

South Carolina Department of Transportation
Engineering Directive

Directive Number: ED-5 **Effective:** May 17, 2011
Subject: Delineators on Interstates and Freeways
References: None
Purpose: Define Policy for Installing Delineators
This Directive Applies to: Traffic Engineering, Maintenance, and Construction

On interstates and freeways, delineators shall be used as follows:

- a. Delineators should be installed on all interchange ramps and along all acceleration and deceleration lanes in accordance with Chapter F of the 2009 Manual on Uniform Traffic Control Devices (MUTCD).
- b. Where the following conditions are met, delineators are not required on mainline sections of interstates and freeways:
 1. where permanent roadway lighting is present, or
 2. where raised pavement markers are used continuously to supplement lane lines.
