city water supply. Available data indicate that water quality of the shallow aguifer does not meet the primary and secondary drinking water standards promulgated under the Safe Drinking Water Act (SDWA). However, the South Carolina Water Classifications and Standards, R.61-68, classifies all groundwater as a potential underground source of drinking water. Surface water onsite is found in storm water control basins and canals. Storm water runoff is not used onsite (e.g., for irrigation), but is discharged to Shipyard Creek via two National Pollutant Discharge Elimination System (NPDES) discharge points. Shipyard Creek is not likely to be used by current or future subsistence fishers because the site is an inactive industrial facility and all of the surrounding property is owned by industrial or municipal entities. In addition, access to the creek is limited and boating is infrequent. However, the creek may be used by recreational fishers. Onsite storm water runoff flows through settling basins and diversions to two NPDES outfalls, with limited areas flowing directly to Shipyard Creek. A series of detention basins constructed as part of the consent order with EPA remove suspended solids from storm water runoff prior to discharge through the outfalls. The Macalloy plant is located directly adjacent to and west of a tidal marsh. Wetland areas are adjacent to Shipyard Creek. Discharge of onsite storm water from the 001 Outfall to the adjacent 001 tidal creek was eliminated as part of the consent order with EPA. During operation, the Macallov plant produced ferrochromium alloy by smelting chromium ore in submerged electric arc furnaces. It was owned and operated by Pittsburgh Metallurgical Company from 1941 to 1966, Airco (British Oxygen Corporation) from 1966 to 1979, and Macalloy from 1979 to July 1998, when alloy production ceased. Ferrochromium alloy was manufactured at the site from 1941 to 1998. The process most recently involved the conversion of chromium-bearing ore (chromite) to ferrochromium in a single submerged arc electric furnace. The alloy was then used to produce high quality stainless-steel. A second furnace on the property had been out of use for several years by the time manufacturing ceased in 1998. Over the years of operation, smelting has included both submerged and open arc furnaces. Open arc (low carbon) furnaces were operated between approximately 1946 and 1967. Submerged arc furnaces were used in subsequent years. Open arc (low carbon) furnaces generally produce more chromium (VI) byproduct than submerged arc furnaces. The furnace yielded approximately 180 tons of finished ferrochromium per day. The raw material quantities required to achieve this yield consisted of approximately 450 tons of chromite ore, 126 tons of coke, 45 tons of silica, and 36 tons of alumina per day. Waste materials generated during furnace operations included wastewater, airborne waste gases, and particulate matter. Water was used for cooling inside the furnace and as the contact cooling medium for airborne discharges from the furnace. Air emissions control equipment at

the Macalloy Site included three baghouses, two gas conditioning towers, and two electrostatic precipitators (ESPs). These systems generated various solid wastes, including dust collected in the ESPs and baghouses and sludge from the gas conditioning towers, including bottom sludge from an onsite NPDES-permitted settling pond (Outfall 001). From 1988 until 1997, an Unlined Surface Impoundment (USI) for treated ESP dust was operated by Macalloy just north of the ferrochromium process area. During its final years of operation, the plant was regulated by several federal environmental statutes, primarily the Clean Water Act (CWA), the Clean Air Act (CAA), and the Resource Conservation and Recovery Act (RCRA). In 1992, the South Carolina Department of Health and Environmental Control (SCDHEC) Bureau of Water Pollution Control issued Administrative Order 92-64-W requiring the Macalloy Corporation to remediate contaminated groundwater on the Macalloy property. Pursuant to this order, a groundwater remediation system was installed in 1994-1995 around the area of the USI. In 1996, Macalloy began the Resource Conservation and Recovery Act (RCRA) corrective action process. In January 1997, pursuant to the terms of a consent order with the SCDHEC (No. 96-38-HW), Macalloy initiated offsite disposal of treated ESP dust from the USI. Macallov also initiated a removal action in June 1998 under a consent order with The United States Environmental Protection Agency (EPA) (No. 98-18-C) to implement a surface water management system to mitigate transport of contaminants to Shipyard Creek while a final site remedy was being developed. The remedial actions at the Macalloy Site began with the previously mentioned 1992 Administrative Order. It also includes the 1996 RCRA corrective action and the 1998 removal action. Also in 1998, an initial draft RCRA Facility Investigation/Confirmation Sampling Investigation (RFI) Work Plan (October 14, 1998), was submitted to the EPA and the SCDHEC for review and comment. The draft RFI work plan was revised based on technical comments received from both agencies and then resubmitted on November 30. 1999. After production at the plant ceased in July 1998, Macalloy, EPA, and SCDHEC decided that CERCLA would be a more appropriate mechanism for this site. Subsequently, the site was proposed for inclusion on the National Priorities List (NPL) on October 22, 1999, and was listed as "final" the following February. On March 29, 2000, Macalloy entered into an agreement with the EPA to perform a CERCLA RI/FS. The revised November 30, 1999, RFI work plan formed the basis of the CERCLA RI/FS work plan, which was converted to fulfill the requirements of the March 29, 2000, agreement with EPA; the RI/FS work plan was approved as final by EPA on June 1, 2000. Based on the findings presented in the Final Phase I and Phase II RI Reports, a Feasibility Study (FS) was prepared by Macalloy to develop, evaluate, and compare remedial action alternatives that could be used to mitigate hazards and threats to human health and the environment from contaminated soil, groundwater, sediment, and storm water onsite. The Final Feasibility Study Report was approved by EPA on April 2, 2002. Macalloy currently retains ownership of the site. At various times from 1942 to the present, the Department of Defense (DoD) has owned, operated, or otherwise used portions of the site to produce and store ferrochromium alloy, chrome ore, and slag (waste). Site activities have impacted site soil, groundwater, and surface water, and sediment in the 001 tidal creek. EPA, the lead agency for site activities, in consultation with the (SCDHEC), the support agency, is issuing this Record of Decision (ROD) to document the final selected remedy for the Macalloy Site. EPA plans to negotiate with Macalloy, British Oxygen Corporation (predecessor to Macalloy) and other potentially responsible parties where identified to secure the resources needed to fully implement the remedy selected in this Record of Decision (ROD) signed August 21, 2002. A ROD addressing OU1 was completed in August 2002.

1000149179

improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

CHARLESTON, SC

Site Description: A former phosphate fertilizer facility located on the Ashley River in

Charlston, SC. EE/CA was completed in 2004. ExxonMobil (PRP) and Ashley II (local developer) are working together to complete the design for the NTCRA.

On-site construction is scheduled to begin in summer 2007.

Environmental Interest/Information System

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Classification: Small Quantity Generator

Hazardous Waste Summary:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: F003

Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL

ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL

ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT

MIXTURES.

located just north, named Virginia-Carolina Chemical Company, Stono Works. Dolphin Cove Marina is now located on property formerly occupied by Chicora Works. Primary access to the site is off Austin Avenue. An EE/CA has been completed by ExxonMobil, and an action memorandum was signed in September 2004 for a Non Time-Critical Removal Action (NTCRA) to be conducted by ExxonMobil. The design for the NTCRA is underway, and additional groundwater data is being collected prior to finalizing the design. On-site construction is schedules for fall 2007.

STONO PHOSPHATE WORKS (Continued)

1001216986

EDR ID Number

Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

ATLANTIC PHOSPHATE WORKS (Continued)

1001216998

EDR ID Number

including an inventory of sites, planned and actual site activities, and financial information.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Hazardous Waste Summary:

Waste code: D002

A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS Waste name:

> CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE

DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D008 **LEAD** Waste name:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

CAMDBS (Clean Air Markets Division Business System) is a national information system that supports the implementation of market-based air pollution control programs administered by the Clean Air Markets Division, within the Office of Air and Radiation. These programs include the Acid Rain Program, established by Title IV of the Clean Air Act Amendments of 1990, and regional programs designed reduce the transport of ozone. These emissions trading programs allows regulated facilities (primarily electric utilities) to adopt the most cost-effective strategies to reduce emissions at their units. Units that reduce their emissions below the number of allowances they hold -- each allowance is equivalent to one ton of sulfur dioxide or nitrogen oxides -- may trade allowances with other units in their system, sell them to other utilities on the open market or through EPA

auctions, or bank them to cover emissions in future years. CAMDBS functions include registering responsible officials, establishing allowance accounts, reporting hourly emissions data, and transferring allowances between accounts.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

US Emissions & Generation Resource Database (EGRID) contains data on emissions and resource mix for virtually every power plant and company that generates electricity in the United States.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US EPA RACT/BACT/LAER Clearinghouse (RBLC) database contains case-specific information on the "Best Available" air pollution technologies that have been required to reduce the emission of air pollutants from stationary sources (e.g., power plants, steel mills, chemical plants, etc.). RACT, or Reasonably Available Control Technology, is required on existing sources in areas that are not meeting national ambient air quality standards. BACT, or Best Available Control Technology, is required on major new or modified sources in clean areas. LAER, or Lowest Achievable Emission Rate, is required on major new or modified sources in non-attainment areas.

Environmental Interest/Information System

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Summary Details:

Conditions at Proposal February 7, 1992): A milling, wood-preserving, and pole storage facility operated in the Charleston Heights District of Charleston, Charleston County, South Carolina, between 1925-78. Koppers, Inc. operated the facility between 1945 and 1978. The 102-acre site is in a mixed industrial/residential area. It is bordered on the west by Ashley River, and on the north and south by industrial facilities. Approximately 94,000 people live within 4 miles of the site. Sources of ha ardous substances on the site include a pit where timbers were soaked in creosote wood preservative, the drip pad area where the timbers were stored, and a bermed area that received contaminated sediment from canal dredging on thesite. Southern Dredging Co. leased part of the site in 1978 after wood-preserving operations had stopped. In 1984, the company dredged a canal from the Ashley River, intersecting a waste disposal area. Dredged materials were placed in the bermedarea. EPA tests conducted in 1988 detected numerous polynuclear aromatic hydrocarbons PAHs), which are constituents of creosote, in soil in all three sources. Runoff from all three sources enters the Ashley River. The 1988 tests found PAHs.chromium, copper, and inc metals typically used in wood preservatives) in sediment samples from the canal and the Ashley River. Wetlands are adjacent to the site, and wetlands to the west and southwest are a State wildlife sanctuary. The Ashley River and Charleston Harbor support recreational and commercial fishing, and serve as important breeding and nursery habitats for a variety of marine finfish and shellfish. Status December 1994): Bea er East, Inc., formerly Koppers Co., entered into an Administrative Order by Consent with EPA Region 4 on January 14, 1993 for the performance of an Remedial Investigation and Feasibility Study RI/FS) at the Site. The results of the RI are scheduled to be released to the public in early 1995. Interim Measures will also be proposed to the public at this time to mitigate off-site migration of the site contaminants from the former treatment area to surface waters and subsequently the sensitive Northern marsh areas. The description of the site release) is based on information available at the time the site was scored. The description may change as additional information is gathered on the sources and extent of contamination. See 56 FR 5600, February 11, 1991 or subsequent FR notices.)

Site Description:

The Koppers Co., Inc. site is located north of downtown Charleston on the west side of the peninsula formed by the Ashley and Cooper Rivers. The 102-acre site consists of a number of parcels of property that currently contain a variety of commercial operations. Present land use surrounding the site to the north, south, and east consists of a mixture of industrial, commercial and residential properties. The Ashley River borders the site to the west. The total resident, student and worker population within a 4-mile radius of the site is approximately 150,000. Wood-treating operations at the site began in the early 1900s, in the eastern portion of the site. Koppers acquired the property in 1940 and continued to operate it as a wood-treating facility until 1977 when wood-treating operations ceased. In 1988, BNS Acquisitions, Inc. acquired the outstanding common stock of Koppers Co., Inc., merging with Koppers Company, Inc., and assuming the name Koppers Company Inc., in 1989. The company underwent a name change to Beazer Materials and Services, Inc. and in 1990, that name was changed to Beazer East, Inc. Koppers wood-treating operations consisted primarily of treating raw lumber and utility poles with creosote. Pentachlorophenol and copper chromium arsenate (CCA) were also used as preservatives in the wood-treating process. The site treated approximately 200,000 cubic feet of wood/per month. The majority of the wood-treating activities were conducted in the eastern portion of the site, now identified as the former treatment area. In the former treatment area, Koppers maintained numerous above-ground storage tanks for the storage of wood-preservatives. The tank farm area in the northeastern corner of the former treatment area contained six above-ground storage tanks ranging in size from 50,000 to 650,000 gallons. The Former Treatment Area was used by several companies following Koppers Company operations. Pepper Industries stored ship bilge and tank wastes while Fed-Serv Industries used the same area to store waste oil in the early 1980s. Braswell Shipyards notified the State in 1982 that tanks on Pepper Industries property were leaking. Pepper Industries had previously abandoned the property, but signed an Administrative Order on Consent (AOC) with the U.S. Environmental Protection Agency (EPA) and Koppers (who paid for half of the cleanup effort) to begin cleanup. In January 1987, Pepper went bankrupt and ceased all cleanup operations. The State found numerous releases of waste oil released from storage tanks in the Tank Farm Area leased by Fed Serv Industries. In 1984, permission was obtained from the U.S. Army Corp of Engineers to dredge a barge canal 1000 feet inward from the Ashley River. Slurry material from the dredging operation was deposited into a bermed spoils area. The dredging operation uncovered buried creosoted wood poles which then contaminated Ashley River and led to fish kills. In 1985, an AOC was issued by EPA for Fed Serv, Koppers and other entities in order to initiate emergency response activities at the former Tank Farm Area. The site was proposed to the National Priorities List (NPL) in February 1992 and became Final on the NPL in December 1994. In January 1993, a Site-wide Remedial Investigation/Feasibility Study (RI/FS) was initiated under an AOC with EPA. An Interim Action Record of Decision (ROD) was issued by EPA on March 29, 1995. An Interim Action ROD addressing operable unit 1 (OU1) was completed in March 1995. The Interim Action ROD was a source control effort that involved several components designed to eliminate off-site migration of non-aqueous phase liquid (NAPL) via surface water conveyances and shallow groundwater in close proximity to the Former Treatment Area. Physical reconstruction and rehabilitation of the Milford Street and Hagood Avenue drainage systems was completed in 1997. Six shallow NAPL extraction wells

EDR ID Number

installed along Milford Street and two intermediate NAPL extraction wells installed near the former pressure vessels continue to operate to meet the objectives of the Interim Action ROD. A ROD was signed in April 1998. A Final ROD addressing OU1 was completed in April 1998. The Final Site-wide remedy was issued by EPA in the ROD dated April 29, 1998. The ROD specified a multi-media response action to address surface/subsurface soil, sediments of drainage ditches, groundwater and NAPL, surface water, contaminant transport pathways, and sediments of the Ashley River, Barge Canal, and North/South/Northwest Tidal Marshes. An Explanation of Significant Differences (ESD) addressing OU1 was completed in August 2001. A second ESD addressing OU1 was completed in April 2003. This ESD modified the remedies for Ashley River and Barge Canal sediments, and the NAPL at Northwest Corner.

Environmental Interest/Information System

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina

and Maine joined their system in 2004.

Event: Igration of Contaminated Groundwater under Control, Yes, Migration of

Contaminated Groundwater Under Control has been verified. Based on a review of information contained in the EI determination, it has been determined that migration of contaminated groundwater is under control at the facility. Specifically, this determination indicates that the migration of contaminated groundwater is under control, and that monitoring will be conducted to confirm that contaminated groundwater remains within the existing area of contaminated groundwater. This determination will be re-evaluated when the Agency becomes aware of

significant changes at the facility.

and settlements.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

Environmental Interest/Information System

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS

CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Environmental Interest/Information System

Not reported

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US Facility Response Plan (FRP) contains plans for responding, to the maximum extent practical, to worst case discharges of oil.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

PCS (Permit Compliance System) is a computerized management

EDR ID Number

information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

Site Description: Former phosphate/fertilizer plant located on the Cooper River near the

confluence with Shipyard Creek. Facility began operations in late 1860's and property is currently occupied by Shipyard River (Massey) Coal Terminal and BP/Gulf Oil Terminal. Site investigation will be coordinated with EPA/SCDHEC

phosphate/fertilizer geographic initiative Charleston neck area.

Environmental Interest/Information System

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

Hazardous Waste Summary:

Waste code:

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code:

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS

> CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE

DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D003

A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS Waste name:

> NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE

OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

Registry ID: 110000353322

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

EDR ID Number

corrective action activities required under RCRA.

US Facility Response Plan (FRP) contains plans for responding, to the maximum extent practical, to worst case discharges of oil.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

PCS (Permit Compliance System) is a computerized management information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

Classification: Large Quantity Generator

Hazardous Waste Summary:

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS

CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE

DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

ALLSITES: Site Assessment & Remediation Public Record Database

The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data Source: Rextag Strategies Corp. Telephone: (281) 769-2247

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services,

a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary

and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Day Care List Source: Department of Social Services

Telephone: 803-898-7345

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

USGS TOPOGRAPHIC MAP

Target Property Map: 32079-G8 CHARLESTON, SC

Most Recent Revision: 1994

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

	LOCATION	GENERAL DIRECTION

MAP ID	FROM TP	GROUNDWATER FLOW
8	1/2 - 1 Mile WNW	Not Reported
10	1/2 - 1 Mile SSE	Not Reported
11	1/2 - 1 Mile SSE	Not Reported

For additional site information, refer to Physical Setting Source Map Findings.

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Urban land

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

	Soil Layer Information							
Boundary				Classif	Saturated hydraulic			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		Soil Reaction (pH)	
1	0 inches	7 inches	variable	Not reported	Not reported	Max: 141 Min: 42	Max: 6 Min: 3.6	

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database

Source: Department of Natural Resources

Telephone: 803-734-6440

Water wells in the Coastal Plain counties of South Carolina

Water Well Database

Source: Department of Natural Resources

Telephone: 864-654-1671

A listing of water wells in the Piedmont (upstate) counties.

OTHER STATE DATABASE INFORMATION

RADON

State Database: SC Radon

Source: Department of Health & Environmental Control

Telephone: 864-241-1090 Radon Test Results by Zip Code

Area Radon Information Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency

(USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor

radon levels.

EDR Historical Topographic Map Report

EDR Historical Topographic Map Report

Environmental Data Resources, Inc.s (EDR) Historical Topographic Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topographic Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the early 1900s.

Thank you for your business.
Please contact EDR at 1-800-352-0050 with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. APPENDIX VII

QUALIFICATIONS OF EP AND OTHERS

Project Role:

Senior Environmental Engineer

Company:

S&ME, Inc.-Charleston, SC

Education:

B.S., Civil Engineering, Clemson University, 1990

Years of Experience:

Joined S&ME in 1992 with two years of previous experience

Professional Registrations:

PE, South Carolina LEED Acceedited Professional

Professional Memberships:

American Society of Civil Engineers (currently SC Governor to National Region 4, Past SC President, Past Eastern Branch President)

National Brownfield Association (SC Executive Committee)

Charleston Civil Engineers Club (Past President)

CHARLES (CHUCK) W. BLACK, JR., PE, LEED AP SENIOR ENVIRONMENTAL ENGINEER

Mr. Black is the Senior Environmental Engineer for S&ME's Charleston Office. He is skilled in the following disciplines: Directing site assessment planning and implementation programs on land, water and wetland environments (including soil borings, temporary and permanent groundwater monitoring wells, soil gas, and surface water and sediment samples).

Transactional due diligence processes including Phase I Environmental Site Assessments (per ASTM 1527-05), Brownfield / State Voluntary Cleanup Contract negotiation, design, and implementation, and Phase II Assessments.

KEY PROJECTS AND ASSIGNMENTS

- Senior Environmental Engineer for S&ME's project supporting the planning and design of the SC State Ports Authority's proposed Charleston Naval Complex Container Terminal. Project has involved completing numerous Phase I ESAs for the transferred parcels, review of existing environmental chemical data, planning for SCSPA's response to environmental conditions encountered during construction, negotiations with the SCDHEC under the Port's VCC and the US Navy's RCRA Permit.assisting port design engineers with environmental-related construction methodology.
- Senior Environmental Engineer for a variety of transactional support projects at the Charleston Naval Complex including the City of North Charleston, Noisette Development, and Clemson University.
- Senior Environmental Engineer for S&ME's project for the redevelopment of two closed municipal solid waste landfills on the Cooper River in Charleston, SC. Project included design and collection of samples of various media, development of waste management, landfill gas management, and foundation plans.
- Senior Environmental Engineer for S&ME's project for two former industrial Voluntary Cleanup Program (VCP) sites managed under the South Carolina Department of Health and Environmental Control's Brownsfield Program. Project involved assessment plan design, collection and analysis of soil, sediment, surface water, and groundwater samples under strict US EPA protocol, drafting assessment reports, assisting in approval of final land use design including use restrictions to obtain Certificate of Completion and liability coverage under the VCP contract.

Entering a stormwater manhole for the City of Charleston's Stormwater Study

- Senior Environmental Engineer for S&ME's project for Charleston County School District drinking water compliance programs at seven rural district properties. Project included lead and copper monitoring, design of corrosion control programs, regulatory compliance and permitting, personnel training, and system guidance for schools with onsite drinking water supply wells and systems.
- Senior Environmental Engineer for S&ME's project for assisting
 Medical University of South Carolina (MUSC) develop remedial and
 safety measures to construct new hospital infrastructure on filled land in
 downtown Charleston. Project involved design meeting with civil,
 electrical, mechanical, structural and engineers and architects,
 development of safety and remedial protocol measures to protect workers
 during construction and patients and staff during building operation
 including methane gas management and alarm systems, and inspection
 during construction.
- Senior Environmental Engineer for S&ME's project for the City of Charleston's Stormwater Drainage Basin Cross-Connection Study.
 Project involved the mapping and determination of stormwater flow patterns in two urban watershed areas. Manholes, pipe segments, and various stormwater structures were visually inspected and smoke tested to determine potential cross connections. The goal of the project was to identify system deficiencies in need of repair in order to reduce the amount of fecal coliform in the stormwater discharge.

OSHA Hazardous Waste Operations (40-hour, Supervisor, and annual 8-hour updates)

Stormwater Management for Industrial Properties and Construction Projects

OSHA Confined Space Entry for Entrants, Attendants, and Supervisors

Hazardous Material Spill Response and HAZMAT International Code Standards

Conducting Phase I Environmental Site Assessments, ASTM E1527-05, Environmental Data Resources, Atlanta, GA

Project Role

Project Engineer

Company

S&ME, Inc.-Mt. Pleasant, SC

Education

BS, Biosystems Engineering (Natural Resources & Environment), 2005 Clemson University

Years of Experience

Joined S&ME in 2005

Professional Registrations

Professional Engineer (PE), 2009, SC, #27758

MARY BETH CLINE, PE PROJECT ENGINEER

Ms. Cline works for S&ME's Mt. Pleasant Office and is a project engineer. She is skilled in the following disciplines: Phase I and II Environmental Site Assessments (ESAs); Underground Storage Tank Removal programs; Brownfields; Landfills; Soil and Groundwater Investigations; and, Drilling.

KEY PROJECTS AND ASSIGNMENTS

Phase I Environmental Site Assessments

NC & SC

Project Manager for numerous Phase I Environmental Site Assessments for potential real estate transactions in North and South Carolina.

Phase II Environmental Site Assessments

NC, SC and WV

Staff Professional for Phase II environmental site assessments. Responsibilities included development of Phase II scope of work, oversight of drilling crews, data evaluation, interfacing with regulatory agencies, and report preparation.

Underground Storage Tank Removal

NC and SC

Project Manager for removal of underground storage tanks. Responsibilities included obtaining necessary permits, coordinating field activities, sampling, and report preparation.

SUPERB Sites

Various Sites in SC

Staff Professional for petroleum UST sites in South Carolina. Work included hydrogeologic assessments that involved installation of shallow and deep monitoring wells, sampling, and determination of aquifer characteristics for SUPERB projects in South Carolina.

Brownfield Site

Cabarrus County, NC

Staff Professional providing over sight of soil and groundwater assessment of former textile mill facility in Cabarrus County, North Carolina. Provided onsite supervision of drilling and sampling crews, assisted with developing assessment and work plans, and preparing assessment reports.

Methane Gas Well Installations

Spartanburg County, SC

Staff Professional providing onsite supervision of methane gas well installation for two landfills in Spartanburg County, South Carolina.

Geothermal Well Installations

Spartanburg County, SC

Staff Professional providing oversight of geothermal well installations and testing in Spartanburg County, South Carolina. Responsibilities included coordinating and supervision of field activities, data evaluation, and report preparation.

Manufactured Gas Plant Site

Spartanburg County, SC

Staff Professional providing onsite supervision of drilling crews, data evaluation, and report preparation of well installations and quarterly sampling events.

Nuclear Station Groundwater Protection Projects

York and Oconee Counties, SC and Mecklenburg County, NC Staff Professional for voluntary groundwater protection initiative at three nuclear power plants. Installation of 119 shallow, rock, and deep rock groundwater monitoring wells, data compilation, budget supervision, reporting (tables, figures, boring logs, well logs, and vertical gradient calculations), and presentation preparation.

Nuclear Station Property Acquisition

Cherokee County, SC

Project manager for sixteen Phase I Environmental Site Assessments for a real estate transaction.

Class Two Landfills

Cherokee County, SC

Staff Professional providing regulatory compliance assistance during re-classification of C&D landfills to new Class Two landfill requirements. Services included the preparation of assessment plans, hydrogeologic characterization of landfill area, installation of groundwater monitoring wells, collection and analysis of groundwater samples, and preparation of assessment and groundwater quality reports.

Semiannual Reporting for MSW Landfills

Cherokee and Spartanburg Counties, SC Staff Professional providing report preparation of annual and semiannual reports. Responsibilities included performing statistical analysis and creating potentiometric maps of shallow and deep aquifers.
