

APPENDIX A

JOINT FEDERAL AND STATE PERMIT APPLICATION PACKAGE

Joint Federal and State Application Form For Activities Affecting Waters of the United States Or Critical Areas of the State of South Carolina		This Space for Official Use Only	
Authorities: 33 USC 401, 33 USC 403, 33 USC 407, 33 USC 408, 33 USC 1341, 33 USC 1344, 33 USC 1413 and Section 48-39-10 et. Seq of the South Carolina Code of Laws. These laws require permits for activities in, or affecting, navigable waters of the United States, the discharge of dredged or fill material into waters of the United States, and the transportation of dredged material for the purpose of dumping it into ocean waters. The Corps of Engineers and the State of South Carolina have established a joint application process for activities requiring both Federal and State review or approval. Under this joint process, you may use this form, together with the required drawings and supporting information, to apply for both the Federal and/or State permit(s).		Application No. _____ Date Received _____ Project Manager _____ Watershed # _____	
Drawings and Supplemental Information Requirements: In addition to the information on this form, you must submit a set of drawings and, in some cases, additional information. A completed application form together with all required drawings and supplemental information is required before an application can be considered complete. See the attached instruction sheets for details regarding these requirements. You may attach additional sheets if necessary to provide complete information.

U.S. Army Corps of Engineers
69 A Hagood Avenue
Charleston, SC 29403-5107

To Whom It May Concern:

This is to certify that the work subject to the jurisdiction of the U.S. Army Corps of Engineers as described in the attached application is, to the best of my knowledge, consistent with the South Carolina Coastal Zone Management Program.

The wetland delineations used in preparing this application have been done in accordance with Corps of Engineers methods and techniques and are an accurate representation of the location of all jurisdiction wetlands within the project.

Since my project is located in the Coastal Zone of South Carolina, I understand that the U.S. Army Corps of Engineers must provide this statement to the SC Department of Health and Environmental Control (SCDHEC) – Office of Ocean and Coastal Resource Management (OCRM) for its review and that a Department of the Army permit will not be issued until the SCDHEC-OCRM concurs with my findings. I also understand that additional information concerning this project may be required by the SCDHEC-OCRM to facilitate its review of the project and additional certifications may be required for other Federal or State authorizations.
