Re : Completeness Determination of Part 70 Air Quality Permit Application  
Rhodia Inc. (Permit No. 0560-0011)

Dear Ms. Shepard:

The South Carolina Department of Health and Environmental Control, Bureau of Air Quality (Bureau), on December 21, 2012, received the Part 70 Air Quality (Title V Operating) permit application submitted by Rhodia Inc. for the above-referenced facility. The completeness review period for the application officially began on this date. Upon review, the application has been deemed complete and the application shield granted, effective January 15, 2013.

The permit application will now undergo a technical review by the assigned permit engineer. Please remember that any requests from the Bureau for additional technical information must meet specified deadlines. Failure to do so could result in the removal of the application shield.

Should you have any questions concerning the application shield or technical review, please contact the appropriate staff member, Jamel Boatright, of this office, at (803) 898-4359, or by E-mail at [boatrij@dhec.sc.gov](mailto:boatrij@dhec.sc.gov).

Sincerely,

Elizabeth J. Basil, Director  
Engineering Services Division  
Bureau of Air Quality
