

AT&T Plan for Drilling,  
Monitoring and Fracture Mitigation

Boring Plan

Proposed Work Hours:

Local, State, and SCDOT officials will set times of work. (See Permit Special Provisions)

Emergency Plan:

1. In the event of a Roadway Failure the site supervisor is to immediately contact AT&T representative Michael McLean @ 803-447-7807. Michael will direct Ansco & Associates to implement the necessary traffic control measures. All the necessary traffic control devices (cones, signage, flaggers, etc) are located properly. All of ANSCO's employees are familiar with traffic control guidelines.  
Site supervisor is then to implement measures including signs, flaggers, and cones necessary to insure the safety of pedestrians, vehicular traffic, and any private property in the immediate area.  
Site supervisor is to maintain measures until arrival of Michael McLean or AT&T contractor ANSCO and Associates or different directive from SCDOT Inspector; appropriate law enforcement agency Lexington County Sheriff; or SC Highway Patrol.
2. Notify Local or state law enforcement of Roadway Failure, Lexington County Sheriff @ 803-785-8230 or South Carolina Highway Patrol at \*47 (\*HP) or 803-737-8340. Site supervisor to be able to provide exact location of Roadway Failure and a valid contact number for the site supervisor.
3. In case of drilling fluids seepage, containment items will be stored near the drilling sites. The HDD contractor will also have heavy equipment such as backhoes that can be mobilized and used to control and clean up drilling fluid seepage.  
The following list identifies materials and equipment to be maintained at or near each HDD site in sufficient quantities to ensure containment of any inadvertent releases of drilling fluid.
  - Straw, hay bales or wattles
  - Stakes to secure wattles
  - Silt fence
  - Shovels, backhoe
  - Vacuum truck
  - Lighting booms with APU's

All drilling fluids will be dispensed of by contractor in accordance to EPA standards.

4. Roadway damage repair; call Michael McLean @ 803-447-7807 who will engaged ANSCO LLC for permanent road repairs.
5. Notify Lexington County SCDOT office of a Roadway Failure event and that the proceeding outlined Emergency Plan has been implemented. Lexington County SCDOT office telephone number is 803-359-4103.
