HYDRAULIC DESIGN BULLETIN NO. 2019-2

SUBJECT: Updated Rainfall Intensity Values

EFFECTIVE DATE: Immediately for projects that have not completed the Design Field Review (DFR)

SUPERSEDES: Current Rainfall Intensity Values

RE: None

The Department has updated rainfall intensities to include values for every county in the state and also provides additional durations.

A link to the Rainfall Intensity Values can be found on the Department's website at <http://www.scdot.org/> by typing "rainfall intensity values" in the top right search bar.

The Drainage Library (DLB) used in Geopak Drainage has been revised to reflect the updated rainfall data. The DLB file can be found at the Department's website by searching "drainage library."

The Geopak Drainage Manual has been updated to reflect the changes concerning the revised DLB file. The updated manual can be found at the Department's website by searching "geopak specification support manual."

George R. Bedenbaugh, Jr., P.E.
Preconstruction Support Engineer
