5. Pledge of Allegiance— Commissioner Hemingway

6. Approval of Minutes and Actions (Action Required)

6.1 December 4, 2025 Commission Meeting Minutes

Motion by: Commissioner Blackwell

Second by: Commissioner Dukes

The Commission approved the December 4, 2025 Commission Meeting minutes.

6.2 Report Out of December 4, 2025 Audit Committee

Committee Chairman Spencer reported that the Audit Committee received updates on Environmental Services, IAS Balanced Scorecards, Global Audit Standards Discussion, Internal Audit Authorizing Charter Discussions, Engagement Updates and a Follow-up on Management Action Plans. Additionally, there was an Executive Session to receive management information on Security Plans.

6.3 December 4, 2025 Audit Committee Minutes

Motion by: Commissioner Dukes

Second by: Commissioner Metcalf

The Commission approved the December 4, 2025 Audit Committee minutes.

7. Public Comment

Secretary Powell stated there was one person that signed up for public comment. Mr. Kyle Taylor, PE spoke and provided a handout regarding Charleston traffic and interstate capacity needs. Specifically, he noted the Charleston significance for freight and federal/state commerce, I-526 East Corridor (from Long Point Road to I-26), I-526/I-26 Interchange (I-526 westbound), and I-26 from the I-526 to Nexton Parkway).

8. Election of Officers

8.1 Election of Chairman

Motion by: Commissioner Christopher

Commissioner Christopher nominated Commissioner Max Metcalf to serve as Chairman of the Commission. Chairman Johnson commented that a second motion was not necessary. Commissioner Metcalf was elected by acclamation as Chairman of the Commission.

8.2 Election of Vice Chairman

Motion by: Commissioner Christopher

Commissioner Christopher nominated Commissioner Bill Dukes to serve as Vice Chairman of the Commission. Chairman Commissioner stated that a second was not necessary. Commissioner Dukes was elected by acclamation as Vice Chairman of the Commission.

9. Secretary of Transportation Report

Secretary Powell began the Secretary of Transportation Report reporting that there were 914 fatalities in 2025, which is the lowest number in 10 years. According to the Department of Public Safety Statistics, this is a 12% decrease from this time last year. Of the vulnerable road users, there were 161 pedestrian fatalities, 22 bicycle fatalities

(down from 12 this time last year), and 14 moped fatalities (down from 6 this time last year).

SCDOT continues to increase its work program. The current active construction program is \$6.8 billion under contract.

Secretary Powell reviewed the On-Time and On-Budget numbers for the Construction Program: 85% of the projects are on-time and 15% had penalties assessed for not being on-time. The agency was tracking 2.24% above the original bid. The largest categories of our statewide construction program are “interstate capacity” and “pavements.”

There were a series of change orders totaling approximately \$11.2 million greater than \$250,000 in active contracts for November 1 through December 31, 2025. There were 5 projects with change orders that were discussed: 1 project was Design-Build, 1 project was related to utility conditions, and 3 projects were related to field conditions/other.

Secretary Powell reported that there were no emergency procurements to report over the last two months.

Secretary Powell reviewed the 10-Year Plan Accomplishments at “Year Eight” and reported that:

- RURAL ROAD SAFETY: 1212 miles have been addressed in the Rural Road Safety Program (RRSP) with a target of 1300 miles.
- PAVING: More than 10,272 miles of paving have been addressed in every county of the State.
- BRIDGES: 464 bridges have advanced to construction with a target of 550 bridges.
- INTERSTATE: 128 interstate miles have advanced to construction.

Secretary Powell noted that the Rural Road Safety Office added 13 more projects to the “before and after analysis” for the RRSP, bringing the total to 30 locations being analyzed. The newest numbers are a 30% reduction (from 20%) in Fatal and Serious Injury Crashes and a 54% reduction in Roadway Departure Crashes.

Secretary Powell referred to the Interstate Modernization map that showed 92 miles completed, 36 miles in construction, 118 miles in design, and 213 miles in the planning stage. He noted that these values were reconciled last month and the mileage was amended.

He reviewed the New Gas Tax Trust Fund as of November 30, 2025. He stated that over \$5.5 billion of revenue has been generated since July 1, 2017, with approximately \$5.2 billion put towards construction projects. Since the start of the 2017 Roads Bill, SCDOT continues to program projects with the goal of getting the infrastructure to a state of “Good” repair.

There were 12 surplus properties conveyed since the December 2025 Commission meeting, totaling \$3,750.00 in property sales.

He also revealed several accomplishments since the December Commission meeting to include the SCDOT Adopt-A-Family and the I-26 Widening Environmental Update Milestone.

With the SC Legislature beginning this week on Tuesday, January 13, 2026, he noted that this is the second regular session of the 126th General Assembly, transportation is on the agenda, it is an election year, and there are approximately 150 “transportation-related” bills being tracked by staff.

Lastly, the Modernization Committee met twice this week and proposed legislation this morning.

Secretary Powell answered questions regarding Modernization draft legislation, projects that are “running behind,” the DBE Program Office, the I-26/I-95 upgrade, the number of and inspection of bridges in the state, placing SHEP at the I-95 border for motor assistance, and the Longpoint Road Project (mentioned during the Public Comment period).

A RESOLUTION

COMMENDING THE EMPLOYEES OF THE SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION FOR THEIR OUTSTANDING RESPONSE TO THE WINTER STORMS OF 2026

WHEREAS, the employees of the South Carolina Department of Transportation (SCDOT) have long been known as the “masters of disaster” and are on the front lines of storm response and recovery in South Carolina; and

WHEREAS, on January 16, 2026, parts of South Carolina began to experience sleet, freezing rain and ice because of Winter Storm Fern; and

WHEREAS, on January 31 and February 1, 2026, every single county in South Carolina saw some amount of snow accumulation from Winter Storm Gianna, with some counties reaching nearly 12 inches of snow; and

WHEREAS, SCDOT crews worked around the clock, before, during and after ALL storms pre-treating roadways, clearing and de-icing roads, and removing downed trees to safely maintain travel and mobility across the state; and

WHEREAS, SCDOT crews put down more than 6 million gallons of salt brine as a part of their preparations and response to these winter events; and

WHEREAS, SCDOT employees worked tirelessly in difficult weather conditions to keep roads open, emergency first responders moving, and the people of South Carolina safe; and

WHEREAS, These dedicated crews worked for several weeks on end, sacrificing time with their families and putting the people of South Carolina first;

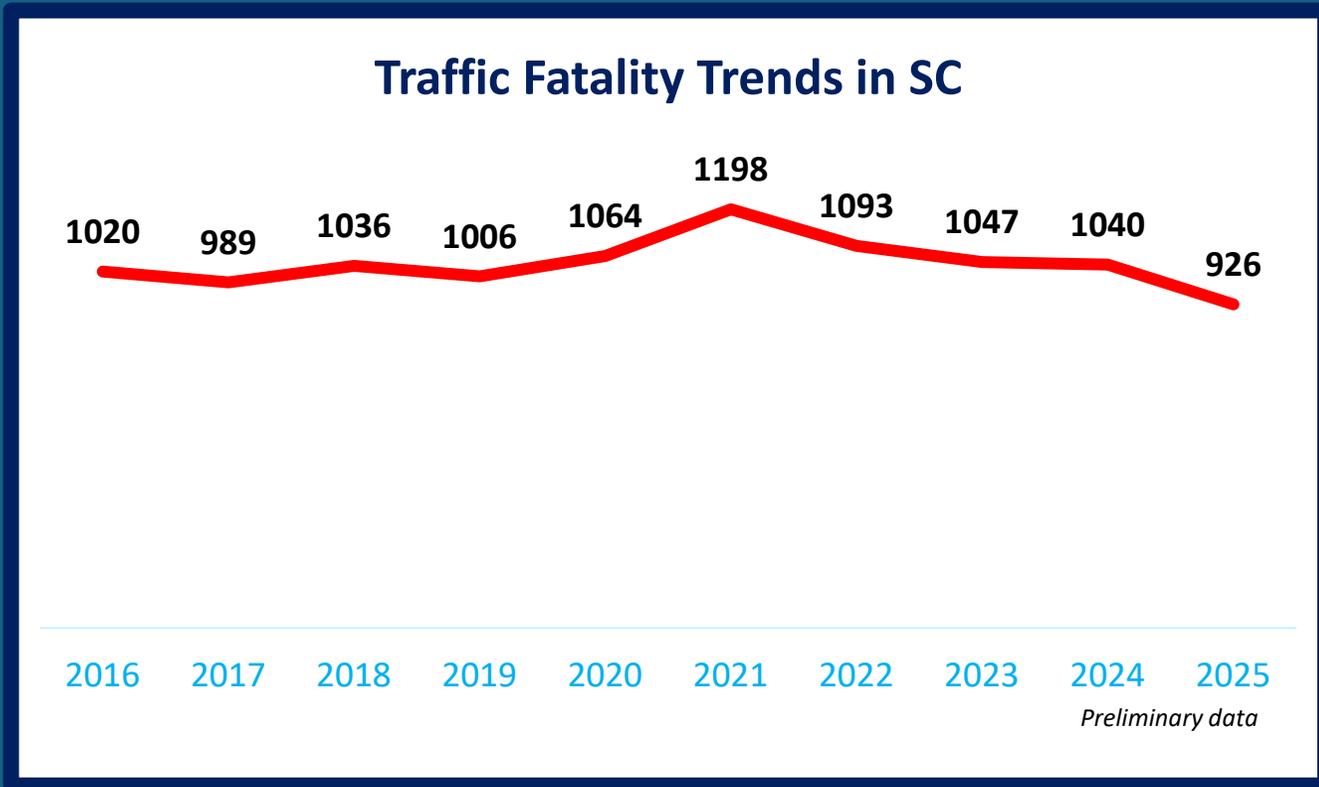

NOW, THEREFORE, BE IT RESOLVED that the South Carolina Department of Transportation Commission, assembled on this 26th day of March 2026, commends and expresses gratitude to the employees of SCDOT for their continued dedicated service, tireless work, and valuable contributions to achieving the mission of the Department and for always answering the call to serve the people of South Carolina.

Accomplishments

Crowe Creek Bridge Open

The SC-133 bridge damaged by a concrete truck in July was officially reopened to traffic March 12th. This was an expedited six-month construction project to get this bridge restored to traffic quickly. As the first ribbon cutting event was cancelled due to a delay in paving and marking, we have elected to move forward with getting the bridge open first and do a press release instead of an event.

Old Vacluse Road Progress

Old Vacluse Road has the bridge spanning over I-20 that was incinerated by a tanker truck last Father's Day weekend. In early March, the beams for Old Vacluse Road bridge over I-20 were set. We are well on-track to have this reopened ahead of the one-year anniversary of the crash.

Road S-491 (Ashley Avenue) – Greenville County

Upon request from the City of Greenville, approval was obtained from the South Carolina Department of Transportation Commission for the formal removal of Road S-491 (Ashley Avenue) from the State Highway System and for conveying the right of way of same on January 15, 2026. Therefore, a gratis quitclaim deed conveying approximately 0.700 miles of road right of way to the City of Greenville was executed on February 3, 2026.

The Department acquired right of way for Road S-491 pursuant to Legislative Act 329 of 1951 and action of the Commission dated July 19, 1962.

Road S-245 (Kitson Street) - Greenwood County

Upon request from the City of Greenwood, approval was obtained from the South Carolina Department of Transportation Commission for both the formal removal of a portion of Road S-245

(Kitson Street) from the State Highway System and for conveying the right of way of same on May 22, 2025. Therefore, a gratis quitclaim deed conveying approximately 0.302 of a mile of road right of way to the City of Greenwood was executed on January 16, 2026.

The Department acquired right of way for Road S-245 (Kitson Street) pursuant to Legislative Act 329 of 1951, and by action of the Commission dated June 16, 1960, and under File Number 24.531 by Right of Way Easement from Stag Greenwood 2, LLC, dated December 2, 2016.

Road S-143 (Creed Road) – Kershaw County

Upon request from Antioch Baptist Church, approval was obtained from the South Carolina Department of Transportation Commission for the formal removal of Road S-143 (Creed Road) from the State Highway System and for conveying the right of way of same on December 4, 2025. Therefore, a gratis quitclaim deed conveying approximately 0.150 of a mile of road right of way to Antioch Baptist Church was executed on January 26, 2026.

The Department acquired right of way for Road S-143 (Creed Road) pursuant to Legislative Act 145 of 1941 and action of the Commission dated June 21, 1951, and under File Number 28.455 by Right of Way Easement from Bezelia S. Player dated April 29, 1969 (Tr. 1), and by Right of Way Easement from Antioch Baptist Church dated May 5, 1969 (Tr. 2).

File 28.409 – SC Route 12 – Kershaw County

Upon request from an adjacent landowner, right of way acquired along old SC Route 12 was determined to be surplus to the Department. The Secretary of Transportation's approval to convey the property was obtained on June 22, 2025.

A request was also received for the relocation of a control of access along SC Route 12. The engineering sections concur with the relocation of the control of access.

Therefore, a Quitclaim Deed and Grant of Access conveying approximately 1.505 acres of land and a relocation of the control of access to QuikTrip Corporation was executed on January 9, 2026, in consideration of \$315,000.00.

The Department acquired right of way for SC Route 12 under File Number 28.238 by Deed to Right of Way from L.I. Guion dated March 3, 1942, and right of way and controlled access for Route I-20 under File Number 28.409 by Condemnation of West Virginia Pulp & Paper Company dated April 13, 1966, Tract 29.

Route I-26 – Project ID P029208 – Lexington County

As part of the design build project for Route I-26, a Memorandum of Understanding was entered into between WD&L Enterprises II, LLC and the Department on November 23, 2021. As part of this MOU, the Department is to quitclaim a portion of old Road S-48 (Columbia Avenue) to WD&L Enterprises II, LLC. Therefore, a gratis quitclaim deed conveying approximately 0.90 acres to WD&L Enterprises II, LLC was executed on January 16, 2026.

The Department acquired right of way along Road S-48 (Columbia Avenue) under File Number 32.340/40.393 by Deeds to Right of Way from the Estate of John H. Amick, dated December 18, 1952, January 29, 1953, and February 3, 1953, Tract 10A, and by Deed to Right of Way from the Estate of Laura B. Amick, dated December 30, 1952, Tract 10.

Roads S-368 (Green Street), S-367 (No Name Street f/k/a Short Street) and S-580 (S. Broad Street) – Oconee County

Upon request from the City of Westminster, approval was obtained from the South Carolina Department of Transportation Commission for the formal removal of portions of Road S-368 (Green Street), Road S-367 (No Name Street f/k/a Short Street) and Road S-580 (S. Broad Street) from the State Highway System and for conveying the right of way of same on December 4, 2025. Therefore, a gratis quitclaim deed conveying the right of way for the roads as described below and comprising a total of approximately 0.37 of a mile of road right of way to the City of Westminster was executed on February 11, 2026.

The Department acquired right of way for Road S-368 (Green Street) by Letters of Dedication from the Town of Westminster dated June 13, 1963, and July 15, 1975, for Road S-367 (No Name Road f/k/a Short Street) by Letter of Dedication from the Town of Westminster dated June 13, 1963, and for Road S-580 (S. Broad Street) by Letter of Dedication from the Town of Westminster dated August 15, 1972.

Olympia Ave/Huger Street Connector - File Number 40.307A (dead plans) – Richland County

Upon request from The University of South Carolina Development Foundation for a parcel along the defunct Olympia Ave/Huger Street Connector path, a parcel of land containing a total of approximately 0.44 of an acre was determined to be surplus by the Department. The Secretary of Transportation's approval to convey the property was obtained on December 18, 2025. Therefore, a gratis quitclaim deed conveying a total of approximately 0.44 of an acre of land to The University of South Carolina Development Foundation is was executed on January 14, 2026.

The Department acquired right of way for Olympia Ave/Huger Street Connector under File Number 40.307A (dead plans) by Title to Real Estate from the City of Columbia dated November 18, 1987, Tract 1, and by Condemnation of Leslie W. Hamlette, Jr. and William F. Duncan dated October 26, 1987 (Tract 2).

DETAILED DESCRIPTION

Request Commission approval to initiate a 21-day public comment period and amend the 2024-2033 Statewide Transportation Improvement Program (STIP) to include preliminary engineering, right of way and construction phase for the Safety Program Vehicular Road Safety Assessment and Vulnerable Roadway User Road Safety Assessment lists.

See attached list for project details.

A summary of substantive comments will be made available to the Commission. Pending no substantive comments and local coordination, these intersections will be included in the subsequent STIP revision.

SCDOT certifies that these projects were selected in consideration of established priorities as required by federal laws or regulations and in accordance with SC Code of Laws Section 57-1-370 (Act 114) and SCDOT's 10-year plan. A summary of substantive comments will be available to the Commission.

New Safety Project lists are ready to be approved

With this presentation, the Secretary is seeking Commission approval on ranked safety project lists:

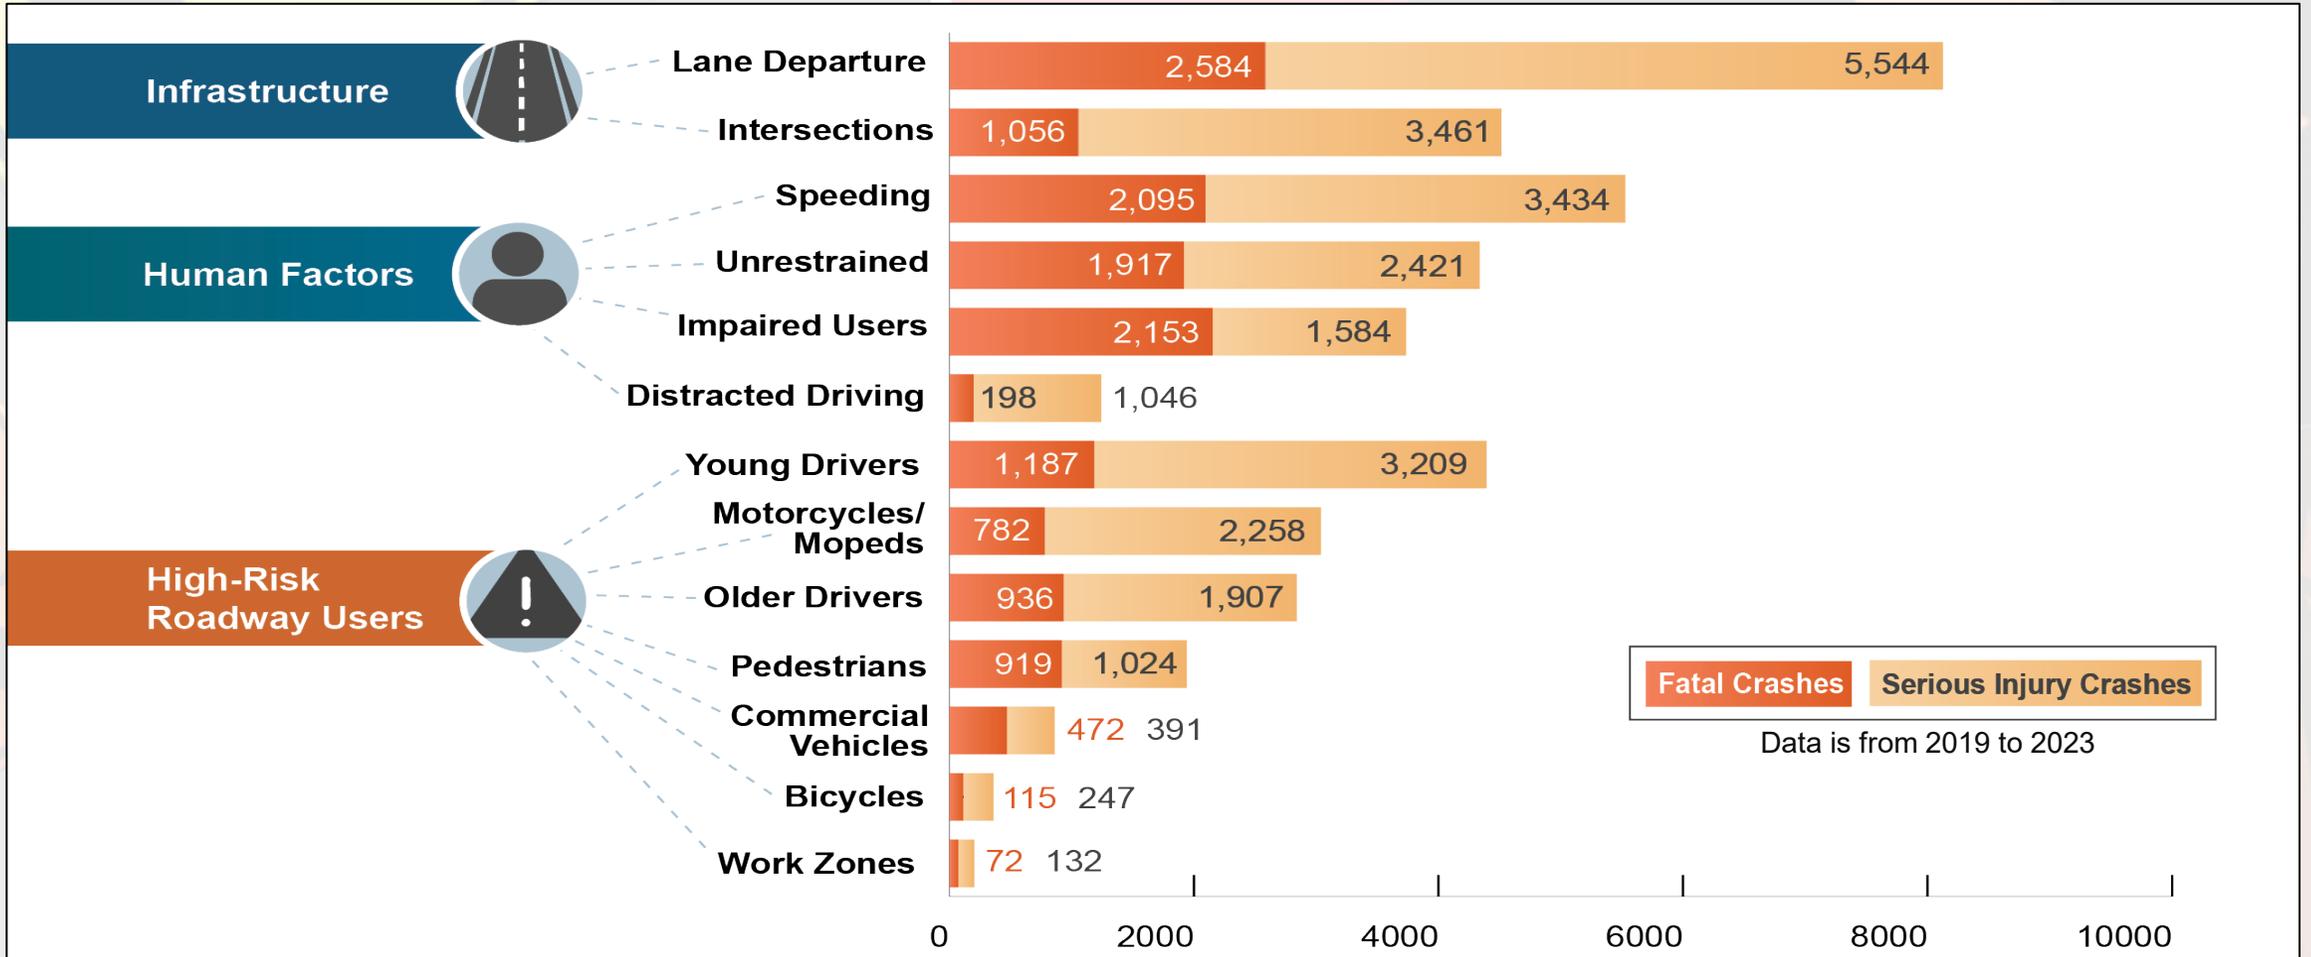

- Vehicular Road Safety Assessments
- Vulnerable Roadway Users (VRU) Road Safety Assessments

2025-2029 SHSP Update

- SHSP Required per 23 U.S.C 148(c) as part of MAP-21 Act, FAST Act, and Infrastructure Investment and Jobs Act (IIJA).
- Updated every 5 years from previous version.
- SHSP Emphasis Areas identified through statewide crash data (Fatal & Serious Injuries) to help SCDOT make informed funding decisions.

2025-2029 SHSP Update

2025-2029 SHSP Update

- Lane departure now includes head on and opposite direction sideswipes in addition to road departures.
- Speeding now only includes crash reports noting driving while exceeding the authorized speed limit.
- Impaired Users now includes non-motorist who are involved in a crash under the influence.
- Commercial Vehicles is returning as an Emphasis area.

Road Safety Assessment Process

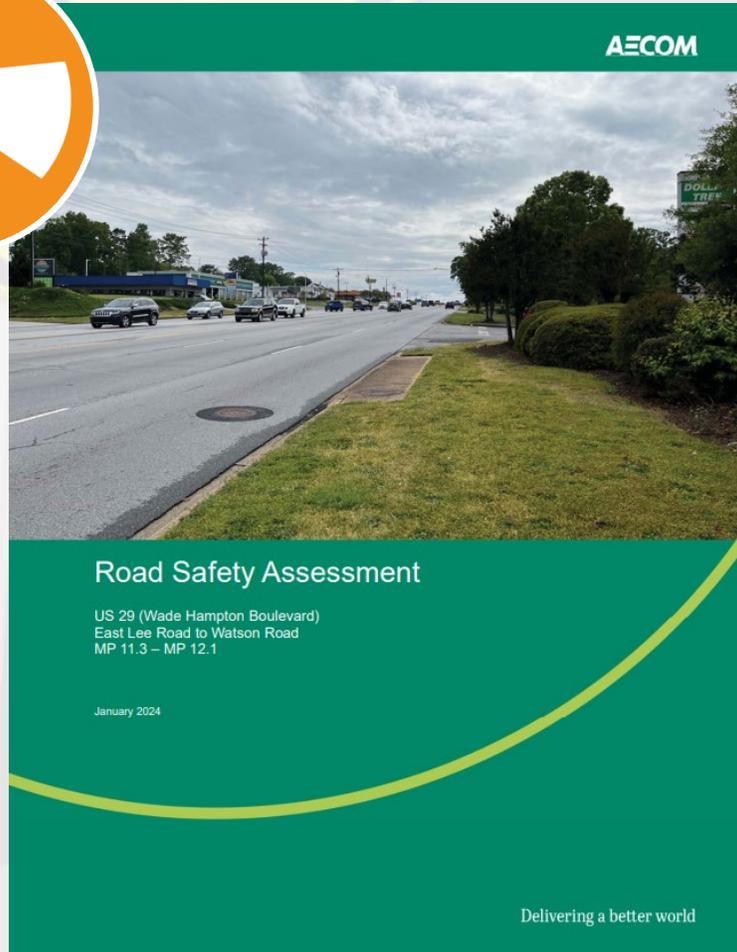

What is an RSA?

- A formal study by team of multidisciplinary, qualified examiners and local stakeholders
- Assess crash data & identify safety concerns
- Written report includes considerations for safety improvements

Vehicular RSA List Ranking Criteria (ED-74)

- 1-mile non-Interstate segments, developed using five years of crash data that resulted in a fatal and/or serious injury.
- Final candidate list was sorted by highest total fatal and/or serious injury crashes and final segment length was expanded as practical based on the crash data and logical termini.

Engineering Directive 74 Revisions

South Carolina Department of Transportation

Engineering Directive

Directive Number: ED-74 **Effective:** October 1, 2025

Subject: Safety - Road Safety Assessment Program Project Prioritization Process

References: Section 57-1-370 of South Carolina Code of Laws, 1976, as amended; S.C. Code of Regulations 63-10, as amended

Primary Department: Traffic Engineering

In 2007, the South Carolina General Assembly enacted Act 114. One of the landmark items in Act 114 was the requirement that the South Carolina Department of Transportation (SCDOT) establish a project prioritization process. In 2016, the General Assembly enacted Act 275. Act 275 eliminated some of Act 114's requirements but it retained the requirement for project prioritization. This requirement is codified in Section 57-1-370 of the South Carolina Code of Laws, 1976, as amended. Additional detail on the process is found in S.C. Code of Regulations 63-10, as amended.

This engineering directive details the process for prioritizing and selecting projects for the **Road Safety Assessment (RSA) Program** using objective and quantifiable criteria. A description of the RSA process is referenced in Enclosure 1 or can be referenced on FHWA's website. (<https://highways.dot.gov/safety/data-analysis-tools/rsa/road-safety-audits-rsa>)

The RSA candidate selection process includes an analysis of up to five years of statewide crash data along all non-interstate highways. The crash data is divided into one-mile segments over the entire non-interstate highway network.

SCDOT currently maintains approximately 41,500 miles of roadways. The purpose of this program is to achieve a significant reduction in traffic fatalities and serious injuries on our roadways through the implementation of infrastructure-related improvements.

Crash data is received from South Carolina Department of Public Safety (SCDPS) on a quarterly basis. SCDPS is the official custodian of the state's master crash data file.

Locations of crashes are recorded by the investigating officer on the collision report and SCDPS records the crash details. The crash data from SCDPS is imported into SCDOT's Safety Management Software (SMS), which provides the total number of fatalities and serious injury crashes along with associated crash factors within the above defined segments.

The candidate list will then be prioritized by the highest number of fatal and / or serious injury involved crashes, also referred to as total F&SI. **If a secondary prioritization is needed, total fatal crashes will be used. In the event an additional prioritization factor is required, total fatal and injury (F&I) crashes will be used.**

This engineering directive details the process for prioritizing and selecting projects for the **Vulnerable Road User Safety Program** using objective and quantifiable criteria. The process includes an analysis of up to five years of statewide crash data along all non-interstate highways. Crash data for all non-interstate highways are then prioritized and analyzed to produce the Vulnerable Road User (VRU) safety candidate list.

Secretary's Certification

I certify that the recommended 2026 – 2027 Emphasis Area Allocations align with the updated 2025 – 2029 SHSP and remain within the total safety funding levels as approved at the October 21, 2021 Commission Meeting.

I certify that the projects recommended for the Road Safety Assessment lists as presented by staff were selected utilizing ranking processes that are based on objective and quantifiable factors and are aligned to the recommended 10-Year Plan/Transportation Assessment Management Plan targets, align with the total funding levels as approved at the October 21, 2021 Commission Meeting, and the recommended 2026 – 2027 Emphasis Area Allocations as presented today, March 26, 2026.

Motion for Commission Consideration

052

Motion #1

The SCDOT Commission in accordance with Act 114 of 2007, which requires the SCDOT to select projects for funding based on objective and quantifiable factors, the Commission approves funding of the Secretary's recommended ranked projects for Road Safety Assessments.

The proposed projects are to be open for 21 days of public comment and amend the 2024-2033 STIP. A summary of substantive comments will be available to the Commission for its consideration.

RE: Contract 0263920 – Extension for Emergency Repairs for US-278/SC-125 Bridge over US-1 (Asset 1846) in Aiken County – P043501

As a result of routine bridge inspections, the Bridge Management Office identified that the US-278/SC-125 Bridge over US-1 (Asset 1846) in Aiken County is in need of extensive repairs, resulting in a very low preliminary load rating. These repairs were determined to be beyond the current capability of our in-house crews. United Infrastructure Group has agreed to complete this work under the reference contract at an estimated cost of \$1,507,971.70. Funding will be provided by the State Bridge Reactionary Program and programmed under project P043501. It is recommended that this work be completed as an extension to contract 0263920. If approved, United Infrastructure Group will have two hundred ninety (290) days from date of Notice to Proceed to complete this work.

RE: Contract ID No. 0869500 – P043308, P043309, P043310 & P043311
Berkeley County Rehabilitation & Reconstruction – Extension Request

The subject contract involves the rehabilitation and reconstruction of various routes in Berkeley County. After receiving complaints from the public about the condition of Black Oak Road (S- 8-42) in Berkeley County, Department employees performed a field investigation to assess the nature of the concerns and determine the appropriate scope of work. It was determined Black Oak Road needs significant maintenance by full depth patching and overlays due to significant failures in the pavement structure and substantial settling over crossline drainage.

No other projects in the area are scheduled in the foreseeable future with a similar scope of work that would allow for timely repairs to this roadway. Due to the deteriorated condition of the road and the close proximity to the current project, we recommend that this maintenance work be added to the denoted contract through a project extension. The additional quantities and bid items needed to complete the proposed additional work, along with associated cost, are attached for reference. Our Contractor, Sanders Brothers Construction, Inc., has agreed to accept this work under the provisions stated in the original contract.

The original contract amount is \$13,990,776.21. The cost of the additional work is \$116,475.00, which results in an increase of 0.83% to the original contract. The cost for the additional scope work will be addressed by utilizing the project's available contingency funding. The contract's existing completion date of August 31, 2026 will remain unchanged.

RE: Contract No. 2275110 – Project No. P045458
SC 9 SB over Naked Creek Bridge Repair

An extension to the subject project is hereby requested in order to perform pile repairs on the SC 9 SB bridge over Naked Creek in District 5. A recent bridge inspection found that the steel h-piles have extensive deterioration causing the bridge to be load posted. This bridge is a direct main route between Cheraw and Bennettsville. This work is necessary to perform permanent repairs to allow removal of the current load posting.

The approximate amount needed for the extension work will be \$184,650.00. The funding source information is below:

Project ID: P045458 – SC 9 SB over Naked Creek Bridge Repair
Major Budget Category: D5 Bridge Maintenance Budget

Cekra, Inc. is the prime contractor on this project and has agreed to complete the additional work at prices per the attached Summary of Estimated Quantities (SEQ).

Based on the information provided, the extension is recommended for approval. Please advise if this request can be authorized.

FROM: C. Jason Johnston, District Four Engineering Administrator 

DATE: March 9, 2026

RE: Extension Request

I would like to request an extension to Contract 5474530 for resurfacing on the following roads in Chesterfield County under the following existing Project Numbers:

P045361:

- S-13-32 (Pageland Whitestore Road) from mile point 0.00 to 1.43
- S-13-82 (Johnson Road) from mile point 2.01 to 3.12

P045313:

- S-13-579 (Paul Hurst Road) from mile point 0.00 to 0.77

P045314:

- S-13-808 (Pecan Orchard Road) from mile point 0.00 to 0.48

The anticipated cost of construction is \$1,977,401.41 and will be paid for by Chesterfield County CTC funds. This extension request is less than 50% of the original contract amount. The contract completion date will be extended by 90 days.

A location map and spreadsheet of estimated costs are attached for your reference. If you have questions, or would like to discuss this matter, please let me know.

DETAILED DESCRIPTION

Request Commission approval to initiate a 21-Day Public Comment Period, amend the 2024-2033 Statewide Transportation Improvement Program (STIP), and add new proximity bridges to the latest approved bridge list for the following projects:

- A. S-5-20 over S. Edisto River Swamp Asset: (6423) (MP:4.856) -Bamberg County
- B. S-5-20 over S. Edisto River Swamp Asset: (7322) (MP:4.763) -Bamberg County
- C. S-5-20 over S. Edisto River Swamp Asset: (7321) (MP:4.662) -Bamberg County
- D. S-38-1148 over Caw Caw Swamp Asset: (3956) (MP:0.762) -Orangeburg County

Bridge replacements S-5-20 over S. Fork Edisto River and S-38-1148 over Caw Caw Swamp were approved by the Commission in July 2024. SCDOT has identified four proximity bridges that will be impacted by these replacements and recommends replacement of those bridges due to the roadway profile grade raises at each site. The grade raise will impact vertical geometry along the route at the bridge and along the portion of the roadway in both direction to tie to existing grades/alignments.

DETAILED DESCRIPTION

Request Commission approval to initiate a 21-Days Public Comment Period for Rural projects submitted for funding under the Federal Transit Administration (FTA) FFY2023 Rural Bus and Bus Facilities Discretionary Award to SCDOT (Section 5339).

Grants for Buses and Bus Facilities Competitive Program (49 U.S.C. 5339(b)) makes federal resources available to states and direct recipients to replace, rehabilitate and purchase buses and related equipment or bus-related facilities. This award of FFY2023 funding was allocated to SCDOT through a competitive process, from proposals submitted to FTA in response to a Notice of Funding Opportunity (NOFO).

The South Carolina Department of Transportation was awarded funding to support the purchase of new replacement vehicles for rural transit agencies throughout the state. The project will improve transit service and reliability for residents in rural South Carolina communities.

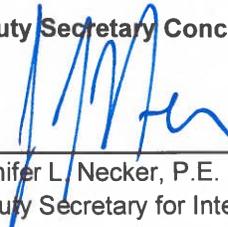

The Office of Public Transit issued a Statewide call for projects in November 2025. A list of eligible rural project applications received by the Office of Public Transit and recommended for award is attached.

A summary of substantive comments will be available to the Commission. Pending no substantive comments, successful projects will be included in a subsequent STIP revision.

Removal of Roads on the State Highway Secondary System

The Department recommends Commission approval for the removal of certain sections of secondary roads from the State Highway Secondary System. These sections of roads may be removed for one of the following reasons:

1. Abandonment of section of relocated highway – In accordance with Section 57-5-120 of the Code-of-Laws of South Carolina, the department may abandon as a part of the state highway system any section of highway which may be relocated, and every such section so abandoned as a part of the state highway system shall revert to the jurisdiction of the respective appropriate local authorities involved or be abandoned as a public way.
2. Highway transfers from the state secondary system - In accordance with Section 57-5-80 of the Code-of-Laws of South Carolina, The department may transfer from the state highway secondary system any road under its jurisdiction, determined by the department to be of low traffic importance, to a governmental or non-governmental entity if mutual consent is reached between the department and the party that the road is being transferred to.
3. Court ordered closure – In accordance with Section 57-9-20 of the Code-of-Laws of South Carolina, an entity may petition the circuit court to have a road closed. The Department is notified of the petition if the road is maintained by the Department, and has an opportunity to contest the petition if the road is of high traffic importance. If the court shall determine that it is in the best interest of all concerned that such street, road or highway be abandoned or closed, the court shall then determine in whom the title thereto shall be vested and issue an appropriate order.

Revision of Description of State Highways

The Department recommends Commission approval of the revision of the description of sections of State Highway previously added to the State Highway System. The description of roads currently in the State Highway System may be changed for relocation purposes, to revise the description of the termini to show what was actually constructed by contract, county line changes, or a change in the road number.

Additions to State Highway Secondary System

The Department recommends Commission approval to add sections of road to the State Highway Secondary. On June 21, 2007, the commission implemented a policy to reduce the secondary road system by:

- Seeking legislative changes to the system laws;
- Lowering county road caps when a secondary road is removed from the system¹;
- Exchanging roads with local governments; and
- Accepting only roads into the system that are necessary for interconnectivity of the state system or is a road considered a major collector with significant traffic volumes

- The secondary road cap for a county may be increased when a road meeting the above criteria is added to the system at the Department's request or when corrections to the existing road mileage is made and results in an increase in the total mileage above the cap.

¹County caps were previously implemented by the commission in 1994.

Rescind Action Adding Roads to State Highway Secondary System

The Department recommends the Commission rescind its previous actions adding roads to the State Highway Secondary System for construction and maintenance. The Department may rescind action on roads, which have not been constructed and formally accepted into the State Highway Secondary System. Roads may be rescinded due to right-of-way being unavailable, problems arising during construction, or funding issues.

Transfer between Secondary and Primary Systems

The Department recommends Commission approval to transfer sections of road from the Secondary System to the Primary System, or vice versa. Pursuant to the provisions of Section 57-5-50 of the Code-of-Laws of South Carolina, the Commission may transfer any route or section of route from the state highway secondary system to the state highway primary system, or vice versa, when, in its judgment, such transfer is advisable to better serve the traveling public. However, pursuant to the provisions of Section 57-5-30, the Primary System shall not exceed ten thousand centerline miles.

Detailed information concerning each of these requests is attached.
