

The following is a synopsis of the design review process that had previously been undertaken between SCDOT and the City of Columbia for the 30-inch Force Main Relocation at I-20.

#### 30% Design

Plans Submitted to the City of Columbia: 6/28/2024

Comments returned from the City of Columbia and approval given to proceed to 60% plans: 7/10/2024

#### 60% Design

Plans Submitted to the City of Columbia (including addressing all 30% comments): 8/19/2024

Comments returned from the City of Columbia: 9/6/2024

Comment responses provided to the City of Columbia: 9/16/2024

City of Columbia provided response replies and approval to proceed to 90%

Plans: 9/25/2024

Advancement of Design after City of Columbia approval to proceed to 90% Plans Updates were made to the 30" Force Main plans, specifications, and calculations to address the City of Columbia's comments from the 60% submittal and progress the plans to 90%.

Prior to submittal of the 90% plans to the City of Columbia, the design was halted and the 30" Force Main Relocation work was included in the Carolina Crossroads Phase 3C Addendum #1.

#### Revision Note

\*In revision 2 of PIP 140-11 "30in Force Main Files.zip", the folder previously named "90Prct Submittal\_To CofC" has been renamed "Revised 60% Files".

Comments from the City of Columbia's 30% and 60% review, along with the designer's comment responses have also been provided.\*
