

We use different contractors with different equipment.

Manufacturer : Vermeer

Model #: 2330

Thrust / Pullback : 23,000 lbs / 30,000 lbs

Max torque : 3000 lbs

Drilling speed : 10' per foot

Drill Length : 16'

Drill rod length: 10'

Power source : Diesel

Water usage is based on 500 gallons per 400' of bore , each company uses a Vermeer VAC Tron V1200gl or similar equipment to remove the excessive water and mud, crews use just water with no additives.

Thanks

Keith McCameron
