Introduction

AASHTOWare Project™ (AWP) is a web-based program consisting of several modules designed to electronically allow the SCDOT to manage the entire lifecycle of construction contracts using a standardized format while providing a collaborative environment.

AASHTOWare Project Construction and Materials™ (PrCM) is a module designed to support the complete construction and materials management process.

Log In and Password Reset

Use the following link to access AWP:

<https://scdot-pr-prod.infotechinc.com/>

After clicking the link, the website may automatically log in..

If you are not automatically logged in, select either your SCDOT account or if you are an external consultant/contractor, “Use another account” and log in using your microsoft username and password issued to you by your company.

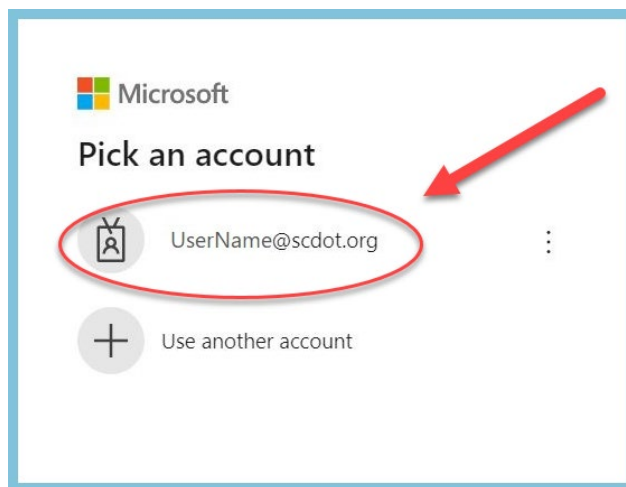

Figure 1 – Internal Log in

Password Reset

SCDOT Employees will not be able to change their SCDOT network password using PrCM.

SCDOT Employees must change their network password following standard SCDOT password management procedures. For assistance, please call the SCDOT Helpdesk at (803)737-1670.

Consultants and Contractors will need to contact their internal IT department for issues with credentials.
